## INTRODUCTION.

---

This Society published in 1892 and 1896, as volumes IV and V of its series of Collections, the correspondence and documents covering the period of Joseph Talcott's governorship of Connecticut, from his being first chosen in October 1724, to his death in office in October 1741. This volume, with the others of the Law Papers which are to follow it, contains the correspondence and documents covering the period of the governorship of Jonathan Law, who upon the death of Governor Talcott succeeded to the office of Governor of the colony of Connecticut, and who was continued in the office until his own death in November 1750.

The originals of the greater part of the letters and documents here printed are in the archives of this Society; some are among the Connecticut State Archives preserved in the State Library; a number are among the Belknap and the Trumbull Papers preserved by the Massachusetts Historical Society, and a few are among the Chalmers Papers preserved in the New York Public Library (Lenox foundation).

Such of the manuscripts as are in this Society's archives are, with a few exceptions, contained in the series of five folio volumes lettered "J. Law Papers." Some forty or more years ago these manuscripts were arranged in a roughly chronological order, and mounted upon stubs ready for binding. They lay thus until 1903, when they were interleaved and bound, and lettered as follows: J. Law Papers, Vol. I,

1741-1747; Vol. II, 1744-1747; Vol. III, 1747-1750; Vol. IV, 1745-1749; Vol. V, 1741-1750. These manuscripts were received by the Society in December 1840, from Larned Hebard of Lebanon, Conn., administrator on the estate of William T. Williams, as a gift from the heirs of Gov. Jonathan Trumbull, Sr. the grandfather of Mr. Williams. They had formed a part of the collection of manuscripts relating to the early history of Connecticut which had been gathered by Governor Trumbull before the breaking out of the Revolution, and had remained in the possession of his descendants until transferred to this Society.

Other manuscripts here printed are from volumes in the Society's archives lettered "Roger Wolcott Papers," "Talcott Papers," "Agents' Letters," and "Council Orders," with a few documents not classed in any series.

The proof sheets of each document printed, excepting the few in New York and Boston libraries, have been compared by the editor with the original manuscript.

## SKETCH OF JONATHAN LAW.

---

"To LAW, great man, *Connecticut* must owe  
More than to all the pow'rs, save GEORGE, below."

—(Anon. 1751.)

One hundred and fifty-seven years have passed since the death of the Honorable Jonathan Law of Milford, Governor of the Colony of Connecticut at the time of his death, and the twelfth person to be elected to that office. There is little that can be written of him after such a lapse of time except the dry official facts of his career, the personal details which lend interest to a biographical sketch having been for the most part covered by the dust of time and lost from sight. From the papers in this volume, however, many personal traits will emerge, even through the forms of official dignity and restraint.

The subject of these notes was born in Milford, Conn., August 6, 1674, the only son of Jonathan Law and his wife Sarah, the daughter of Deacon George Clark of the same town. The elder Jonathan was the son of Richard Law, an early settler of Wethersfield, whence he removed to become one of the founders of Stamford, Conn. The son Jonathan received a good education, being graduated from Harvard College in 1695, when he ranked eleventh in a class of twenty-two. This ranking indicates the social position of his family rather than the proficiency of the young man in his studies. Harvard conferred on him the degree of M. A. in 1729.

He is spoken of as "a youth of uncommon native ability and talent." His taste was evidently for the law, and he is said to have begun its practice in his native town in 1698. On September 11, 1698, he was admitted to full communion in the church in Milford. His name appears frequently on the records of Milford, where he was often chosen a member of various committees of the town.

Law is said to have been the architect of the second meeting-house in Milford, which was erected in 1727 and 1728, and was the house of worship of the First Church for almost a century.

Law's public and official life seems to have begun at the age of thirty-two, with his election to the General Assembly as one of the deputies or representatives from Milford at the session of May 1706. During this session he was appointed a Justice of the Peace for New Haven County. He was re-elected to the October session the same year, when he served as clerk of the House and received a grant of twenty shillings for that service.

In May 1708, the Assembly ordained that, except in his own case, no person should make any plea at the bar until he had been approved of by the court and taken a prescribed oath. Under this act, Law was admitted an attorney at the Court of Assistants held October 5, 1708. The same month he was established and confirmed as Ensign of the first company or train-band in Milford. This office he probably held for six years, and, excepting his formal position as commander-in-chief of the Colony's militia during his governorship, it seems to have been his only military office.

In May 1709, he was again elected a deputy from Milford; this time, for some reason not now

apparent, without a colleague. He was present at the extra session held the following month, and again served as clerk of the House. His later services as deputy were in May, and the special session of August 1710; and both the May and October sessions of 1715 and 1716. He was Clerk of the House in October 1715, and Speaker in May 1716, for each of which services he received a grant of twenty-five shillings. In October 1714 he was Clerk of the Assistants or Upper House.

In May 1709, and the two succeeding years, he was appointed a Justice of the Peace and of the Quorum for the county of New Haven, which made him an Associate Justice of the County Court. Perhaps because of his judicial position, he was one of the committee chosen to count the votes for Colony officers at the May election of 1710.

At this period the freemen of each town in the Colony met in September annually, and voted for twenty men to be placed in nomination for election the following May. The votes were laid before the October Assembly, and the twenty persons who were found to have the greatest number of votes were formally placed in nomination to be voted from at the election of the following May, and each town was notified of the names of the persons so nominated. In voting each April, the freemen of each town first voted for the Governor; and while it was not incumbent, it was the invariable custom to choose him from among those in nomination. Next the Deputy Governor was voted for from among the twenty nominated; and lastly from the remaining nominees twelve Assistants were voted for. The votes were returned to the May session of the Assembly and there counted, and those having the greatest number of votes for the respective offices

were declared elected. As twenty were placed in nomination and but fourteen elected, there must always have been a remainder of six disappointed nominees. There were few changes in the nominations and elections from year to year, the same names usually appearing in the same order of precedence, with perhaps one or two old names dropped because of death, or failure of election or of renomination, and a corresponding number of new names added at the foot of the list.

In May 1710, one Assistant who had been renominated the previous October failed of election, and was not again placed in nomination the following October. This gave opportunity for inserting a new name in the list of nominees, and Jonathan Law was placed last on the list. From this time he was annually placed in nomination until his death. It was not, however, until May 1717, that he first achieved an election as an Assistant, the last in the list of twelve. During these eight years Law made a steady advancement from the twentieth to the fourteenth position in the list. Four of these advancements were owing to the failure of Assistants of higher position than Law to secure a renomination after having failed of election; while three advancements seem to have been due to Law's personal popularity, which caused him to be placed higher in the list than others who had previously occupied positions above him.

Before his election as an Assistant, and as early as July 27, 1711, Law sat occasionally as a member of the Governor's Council, his office as justice and later as judge entitling him to that position. After becoming an Assistant he sat frequently as a member; and later as Deputy Governor and Governor he was a very regular attendant at the meetings of the Council board.

Since the seizure of New York by the English in 1664, the boundary line between that colony and Connecticut had remained in more or less continuous controversy; and the Assembly of Connecticut in October 1713, in May and October 1718, and again in May 1719, appointed commissions, of each of which Law was a member, to join with commissioners from New York to establish and mark the boundary line. Between the last two of these appointments, Law "being occasionally prevented from joining . . . in that service," the other commissioner was ordered by the Council (Law being present at the time) to proceed upon the business without him. But on none of these occasions did New York appoint commissioners to meet with those from Connecticut. In May 1718, Law was appointed to appear in the name of the Colony of Connecticut, as a "council" at Westchester, N. Y., to defend before the court there two men who had been resisted and abused "in the execution of their offices of constable and collector . . . within the limits of this Colony"—perhaps in the town of Greenwich, then claimed by both colonies.

In May, 1723, Connecticut, despairing of any action by New York, threatened to appeal to the king to force New York to appoint boundary commissioners, upon which New York agreed to appoint commissioners without delay; whereupon Connecticut in October again appointed a commission, of which Law was a member. But this effort came to naught because the two colonies could not agree as to what should be done; New York desiring only to re-establish the old boundary marks, while Connecticut claimed that the line should be re-surveyed and corrected. New York then sought and obtained from

the king the approval of an act that had been passed by her Assembly in 1719, representing that Connecticut would not join in running a boundary line, and permitting her to run the line *ex parte* between the two colonies. The following October (1724) New York gave formal notice that her commissioners would run the line between the two colonies the next April; and Connecticut once more appointed a commission, of which Law was a member, "to act in conjunction with them." An agreement stating precisely what was to be done on the occasion of this survey was drawn up and signed at Greenwich, April 29, 1725, by the commissioners of both colonies, Law being the first man to sign. It is only necessary to add that a partial survey was made the following month; but it was not completed, and the line between New York and Connecticut finally established, until 1731. It is worthy of note that with the exception of April 1720, when a new commission was named because the members of the former commission were "indisposed and incapable to attend that service," Law was a member of every commission named by Connecticut for the purpose of running and establishing a line with New York, from the beginning of the agitation in 1713 until the settlement in 1731, and was the only member thus continuously reappointed. The importance of this matter shows the high regard in which he must have been held, and the value placed by the Assembly upon his services.

After two years' absence from the bench of the County Court of New Haven County, Law was again called to that bench as Judge in May 1714, and there continued for five years. While serving as judge of the County Court, he was appointed a judge

of the Superior Court in May 1715—the only instance, for twenty-nine years after the constitution of that court in 1711, of a person not the Governor, Deputy Governor or an Assistant, being appointed a judge on that bench. The following year, though a Justice of the Peace and a judge of the County Court he was not chosen to the Superior Court. But the next year, 1717, he was again appointed a judge of the Superior Court, and was annually reappointed until May '1725, when he was chosen Chief Justice of that court; a position that he retained by annual reappointment until his death.

As previously noted, Law was first elected an Assistant in May 1717, when he stood twelfth and last in the list of Assistants. At the next election, the Assistant next above him failing of election, Law advanced one position in the list. There he remained through annual elections until May 1722, when another failure of election advanced him to tenth position. The following year, 1723, owing to the death of one nominee and the failure of two others to be re-elected, Law advanced to the seventh position in the list of Assistants. The death of the Deputy Governor during the year advanced Law at the 1724 election to sixth place in the list of Assistants. Governor Saltonstall died in September, and at the October nomination Law was jumped from sixth Assistant, equivalent to eighth position in the list of nominees, to second position; and in May 1725, he was elected Deputy Governor. To this position he was annually re-elected for sixteen years, until upon the death of Governor Talcott in October 1741, he was called to the Governor's chair to fill the unexpired term. In May, 1742, he was elected Governor, and thereafter annually re-elected until his death.

Law's advancement at the nomination of October 1724 was a glowing tribute to his popularity and worth in the Colony; advancing him as it did over five Assistants, four of whom had been continuously in that office since before Law's first nomination in 1710, one of the four having served continuously since 1694.

That Law was a learned and shrewd lawyer is evidenced by the legal positions he was called to fill, as well as by the arguments drawn up by him and sent to England for the use of the Colony's agent in the appeal of Clark vs. Tousey. And it is apparent that Clark's kinship with Law (they were first cousins) made no difference in his view of that case or in his efforts in the Colony's behalf.

The Louisbourg expedition, with all the unpleasant consequences which seem inevitably to follow in the wake of a military campaign, provoked many and deep jealousies, stirred up the turbulent element in the population, and brought about a spirit of dissatisfaction and unrest. In this trying period Law governed with a strong and steady hand, remained calm and dispassionate, and advocated mildness in punishment but that none of the guilty should be spared.

The Assembly in May 1732, upon petition of a number of persons, incorporated these memorialists under the name of the "New London Society United for Trade and Commerce," for the purpose of carrying on trade and commerce and encouraging fishery. This society in August following began to issue quantities of bills, in close imitation of the Colony's bills of credit. It soon became apparent that the issue of these bills was likely to injure the Colony's good name and bring her into bad repute; particularly as there seemed to be but little value upon which to

base such an issue, and it was possible that the Society might be unable to redeem the bills. Accordingly, the Assembly was called together in special session on February, 15, 1732-3; the Society was cited to appear before it, and after a hearing, the act incorporating it was repealed, and arrangements were made for an issue of bills of credit of the Colony to redeem the Society's bills. Governor Talcott was visited by a "long and dangerous sickness" during the winter of 1732-1733, and was not present at the February session of the Assembly, Deputy Governor Law presiding in his stead. The sketch of Law accompanying his funeral sermon states that "the honor of suppressing the currency of the New London Society, that execrable business which would have disrupted the state, and ruined it, is due to his wisdom and watchfulness."

Governor Talcott, Law's immediate predecessor in the office of Governor, seems to have acted with much leniency towards the ecclesiastical controversies, the new religious views, and the preaching of the itinerants, which were securing a strong hold in some parts of the Colony. But with the advent of Law's governorship a change of policy appears. With a firm hand the itinerants were regulated or crushed, and stringent ecclesiastical laws were passed, which no doubt tended to the peace and welfare of the Colony—however hard they may have seemed to the Separatists, the Whitefieldians and others. Law belonged to the Arminian or "old-light" party, as opposed to the "new-lights," who looked upon these new laws as persecution.

A controversy over the calling and settling of a minister by a dissenting body of the church in Milford gave an opportunity, which was seized upon

by Law and his associates, for enforcing these new ecclesiastical laws to the letter; and in consequence the newly called minister was legally and perhaps forcibly evicted from the Colony.

In May 1734, the Assembly, for the purpose of encouraging the new industry, passed an act granting a bounty or premium on all silk grown and manufactured in the Colony during the next ten years. The grant was not renewed at the expiration of the period named. This act marks the beginning of an industry which, although perhaps never a successful one, was continued in Connecticut for a century. At his extensive farm near Cheshire, Law was one of the first in the Colony to plant mulberry trees and to introduce the raising of silkworms. In 1747 Law wore the first coat and stockings made of New England silk, and in 1750 his daughter wore the first silk dress of domestic material. For a specimen of silk cultivated by him and sent across the Atlantic he received an award from the British Parliament.

The October meeting of the General Assembly in 1750 ended its sessions on November first. The following day Governor Law, "having finished his official duties with his customary learning and care," returned to his home in Milford. The succeeding day he was taken ill, and after suffering greatly for three days he died of a strangury on November 6, 1750, in the seventy-seventh year of his age.

He was buried in the Milford cemetery, where a handsome table monument in the most elaborate style of that period was erected to his memory, and may still be seen.

The inscription on this monument was copied in 1784 by Ezra Stiles as follows:

Veri Literatura Integritate | et Regendi Arte

peritissimi | Jonathan Law Armig. | Colonæ Con-  
necticutensis | Gubernatoris | Qui ob. Nov. 6, 1750  
ætat 77.

The inscription has evidently been renewed, for  
it now reads:

Jonathan Law | Governour of the | Colony of  
Connecticut | From 1742 to 1750 | He was born at  
Milford | August 6, 1672 | where he died | Nov.  
6, 1750.

An error of two years will be noted in the  
date of his birth here given.

Ezra Stiles, a close personal friend and at that  
time the Senior Tutor at Yale, delivered a formal  
oration in Latin upon Governor Law in the hall of the  
college on December 12, 1750, which was published  
as a small quarto of 2 ff., 12, (3) pp., with the following  
title:

The last three pages consist of "An Address to

occasionally present at the House of the Reverend  
Mr. Clap" the day after the oration was pronounced.

The same year as the oration there was also issued anonymously at New London in small quarto form, 2 ff., 8 pp., a poem with the following title:

A | Poem | Occasioned by the Death | Of the  
Honourable | Jonathan Law Esq; | Late | Governor  
| of | Connecticut. | [Four lines from Pope.] | Printed  
in the Year, MDCCLI. |

Stiles in his funeral oration speaks of the Governor as follows:

“No one was more energetic, steadfast or faithful in the performance of duty. In discharging his office as judge, no flatteries seduced him, nor could he be swayed by the niceties and fine distinctions of word usage; he was moved only by the force of reason and the evidence of facts. As Senator and Governor he governed the State most excellently, studying the public welfare and advantage; and serving it with the greatest assiduity. Always fixed firmly in his mind was the motto: *Salus populi suprema lex esto*. He had ever the most just and reasoned view of public affairs and of his administration; the greatest necessities of himself, the people, or his friends would never allow him to step aside from the straight path of duty. His private life distinguished for its merits and virtues; incorruptible in character. What friend more witty and merry than he? What husband more kindly? What parent more affectionate? What relative more helpful?”

Prof. James L. Kingsley of Yale in a sketch written in 1847 says:

“Governor Law was unquestionably a man of high talents and accomplishments, both natural and acquired. He was well acquainted with civil and ecclesiastical subjects, and gradually rose, by the

force of his own exertions, to the highest honors of the State. He was of a mild and placid temper, amiable in all the relations of domestic life, and seems to have well discharged the duties imposed on him."

A manuscript poem in the Society's archives entitled "Observations on the several Commanders of the Ship Connecticut: Oct. 10, 1769," has the following verse regarding Governor Law:

"Our next commander, Jonathan,  
 Was deeply skilled in *Law*, Sir,  
 And as honest a man of that knavish clan  
 As ever appear'd at the bar, Sir.  
 He cleaned the Ship, mounted the guns,  
 And if I am not mistaken,  
 The very first cruise he ever made,  
 Proud Louisbourg was taken.  
 And this is what I have observed,  
 Of folks who've been new-lighting, —  
 Like Saracens, Saints Soldiers make,  
 And prove their faith by fighting."

The following brief memoranda of Governor Law's family may prove of interest here.

He married first, when twenty-four years of age, on December 20, 1698, Ann, the daughter of Rev. Joseph Eliot of Guilford. She was born December 12, 1677, and died November 16, 1703.

The children of this marriage were:

Jahleel, baptized January 7, 1699/1700; died August 2, 1701.

Sarah, born August 19, 1701; died June 18, 1717.

Ann, born August 1, 1702; married January 12, 1724/5, Rev. Samuel Hall of Cheshire, son of John Hall; died August 23, 1775. Their grandson, Samuel Augustus Foote, was governor of Connecticut in 1834.

His second wife was Abigail, daughter of Josiah Arnold, a member of the Rhode Island family of that name. They were married February 14, 1704/5; and she died December 14 of the same year.

One son, Jonathan, was born to them on December 5, 1705. He married Eunice, daughter of Samuel Andrew, Jr., January 11, 1737/8. Jonathan and Eunice were admitted to membership in the church in Milford August 31, 1741. They continued to reside in Milford, where several children were born to them, and where he died September 24, 1790.

His third marriage occurred on August 1, 1706, when Abigail, daughter of Rev. Samuel Andrew, the minister in Milford, became his wife. She died September 25, 1724.

Their children were:

Jahleel, born February 15, 1707; resided in Milford, where he died in 1781. He married Anna, daughter of Thomas Baldwin and widow of Richard Hollingsworth. One or more children were born to them.

Abigail, born March 12, 1709; married George Clark, Jr., of Milford. She died in 1743.

Samuel, born May 27, 1711. He was of unsound mind, and died in 1780, without having married.

Richard, born July 8, 1713, died September 12 of the same year.

Law's fourth wife was a widow, Sarah Burr of Fairfield, whom he married in 1726 and who died January 17, 1727, without issue.

His last marriage was in 1730 to Eunice, daughter of Hon. John Hall of Wallingford and widow of Samuel Andrew, Jr., of Milford, whose sister Abigail had been his third wife and whose daughter Eunice later became the wife of his son Jonathan. After

Governor Law's death his widow married Colonel Joseph Pitkin of East Hartford.

The children of this last marriage were :

Sarah, baptized March 28, 1731, died October 25, 1736.

Richard, born March 7, 1732/3, was graduated from Yale College in 1751. He settled in New London, where he practiced his profession of the law. He was called to many public offices—Representative, Assistant, Chief Judge of the County Court, Justice and later Chief Judge of the Superior Court, District Judge of Connecticut, Delegate to the Congress of the Confederation, Member of the Connecticut Council of Safety, Mayor of New London. On September 21, 1760, he married Anne, daughter of Capt. John Prentis of New London. Twelve children were born to them. He died January 26, 1806.

John, baptized September 28, 1735, was graduated from Yale College in 1753. He enlisted in the French war in 1756 in the company of Gen. Phineas Lyman, and served as the General's Aide-de-Camp and Secretary. In 1759 he was appointed Commissary for the Colony to reside at Albany, where after the close of the war he was kept in confinement, it is supposed because of mental derangement. He removed in 1770 to South Carolina, and on May 6 of that year he married in Charleston Mary, widow of William Glover. He died near that city on September 16 of the same year.

Sarah, born March, 1737, baptized January 8, 1737/8, married Rev. Seth Pomeroy, Jr., pastor of the Greenfield Hill church in Fairfield. They were the parents of two children. She died a widow, May 6, 1783.

Governor Law's mention in a letter of June 28, 1744, of "My Son Andrew," probably had reference to his stepson Samuel Andrew, the only son of his wife Eunice by her former marriage.

## RESOLVES OF THE GENERAL CONSOCIATION.‡

The Resolves of the General Conso[ciation, convened at Guilford,] Nov<sup>r</sup> 24<sup>th</sup> 1741

This General Consociation having Sought to God by Prayer for his Direction & Guidance and freely Confer'd and Debated came unanimously to the following Resolves

It appears that there has for Some time past been a great and remarkable Work of God carried on in this Land and in this Government, that great Numbers of Persons cheifly of the lower and younger

---

\* This Vote and the Resolves which follow were laid before the General Assembly which convened May 13, 1742, and accompany a letter to the Assembly.

† Samuel Whitman was of Farmington, William Burnham of Kensington, then partly in the town of Farmington, and Benjamin Colton of Hartford West Society.

‡ It may not be generally known that these Resolves were printed in 1825 as an appendix to a Sermon preached by Rev. Thomas Robbins at Manchester at the installation of the Rev. Enoch Burt, July 1, 1824. The manuscript in the State Archives is somewhat imperfect, and the missing words have been supplied in brackets from the printed sermon. The wording of the two copies differs slightly.

Sort have been awakened in an uncommon Manner to be concern'd for their Eternal Salvation, and Inquiring what they Shall Do to be Saved, And it is to be hoped, that a great many Souls have been brought Savingly to believe in Jesus Christ unto Eternal Life.

At Such a time it becomes the Ministers & People of the Lord Jesus Christ to Testify their Thankfulness & Praise to him for his wonderful Mercy to a Sinfull People, who having been long highly favour'd with Distinguishing previlidges and having abused them are yet favour'd with Such a Glorious and Mercifull out pouring of his Holy Spirit.

As is natural to Expect in this corrupt and Dark St[ate of the] world, there are diverse [human weaknesses, imperfections and impru]dences, which have attended this great and [work, both in some] of the Instrumtents, who have appeared most Zealous to pr[omote it ] and in Some, who we hope are wrought upon Sincerely to beli[eve in] the lord Jesus Christ, as well as in those under awakening and concern and there are also diverse Stratigems and Devices of Satan & Endeavours of his to deceive unwary Souls and to Impose on . them and thereby throw a Blemish and Reproch on the work of God.

There ought to be great Care taken by People in the Choice of Ministers, that they get men of Learning, Wisdom and of Piety and ought to attend only on the Ministry of Such as are approv'd or allow'd by the Constitution of the Colony.

Ministers and Associations ought to be Carefull to licence Recommend or put into the ministry, none but Such as are men of learning wisdom and Prudence and as far as they can Discern men of

true Piety and Experimental acquaintance with Jesus Christ.

When Persons of this Character (according to a Judgment of Charity) are introduced into the Ministry by the Regular Choice of the People and Regular Ordination by the h[ands of] the Pr[esby]ter as hath been Practised in the Chu[rches of New England, they are lawful ministers of Christ e]ven if after all they Should Really [be] Uncon[verted] men

If any person Should apprehend this was the State of any Minister or other Public Person, tis not lawfull either Publicly to Declare Such a Judgment or privately to Insinuate the Same or Peremptorily to pronounce this concerning any one of them, nor undertake by open Censures and Seperations to Remove them and Reform the Church.

That Heresie, False Doctrine grossly Such Scandalous Sin and the unjust Imposition of Such Terms of Communion as Christ hath not made are the only just grounds of open Seperation, and that not till proper Steps are taken in order to A Regular Conviction

And in Case of Seperation or Seperations not so Qualified We advise the Several and Respective Consociations, within whose Circuit they may happen to take Cognizance of the Same and proceed therein according to the Constitution.

We know of no way to Determine of the Conversion of any [other p]erson, but from his Christian Profession, life and Conver[sation, on a particular informa]tion of his Experience of a work [of God on his heart], and to pretend to Judge thereof by any [part]icular impression made upon a persons mind concerning another is unsafe and dangerous having no warrant in the word of God.

We are all agreed that the holy Scriptures are the only Rule of Faith and manners, and whatever inward impressions any person may pretend to as a Direction to Duty or Judgment which is not by and according to the word of God is an unsafe and fallacious ground of action and Judgment in Religion and Duty.

We approve of the Established Constitution in this Government both as to Doctrine and Discipline and purpose to abide by it and act in Conformity to it

That for A Minister to Enter into another Ministers Parish and Preach or Administer the Seals of the Covenant without the Consent of or in Opposition to the Setled Minister of y<sup>e</sup> parish is disorderly

Not with Standing if a considerable Number of People in a Parish are desireous to hear another Minister Preach pro[vided] the [Same] be orthodox and Sound in the Faith & not notoriously [faulty in censuring other] Persons or Guilty of any other Scandle we think it Ordinarily advisa[ble for the minister of the parish] to Gratifie them by giving his Consent upon the[ir s]uitable [appli]cation to him for it unless Neighbouring Ministers Should advis[e] him to the Contrary.

That no Peticular Association or Consociation Shall Intermeddle or take upon them to act out of their own limits or precincts in the Affairs of another Association or Consociation without their Consent as to the Examination of Candidates or any other matter tending to disorder and Confusion

That in Voluntary meetings for Religious Exercises Endeavours be used that they may not Interfer with the Stated Worship of families or with Civil order to the offence of any

We are Sorry to find that Some Persons are gone So far as to withdraw and Separate themselves from the Communion of the Churches, where they belong, having taken up an Opinion that their ministers are unconverted, whereby we think muc[h] uncharitableness is Encouraged, and hard thoughts and E[vil mur]murs among Profesing Christ[ians, which it is to be wished] might be Remedied by Gentle mea[ns, with the meekness and gentle]ness of Christ and we would Propose

1 That Such places and as many others as See Cause would keep a Day of fasting and prayer to Seek wisdom and Light from God to teach them their Duty and that he would not Suffer Satan to get an Advantage against them, nor by any other means Suffer the good work of his Grace to be hindred but would Powfully carry it on among them.

2 We would Earnestly Advise y<sup>e</sup> Ministers of Christ and all Serious Christians to be united in Advising those who are under mistakes and prejudices to avoid Such Separations & Divisions and to wait patiently on God for light and Direction And that all would be of a patient and forgiving Spirit bearing one anothers Burthens and So fulfill the Law of Christ.

And further to carry on this good work, which is Begun in the land, and to Remove & Prevent whatever may hinder it, We would Recommend it to the Several Associations to meet t[ogether] to unite their prayers to God for [this purpose, in their next stated meeting, or sooner if] they please and in their Assistance and Advice to one another that as far as possible they all may be One as Christ and the Father are One in promoting the great Designs of the Redemption of Christ

That the Thanks of this General Consociation be in Some proper method presented to the Honorable the General Assembly in May next for their goodness in Countenancing and Defraying the Charge of this Present Convention, and that the Committee Appointed to present the Thanks of this Consociation to the General Assembly do also Inform by an Attested Copy the Said General Assembly of the Doings of this General Consociation.

All the foregoing Articles and Peticulars were unanimously Resolv'd by this General Consociation and Concluded with Prayer.

S<sup>r</sup>

Yours of Sep<sup>t</sup> 22 1741 directed to our worthy Gov<sup>r</sup> Talcott who dec<sup>st</sup> in Octob<sup>r</sup> last have received by w<sup>ch</sup> I understand you had drawn y<sup>e</sup> money for our Bills of Exchange and prudently purchasd South Sea Stock to y<sup>e</sup> value of 500<sup>l</sup> &c. Our Assëmbly thinking it a point of prudence to discharge the Debt they had contracted on themselves by emitting those Bills of Credit for his Maj<sup>ties</sup> Service Orderd six hundred pounds to be sold for that end one of w<sup>ch</sup> 100<sup>l</sup> was accordingly sold to M<sup>r</sup> Clark another also to M<sup>r</sup> Lothrop for w<sup>ch</sup> I have drawn Orders upon your self

M<sup>r</sup> Clark is on y<sup>e</sup> Prosecution of his Appeal. I trust You will not be wanting in doing all that is in your Power to prevent a second Determination against our Intestate law, fram'd so agreeable to y<sup>e</sup> true State of our Countrey w<sup>ch</sup> as yet is but new and has populated much faster than neighbouring Prov-

inces where Discents have followed y<sup>e</sup> Course of y<sup>e</sup> coñon law. I would remind you of the Massachusetts Case which may over ballance Winthropps (being of a later Date) if y<sup>e</sup> foundation of y<sup>m</sup> are the same Power of Legislation in both Charters are restricted to be Not contrary to y<sup>e</sup> laws of England, in y<sup>e</sup> Massachusetts Charter, a Negative or after Confirmation is reserved in y<sup>e</sup> Crown, in ours a previous Confirmation and even a Warrantie is granted to all Acts &c done pursuant to y<sup>e</sup> Authority given by our Charter thô my Lord Northey left it out of y<sup>e</sup> Recital of y<sup>e</sup> Authorities in our Charter in y<sup>e</sup> Indian One-co's Case

Of what Benefitt could a Confirmation be of the Massathusetts law\* if their Charter by w<sup>ch</sup> they were then existing and acting did not authorize them so to do

Again y<sup>e</sup> late Act of Parliament determining lands to be chargeable with Debts in y<sup>e</sup> Plantations as Chattells are in y<sup>e</sup> hands of an Adm<sup>r</sup> gives further Cause to suspect y<sup>e</sup> Case of Leachmer & Winthrop to be poorly managed for the Reason of the Case and nature of the thing must be the same then as it was at the making y<sup>e</sup> Act of Parliament w<sup>ch</sup> is the very same in Effect as gave Winthrop all the Grounds he had for his Complaint in the Case

Certificates from all our Courts of Probats shewing all y<sup>e</sup> Estates in this Colony being settled by that law ever since it was made w<sup>ch</sup> I take to be in 1698, and divided among all the Children from

\* The Massachusetts case referred to is that of Phillips vs. Savage. Papers in this case are given at length in Massachusetts Historical Society's Proceedings, 1860-1862 (vol. V). See also Talcott Papers, I, 94, note (*Collections, IV*).

y<sup>e</sup> very beginning of our first Plantation here together with Copies of y<sup>e</sup> Reasons whereby y<sup>e</sup> Distributions were made, were sent by Gov<sup>r</sup> Talcott and I presume are lodg'd in your hands, that they might be ready when Occasion should require

I hope you will be admitted to be heard in favour of y<sup>e</sup> Gov<sup>t</sup> as y<sup>e</sup> Agent for y<sup>e</sup> Massachuset was, since it affects a law of this Gov<sup>t</sup> thô Mr Duñer was denyd

Particular Customs is one of the Tryangles of y<sup>e</sup> laws of England surely our law is not contrary to some of them

It has been frequently determind in y<sup>e</sup> Kings Bench That y<sup>e</sup> law of England extends not to y<sup>e</sup> Plantations, but the law natural takes place there when they have none of their own see Salkeds Reports see Cases from Jamaica, Virginia

Mr Attorney gen<sup>l</sup> and Solicitor in y<sup>r</sup> Opinions given to y<sup>e</sup> Lords of y<sup>e</sup> board of Trade and by them sent to us for our Instruction on Intaild lands in the Plantations say that y<sup>e</sup> law of England takes no place in y<sup>e</sup> Plantations unless y<sup>e</sup> same was made there and even then not as y<sup>e</sup> law of England but as an Act of y<sup>r</sup> own Legislature

And indeed how is it possible in y<sup>e</sup> nature of the thing That that w<sup>ch</sup> is limited with the four Seas should jump over y<sup>m</sup>

I believe no Instance has occurrd before nor since the Case from the Isle of Man w<sup>in</sup> an Opinion was given in favour of that Conclusion That where ever lands are holden under y<sup>e</sup> great Seal of England, Discents should always follow y<sup>e</sup> Course of y<sup>e</sup> Coñon law

How then should he that claims land out of y<sup>e</sup> Verge of y<sup>e</sup> coñon law maintain his claim by it.

To root up and destroy a Countrey by applying Rules w<sup>ch</sup> never directed y<sup>e</sup> matters of fact in y<sup>e</sup> settlement of it is an Engine w<sup>ch</sup> would destroy all humane Society

Almost every freeholder in y<sup>e</sup> Gov<sup>t</sup> possess lands more or less w<sup>ch</sup> have passt as it were thro<sup>t</sup> the Loyns of younger Sons, and would be put out of their hands if every eldest Son might claim by the Rules of the co<sup>m</sup>on law of England. And new Countreys cant well be occupied or Defended w<sup>th</sup>out y<sup>e</sup> Assistance of younger bretheren, who are more numerous in proportion than in old Countries ought therefore to be encouraged

M<sup>r</sup> Winthrop is coming with a Complaint in some form or other against a Decree of our last Assembly for his payment of y<sup>e</sup> money w<sup>ch</sup> in his Complaint to y<sup>e</sup> King and Council he declared himself always willing and ready to pay In consequence w<sup>r</sup>of so many Misfortunes have befallen us.

I doubt not S<sup>r</sup> of your doing your utmost to avoid any further Mischiefs falling on y<sup>e</sup> Gov<sup>t</sup> on that Score

When any further Stepp shall be taken in Masons affairs hope you will give notice of it. M<sup>r</sup> Sollicitor's Directions deserve to be remembered

Your good Acceptance of your last years Psallery will be an Encouragement to be honourable<sup>d</sup>

## JONATHAN LAW TO FRANCIS WILKS.

S<sup>r</sup>

When I wrote to you on y<sup>e</sup> 10<sup>th</sup> of this Instant  
 M<sup>r</sup> Hill I confess I had not acquainted my self  
 with yours of Nov<sup>br</sup> 27<sup>th</sup> 1740 to Gov<sup>r</sup> Talcott just come  
 to my hands in which you inform That its a ruld  
 Case that on Appeals nothing can be taken Notice  
 of, save that w<sup>ch</sup> comes from y<sup>e</sup> Records or files of  
 the Court where the Tryal was had, so shaped my  
 discourse as thô y<sup>e</sup> same Rule was to be observ'd as  
 was given in y<sup>e</sup> late Comission att Norwich w<sup>ch</sup>  
 directed to y<sup>e</sup> hearing any new Pleas Allegations,  
 Evidences &c. but in Clark's Case vs Towsy I sup-  
 pose y<sup>r</sup> is nothing of Record or on y<sup>e</sup> files saving y  
 Writt the Plea w<sup>ch</sup> was general, the Verdict of the  
 Jury and y<sup>e</sup> Judgment. It was my fortune to pre-  
 side on that Tryal, and as my Memory serves me  
 all matters of fact were conceded to on both sides  
 and whether y<sup>e</sup> eldest Son were Heir at law? was  
 all y<sup>e</sup> Dispute between y<sup>e</sup> Parties. the Plant: alledgd  
 That y<sup>e</sup> Coñon law of England was the Rule to di-  
 rect y<sup>e</sup> Succession of Inheritances here, and quoted  
 a Case out of my Lord Cokes Institutes resolv'd by  
 y<sup>e</sup> Court of Exchequer in Queen Elizabeths Reign  
 abt y<sup>e</sup> Isle of Man wherein it was Resolvd That  
 lands holden under y<sup>e</sup> great Seal of England should  
 descend according to the Course of the Coñon law

To w<sup>ch</sup> it was Replyd That y<sup>e</sup> Coñon law had  
 its proper Limitts and never extended to y<sup>e</sup> Planta-  
 tions and quoted a Case from Jamaica and another  
 from Virginia out of Salkelds Reports wherein it  
 was Resolvd in Banco R<sup>ts</sup> That y<sup>e</sup> law of England ex-  
 tends not to the Plantations unless to an uninhabited  
 Countrey and that y<sup>e</sup> law natural or y<sup>e</sup> law of

natural Equity must be y<sup>e</sup> law there till the King declares his law there. And then alledg'd That K Ch. 2<sup>d</sup> by Charter delegated to y<sup>e</sup> Gov<sup>r</sup> & Company an Authority to make any good and wholsome laws not contrary to y<sup>e</sup> laws of England and said y<sup>e</sup> s<sup>d</sup> Gov<sup>r</sup> & Company had made a law called y<sup>e</sup> Interstate law and insisted That either that law was in force or y<sup>e</sup> law of Natural Equity must take place.

To w<sup>ch</sup> the Plant Replyd That y<sup>e</sup> Interstates law was Vacated and Repeald by y<sup>e</sup> King and Council and the law of Nature and Nations did acknowledge primogeniture And accordingly the Case was com̄itted to y<sup>e</sup> Jury who brôt in y<sup>r</sup> Verdict as you see

As for my own part I never found out any other way of proceeding than this If y<sup>e</sup> Def<sup>d</sup> took y<sup>e</sup> gen<sup>l</sup> Plea in any Case, a Jury was impaneeld and then on y<sup>e</sup> Parties conceding to all y<sup>e</sup> matters of fact layd in the Declaration they proceed im̄ediately to debate y<sup>e</sup> Point or Points of law arising upon those facts and this alwayes Verboteims and never becomes matter of Record neither can it be filed

So S<sup>r</sup> you see the Case is plain The Appellant Complains That he being eldest Son to his ancestor is heir at law and is held out of his Inheritance

He setts himself up to be heir by y<sup>e</sup> Cōmon law of England. And whether that dos extend here by Vertue of its being y<sup>e</sup> law of England, may (doubtless) be fairly observd and debated without any thing more than what comes from y<sup>e</sup> records and files of our Court. and this Comprises y<sup>e</sup> whole Difficulty between y<sup>e</sup> eldest & younger Sons or other children

Admitt y<sup>e</sup> Cōmon law of England to be y<sup>e</sup> law of y<sup>e</sup> Plantations then none can be made there but in such Cases w<sup>in</sup> y<sup>r</sup> is n<sup>o</sup> provision in y<sup>e</sup> Rules

of that law, for no less Authority than y<sup>e</sup> Parliament can alter y<sup>e</sup> Co<sup>m</sup>on law

It was no ways suggested in y<sup>e</sup> Act of y<sup>e</sup> King & Council in vacating our Intestate law That y<sup>e</sup> Co<sup>m</sup>on law was a Rule here directing y<sup>e</sup> Succession of Inheritances, wherefore it was Presumption in us to make a law for that purpose when one was already made to our hands w<sup>ch</sup> could not be altered by any lower Authority than y<sup>e</sup> Parliament of great Brittain, but y<sup>e</sup> Suggestion is, that we might make a law for that end were it not contrary to y<sup>e</sup> law of England, w<sup>ch</sup> is inconsistant with an Hypothesis that y<sup>e</sup> law of England is our law.

And y<sup>e</sup> Report of y<sup>e</sup> Lords of y<sup>e</sup> Board of Trade to his Maj<sup>ty</sup> was (as I remember) that we should by no means be allowed to make a law to direct the Succession of Inheritances contrary to y<sup>e</sup> Rules of the Co<sup>m</sup>on law, and whence should that Caution be if y<sup>e</sup> Rule was already fixd by y<sup>e</sup> Co<sup>m</sup>on law

Further my L<sup>d</sup> Chancellor w<sup>n</sup> he was King's Attorney & M<sup>r</sup> Solicitor Talbott in answer to a Question in law put by y<sup>e</sup> L<sup>ds</sup> of y<sup>e</sup> Board of Trade, in Consideration of our Case on Intaild lands in y<sup>e</sup> Plantations Whether y<sup>e</sup> heir might be barrd by fine and Recovery as in England, gave their Opinion That he could not unless y<sup>e</sup> same law were made in the Plantation where the land lay and then it would not be by force of the law of England but because it was an Act of the Assembly where the land lay. This y<sup>e</sup> L<sup>ds</sup> of y<sup>e</sup> Board of Trade orderd M<sup>r</sup> Popple to transmitt to us for our Instruction, and what could we learn by it, this only accepted, That y<sup>e</sup> laws of England dont extend to us and if we would have

any law of England to be our law we must make it our selves.

I would further add That y<sup>e</sup> late Case of the Massachusetts is a Demonstration of this Principle Viz that y<sup>e</sup> Coñon law dos not extend to y<sup>e</sup> Plantations because, that Rule of y<sup>e</sup> Coñon law could not have been altered by any lower Authority than the King and Parliament of great Britain. Its as reasonable to suppose it within y<sup>e</sup> Authority of y<sup>e</sup> Assemblies in y<sup>e</sup> Plantations to repeal Acts of Parliament made for the Plantations as to repeal or alter any Rule in y<sup>e</sup> Coñon law, provided y<sup>e</sup> Coñon law extends to and is law in y<sup>e</sup> Plantations. how then is it possible for my Kinsman\* to shew himself to be heir at law by that w<sup>ch</sup> is no law where y<sup>e</sup> Inheritance lyes? I acknowledge I have usd my uttmost Endeavours to perswade our Assembly to make a law agreeable with y<sup>e</sup> Coñon law, (to prevent such Debates) but could never prevail.

S<sup>r</sup> I would only intimate to you, least my other Letter should miscarry, That I have signd Orders for your payment of 100<sup>l</sup> to M<sup>r</sup> Clark 100<sup>l</sup> to M<sup>r</sup> Lothrop and 285<sup>l</sup> to M<sup>r</sup> Hill pursuant to an Order of our Assembly for y<sup>e</sup> Sale of 600<sup>l</sup> in your hands to call in y<sup>e</sup> Bills emitted for his Maj<sup>ties</sup> Service. And Assure you that I am Your very humble Servant

P S Two things I have observd in my L<sup>d</sup> Northey's Opinion which laid y<sup>e</sup> foundation for Gov<sup>r</sup> Dudley's Court on Owoneco's Complaint.\* should be glad of your and M<sup>r</sup> Sharps thôts upon it if y<sup>e</sup> time be not lapsd for our taking Benefitt by it before y<sup>e</sup> next hearing. the first is a Suggestion That at y<sup>e</sup> time of y<sup>e</sup> granting our Charter y<sup>e</sup> Indian Sachem was in full Possession of y<sup>e</sup> land, so nothing could pass by y<sup>e</sup> Kings Grant to y<sup>e</sup> Gov<sup>r</sup> & Company. which if that were the Case surely y<sup>e</sup> Instructions would have been to settle y<sup>e</sup> Bounds between y<sup>e</sup> Colony and the foreign Prince or Sachemshipp.

The other thing is. That y<sup>r</sup> are in y<sup>e</sup> Recital of y<sup>e</sup> Powers granted in our Charter, no words exclusive of her Maj<sup>ties</sup> erecting a Court in y<sup>e</sup> Colony, and that is y<sup>e</sup> only Reason suggested by him why her Maj<sup>ty</sup> might lawfully do it.

Now if you compare y<sup>e</sup> Recital with the Charter you will find these words in y<sup>e</sup> Charter besides what are recited Viz And these our Letters patent shall be to all and every such Officers, Superiors and Inferiors from time to time for the putting y<sup>e</sup> same Orders, Laws, Statutes Ordinances, Instructions and

Directions in due Execution against Us our Heirs and Successors, a sufficient Warrant and Discharge.

Had my Lord have putt these words into y<sup>e</sup> Recital and then said, because y<sup>r</sup> are no words exclusive of her Maj<sup>ties</sup> erecting a Court, I must have believed on y<sup>e</sup> Evidence of his Opinion that these words were not exclusive.

I never understood it to be criminal to plead to y<sup>e</sup> Jurisdiction of any Court.

I esteem this y<sup>e</sup> greatest Priviledge in our Charter and if all that we do be subjected to an Enquiry by Gentlemen of neighbouring Governments our whole Administration will be very precarious

I therefore pray your Advise upon it

To the Honourable General Assembly to be held at Hartford the Second Thirsdlay of may next.

The memorial of the Pequod Indians in Groton humbly Sheweth, y<sup>t</sup> of late we have been much concern'd about our souls, & to know w<sup>t</sup> we may do to please y<sup>e</sup> Great God, who we are Sensible is very angry with us for our wickedness and drunkenness our Sabbath breaking & idleness & some of us we hope have believed on the Lord Jesus Christ. But our knowledg is but very little we want to learn to read the Bible and to have our Children learn to read it too, & thereby learn to know more of the Great God & what He would have us to do in this world y<sup>t</sup> we may live with him in the next we are thankfull to your Honors for your Care of us in appointing men to take care of us & our lands from time to time. OWEN AND CROSWELL TO THE GENERAL ASSEMBLY.

GROTON, May, 6, 1742,

To the honourable General Assembly to be held at Hartford the Second thursday of May, next; We the Subscribers beg leave to Inform Your honours,

That we dwell Near to, and are well Acquainted with the Circumstances of the Pequod Indians living in Groton, who have (Not withstanding all Attempts to bring them to the knowledge of the Gospel of Jesus Christ) Remained in heathenish Darkness, Debauch'd in life and manners, and utterly Averse to all manner of learning, till about Eight months past, they have been Generally much concern'd about their Souls Deeply convicted of the Dreadful Sinfulness of their hearts, and a considerable Number of them, we trust, have been Savingly United to Jesus Christ. There are about 50 who constantly attend the preaching of the Word in whom there Appears an Uncommon concern about their souls, a teachable Spirit and tem-

per, and a great Aptness to Receive light and knowledge— And they are Generally Reformed as to their beloved Sin of Drunkeness, and behave with an unusual Sobriety and Decency.

Above thirty of them are Much Inclind. to Learn to Read, and take uncommon pains to Attain knowledge, but, their circumstances being So very Miserable that they are not (without help) able to Get learning; we would humbly Recommend it to Your Honours that Some care for this End may be taken of the Miserable Remains of the Pequod Savages; that the blessing of their Souls ready to perish, may come Upon You.

There are Upwards of an hundred of them in This Town— These things we humbly offer to Your honours Consideration; and as in Duty bound &c

JOHN OWEN  
ANDREW CROSSWELL

SAMUEL WELLES\* TO ROGER WOLCOTT.

BOSTON, May 13, 1742.

*Sir,*

I have heard your General Court would Probably chuse an agent in M<sup>r</sup> F. Wilks's Stead pretty speedily, I was ready to think it was so supposed

\* Samuel Welles was born in Glastonbury Dec. 24, 1689. He was graduated from Yale in 1707 and four years later was ordained pastor of the church in Lebanon. In 1719 he married Hannah Arnold of Boston, and in 1722 he relinquished his pastorate and removed to Boston where he accumulated much property. He was several times a representative to the General Court from Boston and seven times a member of the Governor's Council. For fifteen years until his death, May 20, 1770, he was a Judge of the Court of Common Pleas for Suffolk County. He also served on a number of important committees and commissions.  
*Dexter's Yale Annals.*

for want of information in the present State of your affairs at home, which (in relation I mean to M<sup>r</sup> Mason's controversy) is but newly come, & which I suppose you have or will before this comes to hand, hear of, viz<sup>t</sup> that a comission has passed the Seals for a new hearing of that affair, & what Service an agent can be of, at present, in that affair, I cannot see, but if you Should nevertheless appoint an agent, & should think it best, to chuse a resident in London, M<sup>r</sup> Christopher Kilby (whom this Province have appointed agent with M<sup>r</sup> Auchmuty in the controversy with Rhode Island) seems to Stand very fair, & was recomended to me in the affair your son left with me in the winter as a man very industrious & well knowing & known at the several Boards & offices about Court

As the affair of chusing an agent is of considerable weight & must be followed with charges, I conclude notwithstanding what I hear as above, that nothing will be done about it suddenly if there ben<sup>t</sup> more occasion for one than I know of, & I hope my Interest & Relations among you will excuse my Intermeddling in this matter, I am

viz<sup>t</sup> —

That M<sup>r</sup> Clark has been admitted by the King in Council to an Appeal which the Lords here always allow as a thing of course where the Value of the Matter in Question exceeds £300 Sterling, & that the Lords of the Committee have appointed the Appeal to be heard at their first meeting in February next, Copies of which Orders would be sent by said Craigie in order to be serv'd on M<sup>r</sup> Towsey, & assur'd you that I should not be wanting in using every Endeavour in my power to prevent a second Determination against your Intestate Law\* & that I will make the strongest use of the Determination in the case of Philips & Savage† by which the Intestate Law from the Massachusetts was supported. But that I should have a great difficulty to encounter y<sup>e</sup> Determination of y<sup>e</sup> Council in y<sup>e</sup> Case of Winthrop & Lechmere, for tho' M<sup>r</sup> Lechmere's Cause was very weakly & poorly manag'd, yet the Order made upon it was a Judicial Determination of the Council Board, which it will be extreamly difficult to overturn upon a subsequent Case. But I will omit no Endeav<sup>rs</sup> to do it & am not without some hope of succeeding in it, & you may depend on my making proper Application to be heard on the Behalf of the Government of Connecticut, to get the Intestate Law restor'd & for that purpose I shall make the proper use of the Certificates from the Court of Probates sent over by [ ] Talcott, & which are all in our Solicitor M<sup>r</sup> Sharpe's hands who will exert himself in y<sup>e</sup> Service. y<sup>e</sup> Opinions of the Attorney & Solicitor General you mention & y<sup>e</sup> reasonings you ground upon them, I fear you are mistaken, for I think (& so does M<sup>r</sup> Sharpe) that those Opinions are confin'd to y<sup>e</sup> Statute & do not extend to the Common Law of England, for that it has always been understood here that the common Law of the Land extends to all our Plantations, & that the People there are equally intitled to it as the People here, as their common Birthright, & that all y<sup>e</sup> Acts of Parliament pass'd here Prior to the Settlements in America extend there, But no Act of Parliament pass'd here subsequent to y<sup>e</sup> said Settle[ ] bind or affect the Plantations unless they are particular[ ]med in them, & that this is y<sup>e</sup> Distinction taken & laid down in the Opinion of the Attorney & Solicitor General as well as in y<sup>e</sup> Cases mention'd in your Letters. But if M<sup>r</sup> Winthrop makes any such Complaint as you mention or any other that may affect y<sup>e</sup> Colony I will give it my utmost Attention & use every Endeavour in my power to defeat him in it.

With Regard to M<sup>r</sup> Mason's Application in relation to the Rights of the Mohegan Indians nothing more can be done here in that Affair till a Return is made from Connecticut of the last Commission,\* but upon such return I will make y<sup>e</sup> proper use of your Observations on y<sup>e</sup> Charter (w<sup>ch</sup> are very good) as well as of every thing else, that may tend to the clearing up of that Affair in which I have no doubt

BENJAMIN COLMAN\* TO JONATHAN LAW.

BOSTON, Sept. 23. 1742

Sir,

It was an agreeable Hour I had with your Honour at Boston ye last Week; I hope this wil find You well at Home & in your Government. Since you left us we have the News from London of y<sup>e</sup> Death of M<sup>r</sup> Wilks, your & our Agent. I have a Letter from D<sup>r</sup> Benjamin Avery † (Doctor of Law) Chairman of ye Committee for the dissenting Churches, which gives me ye following Account of M<sup>r</sup> Eliakim Palmer ‡ Merchant in London, a most worthy Son of New England; which I think it my Duty to communicate to Your Honour, to use as you shal think Good for the Service of Your Colony, whose Weal I have at Heart next to that of our own Province.

---

\* Rev. Benjamin Colman, born in Boston, Mass., 1673, died there 1747. After graduating from Harvard he spent four years in England, where he became acquainted with many non-conformist divines. Returning in 1699 he became the minister of the newly formed Brattle Square Church in Boston, and so continded until his death. He was a man of standing and influence, and both himself and his church were very liberal in their religious views. *Appleton's Cyclopedia of American Biography*.

† Dr. Avery was originally a presbyterian minister, but quitted the ministry and practiced medicine. He was prominent among the dissenters. *Dictionary of National Biography*.

‡ Eliakim Palmer, born in Boston March 22, 1707/8, and baptized the 28th of the same month at the church in Brattle Square, was son of Thomas Palmer and his wife Abigail Hutchinson. Thomas was a merchant and one of the founders of the Church in Brattle Square. Abigail was daughter of Eliakim Hutchinson, who was a resident of Boston, although born in England, and a cousin of Col. Elisha Hutchinson. Eliakim Palmer was at this time one of the three Massachusetts agents for the proprietors of the New Hampshire townships; was also acting for Jonathan Belcher Jr. and Col. John Vassall. *Massachusetts Historical Society, 5 Collections, VI, and 6 Collections VII; Boston Record Commission, 24 Report; Savage's Genealogical Dictionary; Records of the Church in Brattle Square*.

D<sup>r</sup> Avery's Letter to me bears Date, May. 3. 1742. & the Paragraph respecting to M<sup>r</sup> Palmer runs thus,

“I have an intimate Acquaintance with M<sup>r</sup> Palmer, and shal always endeavour to cultivate a particular Friendship with him. I very much value & esteem him, & think him truly concern'd for the Prosperity of New England; & so situated as to be able to promote it beyond any other Person whom I know in this Country. He is happy in the Confidence of the Dissenters, & allyed to Families [that must have Weight here, whatever Change may be in the Administration — “If M<sup>r</sup> Palmer were your Agent, or any Gentleman like minded & qualify'd, if any such there be, I shal very readily throw in any little Weight I might at any time be tho't to have, & assist him to ye utmost of my Power in promoting ye Interests of your Churches & Colledge, & securing the civil & religious Rights of your Country.”

Sir, I ought further to inform your Honour that M<sup>r</sup> Palmer is one of ye Committee for ye Churches, whereof D<sup>r</sup> Avery is the Chairman; whose Weight with ye Ministry at Court must be therefore always estimated from that of ye *Body* of y<sup>e</sup> Dissenting Churches, whom he & ye Committee represent, in all their Applications & Representations; & the Weight of that *Body* is with the Court & Ministry in proportion to their Influence in the Election of Parliament Men. So that D<sup>r</sup> Avery's Access to ye Ministry at ye Head & in ye Name of ye Committee is ever easie & their Weight with them very great.

I beg your Honours Pardon for ye Length & Liberty I have run into; & that you may be long con-

tinued a great Blessing to your Country, is the Prayer of

Your Honours most humble & Obed<sup>t</sup> Servant,

BENJAMIN COLMAN.

KINGSTON JAMAICA October The 15<sup>th</sup> 1742

His Excellency the Governour of Connecticut

REPORT OF COMMITTEE OF THE GENERAL ASSEMBLY  
ON INDIAN CLAIMS AT SHARON.

To the Honourable General Assembly of his Majestys Colony of Connecticut Setting in New Haven in October A Dom 1742. We the Subscribers your Hon<sup>rs</sup> Committee appointed at your Sessions in May Last to Enquire into y<sup>e</sup> Claims made by and purchases made of y<sup>e</sup> Indians in y<sup>e</sup> towns of Sharon and Salisbury &c. humbly Reports.

That pursuant to your Hon<sup>rs</sup> appointment on y<sup>e</sup> memorial of Peter Pratt and others agents of Sharon and Neguntemaugé and other Indians Living in or Near Sharon we (having first Notified y<sup>e</sup> partys Concerned) Repaired to the town of Sharon and on the 13<sup>th</sup> and 14<sup>th</sup> Days of this instant October proceeded to Enquire into the Several matters Referred to in S<sup>d</sup> Memorial and the Several partys Concerned being present and having interpreters both of English and Indians we were informed by Deeds and witnesses

and would humbly Report to your Hon<sup>rs</sup> that we find that one Metoxson alias Collonel alias Corlow is allowed by all to be y<sup>e</sup> Chiefe Sachem of the indians in those parts and that he and his tribe or Nation are the Claimers of those Lands not Sold and also Claimed and Sold all y<sup>t</sup> have been Sold there about.

That the S<sup>d</sup> Metoukson and other indans in y<sup>e</sup> year 1726 Sold to Richard Sacket & Company all y<sup>e</sup> western part of Sharon within about two Mile of Ousatunnuck River Little more or less and y<sup>e</sup> Southwest Corner of Salisbury which Sale Some of y<sup>e</sup> Indians who Signed y<sup>e</sup> Deed being present owned to be honestly Made.

That afterwards viz. 26<sup>th</sup> of octob<sup>r</sup> 1738 the S<sup>d</sup> Metauxson and other Indians by agreement with and for Eighty pounds &c Rec<sup>d</sup> of Thomas Lamb Sold to y<sup>e</sup> Gov<sup>r</sup> & Company the township of Sharon Except One Mile at y<sup>e</sup> South End which Deed and bargain Several witnesses Declared was fairly Made and well understood by y<sup>e</sup> Indians.

That in Feb<sup>ry</sup> 1738/9 y<sup>e</sup> S<sup>d</sup> Thomas Lamb procured another Deed from an Indian of that tribe as we understand who is Sometimes Called John Sometimes Nauness &c to y<sup>e</sup> Gov<sup>r</sup> & Company for one mile across at y<sup>e</sup> South End of Sharon for Nine pounds.

That by Sundry Deeds to Diverse persons given by some of y<sup>t</sup> tribe of Indians the township of Salisbury has been purchased Except about (as Near as we could guess) two mile Square at y<sup>e</sup> North East Corner and this Seemed to be Generally agreed to both by the English and Indians

and Concerning the S<sup>d</sup> North East Corner we find that y<sup>e</sup> Deed to Knowls and Henman Describes the Lands Sold by Certain Natural Monuments as ponds

Mountains &c in which Description y<sup>e</sup> S<sup>d</sup> North East Corner is not contained but then the Lands are again bounded by General boundarys viz. North by y<sup>e</sup> Massachusets East by the River &c: which includes y<sup>e</sup> Land at y<sup>e</sup> North East Corner but its Generally declared both by English and Indians that they have always understood and now believe y<sup>t</sup> Corner was Never intended to be Sold neither was it Ever honestly Sold on which we are of Opinion that its most probable y<sup>t</sup> y<sup>e</sup> S<sup>d</sup> Corner never was intended to be Sold therefore we think the Indians who are Generally allowed to Claim y<sup>t</sup> Corner and for whom as y<sup>e</sup> Indians Say y<sup>e</sup> S<sup>d</sup> Corner was intended to be Left when y<sup>e</sup> other was Sold Should be quieted by giving y<sup>m</sup> Some Consideration to Resign their Claim which Umpechenee on their behalf Declared they would Do for Sixty pounds & not Less

And concerning the Northwest Corner of Sharon we find it all to be Sold and included in y<sup>e</sup> afores<sup>d</sup> Deed to Sacket and y<sup>t</sup> Procured by Lamb. Yet from indian Evidence only we are informed y<sup>t</sup> the Indians did and do Now think they might & may Live there and the people of Sharon are willing they Should Live there if an Equivalent is given whereupon considering y<sup>e</sup> Circumstances of those indians we think it might be well to allow them about fifty acres of Land to Live on which appears to be a sufficiency and that on the proprietors of Sharon Securing y<sup>e</sup> Same to them an Equivalent of about two acres for one be given Sharon at y<sup>e</sup> South End of their town they purchasing the Same of y<sup>e</sup> indians if not already Done.

As to y<sup>e</sup> Mile at y<sup>e</sup> South End of Sharon complained of we find Little or Nothing worthy of Notice about it.

Wherefore upon the whole Seeing the Indians Desire to Live there and have made improvement where they Live &c. we therefore Recommend it to Your Hon<sup>rs</sup> to quiet and favour those indians as afores<sup>d</sup> and Considering they are as we were informed Disposed to be instructed in the Christian faith we think it might be well to make Some provision for y<sup>t</sup> purpose their number being 13 males fifteen females adult and 17 Children fourty five in all

and further y<sup>t</sup> one Possaunee who on some Encouragment given him y<sup>e</sup> Committee for Laying out Lands in Salisbury that they would Endeavour he Should have two blankets Resigned a Considerable improvement he had made and Lived upon in Salisbury Should be considered and Made Easy accordingly.

and upon the Matters afores<sup>d</sup> being Setled we conclude the Indians will be Easy and peaceable & friendly and we hope comfortable Neighbors and friends and probably Christian Brethren all which is most humbly Submitted to this honourable Assembly by your Honours obedient Humble Servants

## JONATHAN LAW'S INSTRUCTIONS TO ELIAKIM PALMER.

[These Instructions are printed in Talcott Papers, II, 489-494 (*Collections, V*). Eliakim Palmer of London was appointed Agent for the Colony of Connecticut in October, 1742, and at the same time was directed by the General Assembly to "apply to Messrs Parris and Sharp, solicitors, if free and not engaged otherwise, to obtain their or one of their assistance, or other counsel learned in the law, to assist and defend the said Thomas Tousey against the said Samuel Clark in the case aforesaid, in the most vigorous and best manner they possibly can." The Instructions must have been sent late in October or early in November, 1742. The copy preserved is in the same handwriting as that of the "further Instructions" mentioned in Law's letter to Palmer of Nov. 18, 1742, in which letter he mentions the Instructions in Clark's case that he had previously drawn. The Assembly at its previous session in May voted to loan Mr. Tousey five hundred pounds, new tenor, payable in four years, to aid him in the defense of this suit. *Colonial Records, VIII, 463, 506.*]

P S since I drew nstructions in Clarks Case I have seen Copies of y<sup>e</sup> Records and observe y<sup>r</sup> was no Concessions made of y<sup>e</sup> matters of fact

Upon which I would again observe to you That wherever the Rules of the Coñon law take place, ad Questionem facti respondent Juratores non Judices, how unaccountable will it be then to say y<sup>e</sup> Coñon law extends here to make y<sup>e</sup> Eldest Son Heir and not to make the Jurors, Judges of the fact and of Titles of land. This very Appeal shows to a Demonstration That we are out of y<sup>e</sup> Verge of y<sup>e</sup> Coñon law such an Appeal from Westminster would at once be rejected why! because the Tryal was within the Jurisdiction of y<sup>e</sup> Coñon law qui sentit omus sentitire debet et Commodum

I have also inclosd to you a Letter to D<sup>r</sup> Avery, to whom you will offer my most humble Service, as also to M<sup>r</sup> Bourryan who has taken y<sup>e</sup> Care of our Affairs since y<sup>e</sup> Decease of our Agent M<sup>r</sup> Wilks

\* Roger Newberry married Aug. 24, 1727, Elizabeth, eldest daughter of Roger Wolcott. He was Captain of one of the Connecticut companies in the expedition against the Spanish West Indies in 1740-1741; was present when the English were repulsed before Carthagená and died May 6 during the return voyage. *Dexter's Yale Annals; Wolcott Memorial.*

See Talcott Papers, II, 87 (*Collections, V*) for note upon the suit of Clark against Tousey.

## JONATHAN LAW'S INSTRUCTIONS TO ELIAKIM PALMER.\*

The King and Council in Winthropps Case did not fault us for presuming to make a law to direct the Succession of Inheritances, when the Coñon law had fixt it, but for making it contrary to the laws of England. neither did this Question Ever arise in the Debate and was Conversant ab<sup>t</sup> another matter viz. y<sup>e</sup> Sale of lands by an Administrator for payment of a Just Debt

But the late case of Phillipps & Savage does Clearly Demonstrate that the Coñon law did not Extend into y<sup>e</sup> Massachussetts for the Coñon law cannot be Altered by any lower Authority than the Parliament of Great Brittain, not by y<sup>e</sup> Massachussetts Assembly

S<sup>r</sup> I cant conjecture why M<sup>r</sup> Sharp (if it was he) in Clarks appeal Relates over the Story about the Probats Since he dont at all rely upon it unless to draw us into the Difficulty of Supporting our Intestate law w<sup>ch</sup> I take to be Somewhat more Difficult than to withstand the Demandant in what he must be able to Shew and maintain the Matter of fact and the Extent of y<sup>e</sup> Common law which Desire you to be aware of in this Case and let your Answer to it be only by way of Protestation.

For y<sup>e</sup> Defend<sup>t</sup> never Sett up his Title but Stood up[ ] his Defence on y<sup>e</sup> Gen<sup>l</sup> Plea and M<sup>r</sup> Sharp by M<sup>r</sup> Wilks has Inform'd us that we Could take no Benefitt by our Certificates and Records from the Probats Unless they had been given in here upon y<sup>e</sup>

\* Although this document is unsigned it should undoubtedly be credited to Gov. Law, as it is in the same handwriting as several others bearing his name, probably a copy made by a clerk; and it is doubtless the "further instructions" mentioned in Law's letter to Palmer of Nov. 18, 1742. The indorsement is in the handwriting of the elder Gov. Jonathan Trumbull.

Tryal. Yet I hope they may be Admitted to Show y<sup>t</sup> y<sup>e</sup> Coñon law was never reciev'd here as y<sup>e</sup> Rule of Descents of Inheritances. for it tends to Break up all our Settlements and Defeat all the Honest Purchases that have been Made this Hundred Years and turn men out of y<sup>r</sup> Possessions w<sup>ch</sup> have been made Valuable by y<sup>e</sup> Sweat, Industry, Expence and Toil of them and y<sup>r</sup> Ancestors. but I leave all to be Improv'd in Such Manner as you and your Council who better Understand y<sup>e</sup> Scituation and State of Affairs where you are to Mannage than I can have any pre- tence to at this Distance

I had y<sup>e</sup> favour of yours of y<sup>e</sup> 17<sup>th</sup> and 23<sup>d</sup> of July last past and laid them before our Assembly in y<sup>r</sup> next Sessions and now return you' thanks for y<sup>e</sup> Care you have taken of y<sup>e</sup> Affairs of this Govern<sup>t</sup> since y<sup>e</sup> death of our worthy late Agent Francis Wilks Esq<sup>r</sup> and for y<sup>e</sup> freedom you manifested to take y<sup>e</sup> trouble of the Affairs of this Gov<sup>t</sup> but the Assembly have made Choice of M<sup>r</sup> Eliakikim Palmer to whom all the Papers, Instructions and other Writings lodged in the hands of M<sup>r</sup> Wilks are desird to be deliverd.

The opinion said to be y<sup>e</sup> rec<sup>d</sup> one viz That y<sup>e</sup> Co<sup>m</sup>mon law with all y<sup>e</sup> ancient Statutes before y<sup>e</sup> Settlement of y<sup>e</sup> Plantations are y<sup>e</sup> law of y<sup>e</sup> Plantations is so contrary to y<sup>e</sup> known Principles w<sup>ch</sup> have always been y<sup>e</sup> Rule of Practice here, where y<sup>e</sup> laws made by Vertue of our Charter, the law of god, of Reason and Nature with y<sup>e</sup> Statutes made for y<sup>e</sup> Plantations have been y<sup>e</sup> Measure of all our Administrations That it is shocking to all men that hold y<sup>r</sup> lives and fortunes under the Protection of y<sup>e</sup> laws by w<sup>ch</sup> all y<sup>r</sup> Transactions have been regulated from y<sup>e</sup> begining, w<sup>ch</sup> is more than a Century.

## JOHN SHARPE TO ELIAKIM PALMER.

*D<sup>r</sup> Sir*

I have consider'd Govern<sup>r</sup> Law's Letter of Instructions to you, in regard to the Case of Clarke & Towsey, in the best manner I can; and think as the matter appears upon the record transmitted, it is impossible for Clarke to have any Success upon this Appeal, the Record by no means agreeing with the Allegations in the Petition, and no Evidence appearing upon the Record that the Appell<sup>t</sup> is eldest Son & Heir of his Father, or that his Father dyed seized in fee of the Premises in question; both which Facts it is of absolute Necessity for the Appell<sup>t</sup> to make out, before the Question of Law can arise; and as neither of these Facts appear by the Record either to have been proved or admitted, it is impossible that M<sup>r</sup> Clarke can prevail upon this Appeal.\* And I very well remember that in Gov<sup>r</sup> Talcot's time, & during M<sup>r</sup> Wilks's Agency, when the Colony had the Repeal of their Intestate Law under Consideration; in order to find out the most proper Method to guard against the Inconveniencys that might arise therefrom; amongst several other Ways which I then pointed out, I strongly recommended to 'em the continuing the same Method of Distributing real Estates of Intestates, and tho' the intestate Law was repealed, to support the same by constant uninterrupted immemorial Custom and Usage from the first Settlement of the Colony, and to get sever<sup>l</sup> eldest Sons of Intestates in the Interest of the Colony to bring Actions of the same Nature with this of Clarke's, for the Dēft to insist on the Custom, the Evidence not to be taken down in

Writing, and the Verdict & Judgment to be for the Defendant, in which the Plaintiff to acquiesce; and thus having the Custom strengthened by several Precedents subsequent to the Repeal of the Intestate Law, the Method of distributing Intestate Estates would in my Apprehension become as binding by Custom as it was before under the Intestate Law; and if an adverse eldest Son should rise up (of which Clarke is the first Instance), by thus taking Care not to have the Evidence taken down in Writing, nor any Admission of the Fact, it would be impossible to prevail upon an Appeal home, because the Evidence could not appear to the Lords upon which the Verdict was founded, and without the Evidence appearing it was impossible for the Lords to reverse the Judgment; but that great Care should be taken to have none of the Evidence entered down in the Record, because if any of the Evidence was entered, the Lords would consider that as the whole Evidence, unless anything appeared in the Record to the Contrary; and I find the Colony have follow'd this advice in Clarke's Case, and I am persuaded they will find the Benefit of it. Mr Clarke's petition I drew, acquainting him at the same time that if the Colony should interfere in it, I must in that Case be concerned for the Colony against him; for I have always determined to keep myself free & open, so as to be at the Service of the Colony in all Cases wherein they shall desire my Assistance; and you may be assured of my utmost Endeavours for their Service in this Dispute, and in all others that may hereafter arise. Mr Clarke did not bring any Copy of your Record with him, nor any Instructions from his Council, but 2 or 3 Loose Papers; so that this Petition was drawn principally from verbal Instructions of his own: I asked him what Evidence he had given of his Father's

Seizin, & of his being his eldest Son; he said he had Evidence ready, but M<sup>r</sup> Towsey's Council admitting these Facts his Witnesses were not Examined; upon which I asked him if this Admission was Entred on the Record; he said it was: and upon these Assurances of his & agreeable to his Instructions, the Petition Drawn; but in which, now the Record is come over, he appears to have been mistaken, and I imagine he will hardly be advised to prosecute his Appeal any further; if he does, I make no question but to get it Dismissed.

With regard to the points of Law mentioned in Gov<sup>r</sup> Law's Lett<sup>r</sup>. The Gov<sup>r</sup> does not seem to me to make the distinction that is necessary for the more clear understanding this Question between the Common & the Statute Law of England. The Common Law of England undoubtedly extends to all our Plantations; it is what they all carryed over with them at the time of their first Settlements: The Statute Law of England it is certain does not extend to our Plantations, unless in those Acts of parliament only wherein they are particularly mentioned; as the Acts of Trade & Navigation &c<sup>a</sup>: And the Opinion of the Attorney & Soll<sup>r</sup> Gen<sup>ls</sup> transmitted to Connecticut by the Board of Trade does not at all interfere with this Rule; because the Opinion related to the Case of entailed Lands which is done under the English Statute—*De donis conditionalibus*, and does not at all depend on the Common Law as Descents do; for by the Common Law no Lands could be Entailed; and so the Barring Entails by Fine depends on the Statute Law, Fines being by Statute & not by Common Law: So that no Inference can be drawn from this Opinion one way or other with regard to the Common Law of England extending or not extend

ing to the Plantations. But I apprehend the Custom of Dividing Intestates real Estates in the manner used in Connecticut is not repugnant to the Common Law of England: For with us, we have a great Variety of Descents; the general Course indeed is to the Eldest Son, but in many places it is otherwise: In Kent the Custom of Gavelkind prevails, by which the Land descends to all the Sons equally; and in many places the Custom of Borough-English, by which the Estate goes to the young<sup>st</sup> Son; and there are several other Customs which carry it to Females: So that I think the Course of Descents in Connecticut is composed of the several Sorts of Descents allowed by the Law of England, and is therefore not repugnant but agréeeable thereto. In the Case of Winthrop and Lechmere\* the Colony did not interfere; and the Case on Lechmere's Side was entrusted to one noways Conversant in Cases of this kind, and it is most certain was very unably conducted; otherwise I really think that determination would never have been given: But it is now too late to recall it; and the Method I before pointed out, & have repeated in this Letter, and which the Colony have pursued in Clarke's Case, will I am persuaded if properly pursued quiet this Question as effectually as if the Intestate Law was revived. But if the Colony like it better, I do not see why they may not pass a new Act for the same thing, making some Variations from the former Law that they may not say it is the Same; and One Variation I would recommend is Not to vest the Real Estates in the Adm<sup>rs</sup> or the Distribution thereof in the Court of Probates, the Ecclesiastical Courts having no power by the Common law, but let that be left in Case of Dispute to be

Determined in the Courts of Law:\* and with this Variation I am persuaded if such new Law should be attacked strengthened with the Precedent of Phillips and Savage, (in which I was concerned for the Province of the Massachusetts Bay) you and I should have very little Difficulty to support it. Thus, Sir, I have given you my Thoughts on this Affair, in Answer to Gov<sup>r</sup> Law's Letters which I should be obliged to you if you would transmit to him with my best Respects. His Letter is penned throughout with great Ability and Judgment, and is only Short in not making the Distinction I have already mentioned between the Common and the Statute Law of England; which it is not to be imagined the Gov<sup>r</sup> (for want of being Conversant in our Law) could be apprized of. I have likewise carefully perused M<sup>r</sup> Read's Remarks, which (like every thing else that comes from him) are drawn in a very masterly Way: The Certificates he mentions I have; and if the Cause comes on, I shall make the proper Use both of the Gov<sup>r</sup>'s and his Instructions; and make no Question but with your diligent and assistant help to procure a Dismission of it. But I believe that the Appeal will hardly be pursued, as I do that the Petition would never have been presented had M<sup>r</sup> Clarke bro<sup>t</sup> a Copy of the Record over with him. I am with the most perfect Truth and Esteem

REPORT OF COMMITTEE OF THE GENERAL ASSEMBLY  
RESPECTING INDIAN AFFAIRS.HARTFORD, May 22<sup>d</sup> 1743

To y<sup>e</sup> Hon<sup>ble</sup> Gen<sup>l</sup> Assembly of his Ma<sup>ty</sup>s  
Colony of Connecticut now Seting in Hart-  
ford, Daniel Edwards of Hartford at your  
Sessions in October last appointed a Com<sup>tee</sup>  
to Agree with y<sup>e</sup> Rev<sup>d</sup> M<sup>r</sup> Prat touching  
y<sup>e</sup> Instruction of y<sup>e</sup> Indians, & allso to agree  
with & purchase of certain Indians their  
Claims of Lands in Salisbury & Sharon &c  
Humbly Reports

That on Notice to all partys Concernd  
first given, I, pursuant to your Honours Appointm<sup>t</sup>  
& Direction on y<sup>e</sup> 26<sup>th</sup> of April last proceeded to Said  
Sharon where arriving a few hours later than my  
expectation their Com<sup>tee</sup> to y<sup>e</sup> purpose appointed being  
all Save one absent on a long Journey coud transact  
nothing touching y<sup>e</sup> Indian claims in y<sup>t</sup> Town; but  
was made to understand that y<sup>e</sup> aquivalent of two  
acres across y<sup>e</sup> South end of their Town for one  
acre of y<sup>e</sup> Indian improvements wou<sup>d</sup> be in nowise  
Satisfactory, and am Since allso advisd by s<sup>d</sup> Com<sup>tee</sup>  
under their Hands that on view and Measure of  
y<sup>e</sup> Present Indian improvements they amount to  
eighty nine acres at least, w<sup>e</sup> is allmost double y<sup>e</sup>  
quantity heretofore Supposd, allso that their Indians  
in a late Conference with them have remonstrated y<sup>t</sup>  
their s<sup>d</sup> actual improvements are not only greatly  
Short of their just claim but allso altogether insuf-  
ficient to answer their necessitys, especially in y<sup>e</sup>  
article of Firewood, alledging y<sup>t</sup> on their being Se-  
cured in y<sup>e</sup> improvement & benefit of about two Hun-  
dred acres (w<sup>e</sup> it seems they now claim) they may  
be able to keep together undispersed, and enjoy civil

education & Christian Instruction and also y<sup>e</sup> Benefit & Protection of y<sup>e</sup> good laws of this Community which they Say they shall cherefully & thankfully receive & Submit to. or otherwise Shall be necessitated to break up & Scatter abroad (or least the most of them) which they are very loath to do, or remove else where for more room, S<sup>d</sup> Com<sup>tee</sup> have also Signified to me their astimate of an aquivalent for s<sup>d</sup> Indian lands viz<sup>t</sup> Six acres for one to be taken across th<sup>er</sup> bounds, or two for one to be pitcht where they Shall chuse, less then w<sup>e</sup> they Seem to think will not be aquel.

That y<sup>e</sup> Time by your Honours proposd for M<sup>r</sup> Prats being enguaged to Instruct y<sup>e</sup> Indians being then Just expir'd nothing was transacted with him in y<sup>t</sup> Matter, but on Conference with him about it am informd they Stil express an earnest desire of Instruction both by Schooling & preaching, & y<sup>t</sup> your Honours woud in great Charity as Soon as may be Devise Some way to gratify them herein, to which he will be ready to Contribute his utmost assistance &c.

And That from Sharon proceeding to Stockbridge, where whom y<sup>e</sup> claimers of s<sup>d</sup> Northeastern Corner of Salisbury were, & with whom most Safely to transact in that affair, I by much Inquiry found out, They having no Records or other Durable Monuments or evidences of Title or Property, I had recourse to y<sup>e</sup> following Measures w<sup>e</sup> with them it Seems is accounted Sufficient to Depend & Act upon in matters of this Nature ;—

That is to Say as I had before Noticed them of your honours Directions & my purpose to treat with them &c So now published among all the Indians there y<sup>e</sup> arrand on which I came, to y<sup>e</sup> end I might Discover whether they were agreed in allowing y<sup>e</sup>

Title to be quieted in any one person or family or whether there were not Sundry Opposite & contending Claimers but May it please your Honours on all y<sup>e</sup> Inquiry I could make by y<sup>e</sup> help an Indian Interpreter of good report among them together with M<sup>r</sup> Woodbridge y<sup>e</sup> Indian Schoolmaster who was also Sworn an Interpreter on this occasion, I found by y<sup>e</sup> Concurrence of all y<sup>e</sup> elderly & principal persons among them y<sup>t</sup> y<sup>e</sup> S<sup>d</sup> Northeast Corner of Salisbury had been Deemd to belong to a family by them mentiond. During their remembrance of whom those who now Surviv'd were one Tautaupusset an Indian man, who was abroad at a great Distance, and also an Indian Woman cald Shekaunenooti who was present & Sister to the s<sup>d</sup> Tautaupusset, together a Child of another branch of s<sup>d</sup> Family cald Kowounun, which Survivers they all agreed were y<sup>e</sup> owners of s<sup>d</sup> Lands unless allienated to y<sup>e</sup> English, And now after Some Doubt & Deliberation how to proceed in an affair So circumstenc't I Drew, and had executed a Deed of five Thousand 'acres more or less of s<sup>d</sup> Lands to y<sup>e</sup> Gov<sup>r</sup> & Compeny of this Colony, w<sup>c</sup> was first Distinctly read over in English & then by s<sup>d</sup> Interpreters interpreted to those whoe were to execute it & also to a number of y<sup>e</sup> elderly Men who were to be Witnesses with Some english So y<sup>t</sup> all Declared they understood it—Thus was the Deed Executed by s<sup>d</sup> Indian Woman and a lad of about fourteen years for whom also She acted as Guardian or as She exprest it as having y<sup>e</sup> care of him & w<sup>t</sup> he had whereupon of Seventy pounds old Currency Drawn out of the Treasury I paid Down Sixty y<sup>e</sup> residue remains and had a Receipt thereof Indorsed on s<sup>d</sup> Deed, with a Promise to procure y<sup>e</sup> s<sup>d</sup> Tautaupusset on his return (w<sup>c</sup> they expected woud be

Shortly) to execute y<sup>e</sup> Same allso & Satisfy him therefor — which Deed I accordingly lodged in y<sup>e</sup> Hands of y<sup>e</sup> Rev<sup>d</sup> M<sup>r</sup> Serjeant of Stockbridge to be Executed & acknowledged on his Return as it allready has been by the others

as for Tossonee y<sup>e</sup> Indian to whom two blankets were ordered I understood he was gone abroad, but woud likely return in Short time, So y<sup>t</sup> I nor Saw nor acted any thing with him.

Thus Stand these affairs & thus (tho' ineffectually in part) have I endeavoured to Discharge what your honours gave in Command and Remain

Your Honours Most Ob<sup>dt</sup> Humble Serv<sup>t</sup>

*Gentlemen,*

The Lords Justices having taken into Consideration, the present uncertain State of publick Affairs and the Danger, that His Majesty's Dominions, in America, may be exposed to, from any sudden Attempt, that might be made upon them, in case a Rupture with France should ensue; in Consequence of the Steps, which His Majesty has already taken, in Support of the Queen of Hungary, and the Common Cause; and the vigorous measures, which the King is pursuing in all parts, for the same End; unless timely Care be taken to put the same into a proper posture of Defence; Their Excellencies have commanded Me to signify to you Their Directions, that you should employ the most effectual Means for putting the Colony, under your Command, into the best Posture of Defence, that shall be possible,

and that you should be constantly upon your Guard

DECREE OF COMMISSIONERS OF REVIEW ON MOHEGAN  
CASE.\*

At His Majesty's Court of Commissioners held at  
Norwich in Connecticut on y<sup>e</sup> Sixteenth day of  
August 1743 by vertue and in pursuance of his  
Majestys Letters Patent Under y<sup>e</sup> Great Seal of Great  
Britain bearing Date at Westminster y<sup>e</sup> 8<sup>th</sup> Day of  
January in y<sup>e</sup> 15<sup>th</sup> year of his Reign Authorizing and  
impowring the persons therein named to Reexamine,  
Review, finally decide & Determine the Cause or

\* The Letters Patent authorizing this Court names the Lieutenant-Governor and nine members of the Council of New York and the Governor and twelve members of the Council of New Jersey, or any five or more of those named, as Commissioners "to re-examine, review, finally decide and determine the whole cause" or controversy between the Colony of Connecticut and the Mohegan Indians. The Court met and organized at Greenwich, Conn., May 4, 1743; the Commissioners present being Archibald Kennedy, James DeLancey, Philip Cortlandt, Henry Lane, and Daniel Horsmanden, all of New York. The next meeting was held at Norwich on June 28, and subsequent meetings were held there almost daily until the date of the decree, Aug. 16. Final meetings were held at Norwich on Oct. 25 and 26; when after due proclamation "the commissioners departed without adjournment." The Commissioners present at each session of the Court after the first one were those who signed the decree, Colden, Cortlandt, and Horsmanden of New York and Rodman and Morris of New Jersey.

M<sup>r</sup> Colden, M<sup>r</sup> Cortlandt, and M<sup>r</sup> Rodman Delivered their Opinion Upon the Merits of this cause in y<sup>e</sup> following Words viz<sup>t</sup>

Having Carefully Examind & Reviewd all and Singular the Proofs, Decrees & Sentences & the whole Process had and made by and before Joseph Dudley Esq<sup>r</sup> and others Commissioners in y<sup>e</sup> year 1705— And also Considered all new Allegations, Matters, Instruments, Writings and Proofs as well on y<sup>e</sup> part of y<sup>e</sup> Governour and Company of y<sup>e</sup> Colony of Connecticut as on y<sup>e</sup> part of the Mohegan Indians which have been proposd, exhibit[ed] and made to and before this Court relating to t[he] merits & circumstances of this Cause, We are of Opinion as follows

---

the volume entitled "Governor and Company of Connecticut, | and | Mohegan Indians, by their Guardians. | Certified Copy | of | Book of Proceedings | before | Commissioners of Review, | MDCCXLIII. | London: | Printed by W. and J. Richardson, | MDCCLXIX. |" quarto; title, pp. xxi, 3-283; "A Map of the Mohegan Sachems Hereditary Country, Platted Aug<sup>t</sup> 1<sup>st</sup> 1705. By John Chandler, Surveyor." is folded in facing p. 49. Copies of this rare volume may be seen in the library of the Connecticut Historical Society and in the Connecticut State Library. A manuscript copy of the material contained in the above Book of Proceedings, certified by the autographs of three of the Commissioners, is also in the library of the Society. The manuscript differs from the printed copy in that it does not contain the map, or the certifications of the Commissioners' autographs which appear on the last two printed pages. Included with the manuscript and forming a part of the certified volume are printed copies of the Charter of Connecticut (New London, 1729) and of John Mason's "Brief History of the Pequot War," Boston, 1736, both of which

First. That the English on Connecticut River on the 14<sup>th</sup> of January 1638 entered into Articles of Government and thereby agreed to Submit themselves to a Governour and Majestrates who were to be Annually Chosen.

Secondly. That M<sup>r</sup> Hopkins was in y<sup>e</sup> year 1640 elected Governour and M<sup>r</sup> Haynes Deputy Gov<sup>r</sup> of y<sup>e</sup> Said English Subjects.

Thirdly. That After having carefully considered and Inspected y<sup>e</sup> Proofs and exhibitets relating to y<sup>e</sup> Writing exhibited in Court bearing Date y<sup>e</sup> 28<sup>th</sup> of Sep<sup>r</sup> 1640 purporting to be y<sup>e</sup> Deed of Uncas alias Poquion Sachem of y<sup>e</sup> Mohegan Indians to y<sup>e</sup> Governour and Majestrates of y<sup>e</sup> English, We are of Opinion that y<sup>e</sup> Said Writing carrys with it all y<sup>e</sup> Marks of the Antiquity it is Suppos'd to be of,—The Body of y<sup>e</sup> Said Writing is agreed by all the Commissioners who Inspected it to be of the Same hand writing with y<sup>e</sup> Records of y<sup>e</sup> year 1639 exhibited in Court, and of a letter Dated at London y<sup>e</sup> 1<sup>st</sup> of May 1652 Subscribd Edward Hopkins, — And That the Said Edward Hopkins was Governour of y<sup>e</sup> Said English in y<sup>e</sup> year 1640, — the Name Tho' Stanton on y<sup>e</sup> Said Writing as Witness is the Same hand writing with an exhibit produc'd in Court which y<sup>e</sup> dis-

are reprinted in the 1769 volume. This manuscript volume is probably the one laid before the Commissioners at their last meeting, Oct. 26, 1743, by the "agents of the governor and company . . . which copy, at their own expense, they have now ready drawn, to be compared and attested." The "Original Book of the proceedings of his Majesties Commissioners in Connecticut A D 1743" was filed in the Secretary's office of the colony of New York, Feb. 3, 1743/4.

The decree of the Court of 1705, which this decree revokes, is as follows :  
The said court do determine as followeth ;

1st. That the said Oweneco is the true and undoubted Sachem of the Moheagan Indeans, being so owned by all of his tribe that were present at the Court, and also proved by living witness, of age and figure in the Colony, and also acknowledged and treated with as the Sachm of the

cendants of Thomas Stanton an Indian Interpreter about y<sup>e</sup> year 1640 believe to be y<sup>e</sup> hand writing of their Said Ancestor Tho Stanton, — That y<sup>e</sup> Marks of Uncas and Poxan an Indian Witness thereto appear by y<sup>e</sup> heavy bearing of y<sup>e</sup> hand on y<sup>e</sup> paper and the Irregularity and Stiffness in y<sup>e</sup> turnings to be made by persons not accustomed to form regular Shapes or figures and are done in Such manner as is not easy for any person to imitate. That y<sup>e</sup> Said Writing is the Genuine Act and Deed of the Said Uncas.

Fourthly. That Uncas and Wawequay Sachems of the Mohegan Country by their Deed bearing date y<sup>e</sup> 15<sup>th</sup> of August 1659 Did convey to Major John Mason all the Lands then belonging to them.

Fifthly. That y<sup>e</sup> Intendment of Major Masons Surrender enterd at a General Court held at Hartford y<sup>e</sup> 14<sup>th</sup> of March 1660 (at which time Said Mason was Deputy Governour and present in Court) was to yield up & Release to y<sup>e</sup> Said Court or Governour and Magestrates whatever right he had to y<sup>e</sup> Mohegan lands on Condition y<sup>t</sup> the Indians Shou'd at all times thereafter be provided with a Sufficient quantity

---

said Mohegan Indians in several leagues and treaties between the said Colony and Uncas; records whereof were produced in court.

2d. That Oweneco himself and his ancestors, with his people, have at all times served the interest of the crown of England and the colony of Connecticut in times of war, and have faithfully kept their leagues and treaties with the said colony.

3d. That the government of the colony of Connecticut have, at several times, and by several treaties and orders, acknowledged Oweneco and his father Uncas, with the Mohegan Indians, to have lands of their own; and accordingly settled the boundaries between the Moheagans lands, and such as had purchased of the said Indians.

4th. That Oweneco and his ancestors, with the Mohegan Indians, had a very good and undoubted right to a very large tract of lands within the colony of Connecticut, [lying to the eastward of Connecticut river] and that the English inhabitants of the towns of New-London, Norwich, Stonington, and others, have acknowledged the right of the said Mohegan Sachem to those lands; and many years since purchased of the said Oweneco and his

of land to plant on And that y<sup>e</sup> Said Mason have land out of y<sup>e</sup> Same Sufficient to make a Farm which Farm was afterwards in y<sup>e</sup> year 1664 by the General Court at his desire granted to him.

Sixthly That the Confirmation of y<sup>e</sup> Said Grant in 1659 by y<sup>e</sup> Deed of Uncas and his two Sons Owaneco and Attawanhood to y<sup>e</sup> Said Major John Mason bearing Date y<sup>e</sup> 20<sup>th</sup> of May 1661 Enures to Confirm whatever Title the Said Governour and Majestrates had by y<sup>e</sup> deed in 1640 and by Said Major Masons Surrender.

Seventhly. That y<sup>e</sup> Said Major John Mason did agree and Joyn with others of y<sup>e</sup> Said English principally concernd and interested in y<sup>e</sup> Colony of Connecticut in a Petition to y<sup>e</sup> late King Charles y<sup>e</sup> Second, and that y<sup>e</sup> Said King Charles on y<sup>e</sup> S<sup>d</sup> Petition or Information by his Letters Patent under y<sup>e</sup> Great Seal of England bearing Date at Westminster y<sup>e</sup> 22<sup>nd</sup> of April in y<sup>e</sup> 14<sup>th</sup> year of his Reign did incorporate and make them a body Politick by the name of *The Governour and Company of the English Colony of Connecticut in New England in America*, And

father considerable parcels of lands belonging to the said towns, of which purchases the said Oweneco is well satisfied, and makes no complaint.

5th. That all the lands that were reserved and left remaining unto the said Oweneco and the Moheagan Indians in the year 1683, were distinguished into planting and hunting grounds; their planting ground, part of it, situate between New London and Norwich, and contains eight miles in length, and four miles in breadth; one smaller tract about nine miles in length, and two miles in breadth, lying on the northern bounds of Lyme; one other very large tract of hunting land, lying between the bounds of the towns of Norwich, Lyme, Lebanon, Metabesset, and Haddam.

6th. That, for the better ascertaining and settling the bounds of those remaining lands of the Moheagans, the government of the colony of Connecticut, in the year 1683, did impower a committee of several gentlemen (one of whom was the then governor) to settle the bounds between Uncas, the Indian Sachem, and the plantations to which his lands adjoined; which committee accordingly, in 1684, did run and settle the boundaries above-mentioned, and made return thereof to the general court, who approved

did Grant to y<sup>e</sup> Said Governour and Company a large Tract of land in America including all y<sup>e</sup> Mohegan Lands or lands in Controversy, whereby all the S<sup>d</sup> Mohegan lands were vested in y<sup>e</sup> Said Governour and company in full & absolute property and Right in law for y<sup>e</sup> Uses & purposes Mentiond in y<sup>e</sup> S<sup>d</sup> Letters Patent, And that the S<sup>d</sup> Major John Mason by his Petition, his accepting of and acting in y<sup>e</sup> office of Deputy Governour, by vertue of y<sup>e</sup> Said Letters Patent declares his Acceptance of and Acquaintance in the Said Grant.

Eighthly As the Sachems of the Mohegan Indians had no Right remaining in them to any of y<sup>e</sup> lands in Controversy besides an aquitable right to a quantity of Land Sufficient for their Subsistence by planting, nothing cou'd pass by y<sup>e</sup> Deed of Uncas, Owaneco & Attawanhood to Major Mason Dated y<sup>e</sup> 14<sup>th</sup> of December 1665.

Ninthly. That as no Right to or power over the Lands mentiond and Describd in a deed or Writing Subscribd by John Mason and Dated y<sup>e</sup> ninth day of May 1671 appears to be in y<sup>e</sup> Said John Mason the Said Deed can have no effect.

---

and recorded the same, as appears by record; which survey, since the arrival of this commission, has been revised by Captain John Chandler, the late surveyor of the lands of New-London, with others in company with him, of which survey a plat has been exhibited to the court by the said Chandler.

7th. That Uncas, the father of Oweneco, to secure his lands, or some good part of them, to his family and people, in the year 1659, and again in the year 1665, did make over his lands in that country to Major John Mason, deputy governor of that colony, and of great friendship with Uncas, for the Indians use; and the said Mason, in the year 1671, the better to secure some of their lands to them and their posterity, reconveys, to Uncas and others, and their heirs, that tract of land between New-London and Norwich, for their planting, with an express limitation on that deed, that neither they nor their heirs should ever alienate the same, which after that time passed commonly by the name of the sequestered lands.

Tenthly. That it doth not Appear to be y<sup>e</sup> Intention of the General Court to affect by their act of 1680, any Lands claimd or possesd by Uncas.

Eleventhly. That the Resignation by Uncas of all his Lands and Territorys by y<sup>e</sup> Treaty between him & the Government of Connecticut y<sup>e</sup> 18<sup>th</sup> of May 1681, May and dos operate as a quitclaim or Release of all claims and Demands in Consideration of certain things afterwards to be done and performd by y<sup>e</sup> Said Government, And y<sup>t</sup> y<sup>e</sup> Said Government might well accept of Such Quitclaim on y<sup>e</sup> Conditions agreed to by y<sup>e</sup> Said Treaty without any impeachment to their former Right, more especially if it be considered that one of y<sup>e</sup> partys to that Treaty were Indians a barbarous People not then Subject to y<sup>e</sup> regular course of any Law, easily misled by Misapprehensions, and as easily provok'd to violent Mischevous Actions, And that Considering y<sup>e</sup> Grants of these lands had probably been Obtaind upon Considerations of Small value to y<sup>e</sup> English, and that The Lands then were of much greater value,

8th. That the government of Connecticut did approve of the said Major John Mason's being procurator, or guardian of the Moheagan Indians during his life, and of Major Samuel Mason, his son, after his death; and in the year 1660, do provide and determine, that the lands of the Moheagans should be disposed of, and ordered by the said Mason; and, in the year 1692, for the more effectual securing to the said Sachem and Moheagans their reserved remaining lands, direct and determine, that none of the lands recorded and confirmed to Oweneco, should, for the future, be passed away, without the consent of Captain Samuel Mason aforesaid.

9th. That, contrary to the reservations, treaties, and settlements above recited, the government of the colony of Connecticut have granted away considerable tracts of the planting grounds of the said Moheagans, amounting to about three thousand acres; and in particular, to the present governor of the said colony, and Gurdon Saltonstall, the minister of New-London, four hundred acres, which, upon oath, is found to be eleven hundred and upwards; and, in October last past, the government aforesaid, by a patent under the seal of the colony, granted the whole tract above mentioned, being the planting ground of the said Indians, to the proprietors of New London and their heirs for ever.

And did dayly grow more valuable, The S<sup>d</sup> Government of Connecticut might out of aquitable and grateful Consideration towards y<sup>e</sup> Said indians Covenant with them as is in y<sup>e</sup> Said Treaty.

Twelfthly That in pursuance of y<sup>e</sup> Said Treaty in 1681 the Government of Connecticut in y<sup>e</sup> year 1683 ordered y<sup>e</sup> Boundaries of y<sup>e</sup> Mohegan Countrys to be Settled which was accordingly done y<sup>e</sup> year following, And it appears as to the lands in Controversy that in pursuance of y<sup>e</sup> Said Treaty reiterated purchases were made from y<sup>e</sup> Mohegan Sachems of all the Lands in Controversy excepting those which y<sup>e</sup> Said Indians Stil possess.

Thirteenthly That by act of y<sup>e</sup> General Assembly y<sup>e</sup> 13<sup>th</sup> of October 1692 The Land Sets apart by Major Mason in 1671 and enterd on Record & which were afterwards call'd y<sup>e</sup> Sequesterd lands are confirmd to Owaneco and his son Mahomet and are Supposd to be more than Sufficient for y<sup>e</sup> Subsistance of y<sup>e</sup> Mohegan Indians by y<sup>e</sup> leave given to S<sup>d</sup> Sachem to Sell of them with y<sup>e</sup> Consent of Samuel Mason and Some parts of Said Sequesterd lands were

10th. That the said Sachem and Mohegan Indians have been very unjustly dispossessed and turned out of a tract of planting ground, called Massapeage, lying within the township of New-London; the improvement of which land is reserved, by the said Sachem and Moheagans, to themselves, by their deed to New-London.

11th. That the town of Lyme, under pretence of their grant of their township from the colony, have taken into their improvement that tract of the Mohegan lands bounded upon their township, containing about nine miles in length, and two miles in breadth.

12th. That one other very large tract of their hunting ground is granted away from the Moheagans to the township of Colchester, viz. that large tract of land between Norwich and Haddam, Lyme, Lebanon, and Metabesset.

13th. That the said Mohegan Indians are a considerable tribe or people, consisting of one hundred and fifty fighting men, formerly a much greater number, and cannot subsist without their lands, of which they have been deprived and dispossessed as aforesaid.

accordingly Sold with the Consent of y<sup>e</sup> S<sup>d</sup> Mason but this Act contains no confirmation or allowance of John Masons power to Entail or Grant by himself as by his Deed in 1671.

Fourteenth, That if it be Suppos'd that y<sup>e</sup> Indians Since y<sup>e</sup> Kings Letters Patent of 1662 have a Title in law to any part of y<sup>e</sup> Mohegan Country they have conveyd y<sup>e</sup> Same to y<sup>e</sup> Kings Subjects of y<sup>e</sup> Colony of Connecticut by Sales and Conveyances well made Since that time.

Fifteenth, That after Caesar than Mohegan Sachem's Sale and Grant to Peter Mason for y<sup>e</sup> Use of the Town of New London by deed dated y<sup>e</sup> 30<sup>th</sup> of May 1715 if the Government of Connecticut had not interpos'd y<sup>e</sup> Mohegan Indians would not have had one foot of land in y<sup>e</sup> Colony of Connecticut.

Sixteenth, That y<sup>e</sup> Governour and Company having procur'd and obtaind from y<sup>e</sup> Town of New London a Surrender of the Said Deed of y<sup>e</sup> year 1715 to Peter Mason & afterwards by Act of their Gen<sup>ll</sup> Court of the 11th of May 1721 Effectually and for ever Secured a Tract of between four and five Thou-

---

That the said Oweneco with his people hath been extremely disturbed and grieved at the proceedings beforementioned of the colony of Connecticut towards them; and have frequently applied themselves to the general assembly of the said colony, by their agents, Major Samuel Mason and Captain Daniel Clark, for redress, but could obtain none; whereby they have been reduced to great want and necessity, and, in this time of war are in great danger of deserting their ancient friendship.

LORDS OF THE ADMIRALTY TO THE LORDS JUSTICES.

*May it please Your Excellencys,*

The Difficulty of keeping His Majesty's Ships of War, that are employed in America, sufficiently manned to perform the Services they are sent on, is in its self great, from the unavoidable Causes of Death & Desertion, the latter of which is grown familiar among the Seamen, either for the sake of high Wages given by the Merchants, or from their own natural Levity; But the Obstructions given by the People of those Colonys to the usual Methods of pressing, made use of by the Captains of His Majesty's Ships, to recruit their Complements, have of late been so violent, & carried on with such Instances of Contempt of Government, & such personal ill Treatment of the Captains that We think it incumbent on us humbly to lay before Your Excys, in the annexed Paper, Copys of the Complaints we have received from the said Captains on that Head, within little more than the Space of a Year past, whereby Your Excys will perceive, that some of the said Captains have been mobbed, others emprisoned, & afterwards held to exorbitant Bail, & are now under Prosecutions carried on by Combination, & by joint Subscription towards the Expencc.

The chief Reason, that we can find for such Opposition is a Belief prevailing among the People there, that the American Act made in the War of Queen Anne, which forbid pressing in America, is still in Force.

We have sent to the respective Governors & Judges of Vice Admiralty in all the Colonys; the Opinion of S<sup>r</sup> Edward Northey, & of the present Attorney General, & of S<sup>r</sup> John Strange all agreeing,

that the said American Act expired with the War, in which it was made; Copys of which Opinions, & of the Letters accompanying the same, to the Governors & Judges of the Vice Admiralty are annexed.

In the Press-Warrants, which we give to the Captains of His Majesty's Ships in America, they are strictly required not to distress either the Merchant Ships, or the Privateers, Copy of which Warrant is annexed; & the Captains inform us, that it is their usual way to take only one Man out of five or six, & if they have any Spanish Prisoners, they allow them One for each Englishman so prest, to assist in navigating the Merchant Ship home to England.

The Governors of the Colonys appear indeed to show a Disposition to help the Captains of His Majesty's Ships to get Men, when they apply to them; but whether that Disposition be real, or that they want Authority, the Captains find little or no Help from them to procure Seamen, nor even to protect them from the Rage & Insults of the People.

The Consideration therefore of the many ill Consequences that may attend His Majesty's Service if the Captains of the Men of War are liable to be thrown into Jail, abroad in the Plantations, by any disaffected Persons, at a time perhaps that they are going on some Expedition or Service of Importance against the Enemy, & always while they are in the Execution of their Orders to protect the Colonys & their trade; That such ignominious Usage exposes their Commission to Contempt, & makes them less able to maintain their Command on board His Majesty's Ships with Honour & Discipline, & also that while the Opinion remains of the American Act being in Force it will be impossible for His Majesty's

Ships to recruit the Deficiency of their Complements; are our Reasons for humbly laying this Matter before Your Exc̃ys; to whom it is humbly submitted.

## LETTERS FROM CAPTAINS OF SHIPS IN AMERICA.

Extracts of Letters from Commanders of His Majesty's Ships Stationed at the Colonies in America, representing the Difficulties they lye under, in procuring Seamen to keep up their Complements.

Capt Scott of the Astrea Storeship, dated at New England, the 26<sup>th</sup> of June 1741.

I am now ready to proceed to Jamaica with a Loading of Masts for the Fleet there, and should have sailed sooner, but was delayed for want of Men, between 40 & 50 having deserted by the Enticements of the People at Boston, and the large Wages given by the Merchants; and tho' I made several Remonstrances to the Governor, in order to procure Men, it proved ineffectual, for I had no Relief from him so that I was obliged to lye in Nantasket Road till I had pressed a sufficient Number of Men from Merchant Ships to enable me to proceed with the Ship to Jamaica.

Capt Hardy of the Rye, dated at South Carolina, the 26<sup>th</sup> of April 1742

I should have been ready to have Sailed sooner, had I not met with great Difficulty in getting Men to compleat my Complement. I was pursuing the usual Methods of pressing out of Merchant Ships, with as much Caution as possible not to injure the home-ward bound Trade, when a Merchant of this Place took the Advantage of an Act of Parliament made in Queen Annes time, that lays a fine of 20<sup>l</sup> Sterling and Costs of Suit if an Action is brought against any Officer who shall impress any Seaman out of a Privateer, or any trading Ship on the Coast of

America; which Proceedings discouraged me from pressing any more.

Capt Hardy of the Rye dated at South Carolina the 3<sup>d</sup> of January 1742/3

The Spy Sloop being otherwise ready to Sail on a Cruize for protecting the Trade, but wanting Thirty Seamen of her Complement, I applyed to the Lieut<sup>t</sup> Governor for his Assistance in procuring them who issued his Warrants for that purpose; but they were attended with no Effect because the Governors Warrants have always this Restriction, that the Constables or Captains of the Watch, who execute them are not to take up any Seamen belonging to any Merchant Ship in the Port.

The Spirit of prosecuting on the Statute of the 6<sup>th</sup> of Queen Anne reigns here more than ever; insomuch, that I am informed the Merchants have entered into a Subscription to prosecute Capt. Hamar on his Return from his Cruize, for every Man he impressed; and they declare it is their Intention to prosecute every Captain of a Man of War, who shall impress any Seamen out of their Ships

Capt Hamar of the Flamborough dated at Carolina the 18<sup>th</sup> Dec<sup>r</sup> 1742.

I should have been ready to sail on a Cruize three Weeks ago, but that I wanted Seamen, whom I was obliged to get by pressing out of Merchant Ships as they came in, as I could get no Assistance from the Government here; but on the Contrary I am informed that several Masters of Merchant Ships and others are collecting together a Sum of Money, in order to prosecute me and all the Captains of His

Majesty's Ships on this Station for impressing their Seamen.

Capt. Hamar of the Flamborough dated at Carolina the 1<sup>st</sup> of March 1742/3

I am in want of Men, which I apprehend will be with very great Difficulty got here, as the trading People seem resolved to put the Law in Execution against impressing of Seamen; and We have found by Experience. that the Lieu<sup>t</sup> Governor is but little able to furnish us with Seamen.

Capt Bladwell of the Swift Sloop dated at Carolina the 1<sup>st</sup> July 1743.

Great Inconveniences & Hardships attend Us all in getting Men to do the Duty We are sent upon. Since I have been in this Port I have prest twelve Men, taking one out of Six, which is very easy, and not hurting the Trade, of whom I have been obliged to return seven, or should have been sued by the Lawyers; and I am now Eleven Men short of Complement. Capt Hardy is now under Arrest, and has given in Bail. I hope their Lordships will take this matter into Consideration, or I believe His Majesty's Ships here will be obliged to lye in Harbour, instead of guarding the Coast from Our Enemies.

Capt Ellis of the Gosport dated at New York the 9<sup>th</sup> of June 1742.

I applied to the Governor, acquainting him with the Desertion of Our Men, being above 100 short of Complement, and desired an order of Council might be made to take up every Seaman that had not a Pass: he mentioned it to the Council, but they did

nothing in it. I am informed by the Governor, there is an Act of Parliament at the first settling these Colonies, that no man shall be pressed here, on the Penalty of twenty Pounds, and is not repealed

Capt. Ellis of the Gosport, dated at New York the 3<sup>d</sup> Septem<sup>r</sup> 1742.

On the 23<sup>d</sup> of July I acquainted the Governor that the only Obstacle to our Proceeding to Sea, to protect the Province from the Enemy, was the Want of Hands, and desired his Assistance; he accordingly issued Warrants for taking up Idlers & such Seamen as did not belong to any Merchant Vessel; This proving ineffectual, and receiving an Order to repair immediately to the Relief of Georgia, I communicated the same to the Lieu<sup>t</sup> Governor who called a Council thereupon & pursuant to their Advice, I advertised for Volunteers, promising to discharge them at my Return from the Expedition But this had no Effect; upon which I again applyed to the Lieu<sup>t</sup> Governor and desired an Embargo might be laid upon Merchant Ships till His Majestys Ship was manned; he inform'd me by Letter "That he had communicated my Request to the Council who were unanimous against an Embargo"; and added "I hope some effectual Method will be taken to man the Station Ships, for the exorbitant Wages the Merchants Give will unavoidably occasion great Desertions" upon this I represented, that I must be obliged to make use of the only Method left to Man the King's Ship by pressing Seamen out of all Merchant Ships that attempted to pass by me, for which the Merchants threatened to sue me, and the Mob to take away my Life

Capt. Gordon of the Hound Sloop dated at Virginia the 9<sup>th</sup> June 1743

The greatest Grievance to His Majesty's Officers is just started up here, which if not duly attended to, may be of very bad Consequence to the Service in general. Several Traders have entered into a Combination to prosecute every Captain who shall press a Seaman in Virginia, tho' it be even a Deserter from his own Ship; and in Consequence of this, Capt Dandridge of the South Sea Castle and my Self are under prosecutions; Capt Dandridge for taking one of his own Deserters from a Vessel; and my Self for taking Men from an outward bound Ship, when it is notorious that I have never taken a Man out of any outward bound Vessel since my being on the Station, and very few from the 'homeward; as will appear, if ever there shall be a Tryal.

Capt Lisle of the Scarborough dated at Barbadoes the 11<sup>th</sup> Dec<sup>r</sup> 1742.

No Ships having arrived here since my coming in has hindered my Compleating my Complement of Men and West India Governors are so tenacious of what they call their Prerogative, that it's difficult to raise any from the Shore. The Tenets they hold here are of full as ill Consequence to Trade as to His Majesty's Service.

Capt Knowles of the Suffolk, dated the 21<sup>st</sup> Septem<sup>r</sup> 1743.

The Squadron lately under my Command, being at Antigua refitting after the Attempts made upon la Guira & Porto Cavallos, and being greatly Weakned and reduced by the Actions at those Places, and a

Privateer coming into the Harbour on the 3<sup>d</sup> of June, Capt. Gage of the Lively sent his Lieutenant and Boats to press her Men; but the Privateers People Arming themselves confined the Lieutenant and Boats Crew, fired at the other; and run away with the Boat; and at the same time a Merchant Ship coming out of the Harbour; the Privateer fired at her and obliged her to send Boats to assist them in making their Escape, soon after I procured Rouse a Lieuten<sup>t</sup> of the Privateer, and Chief Ringleader in the Affair to be secured, in order to prosecute him to the Rigor of the Law, to prevent others from making the like Resistance to the King's Ships; But several People of the Island, who hired the Privateer, applying to Governor Mathew, and a great Mob being raised, who were joined by Several of the Privateers People armed, M<sup>r</sup> Mathew thought fit to release Rouse, and the next Day my Self & Capt Gage were arrested & Carried to Goal where We remained two Days & a Night, 'till We gave Bail in twelve Thousand Pounds each. A few Days after a Habeas Corpus was procured for the Releasement of several of the Privateer's Men, who some of the People that hired' the Privateer, understood were still on board the Suffolk or Lively; and my Self & Capt Gage were threatned to be arrested in another Action, if We refused to comply with it; whereupon I applyed to Gov<sup>r</sup> Mathew to interpose his Authority, which he attempting to do, they clamoured loudly against him, and advised him not to concern himself in the Affair, urging it was a Matter of Common Law and what he had no Business with.

A short time after, Capt Smith, Comãander of the Pembroke's Prize, impressed some Men at S<sup>t</sup> Christophers; upon which the Privateers Crew joined with

People there in an armed manner, came of in the Road, seized the King's Boat hauled her on Shore, and threatned to burn her, if the Capt. would not return the prest Men, which he was obliged to do, to save his Boat, and People's Lives; and after they were released, the Captain was sued in an Action of £500.

I hope His Honour Govern<sup>r</sup> Law, wil with Your Honour Coll. That Several of the said Captains had been insulted by

## FRANCE'S DECLARATION OF WAR AGAINST ENGLAND.\*

## THE FRENCH KING'S DECLARATION OF WAR.

By the King.

Upon the breaking out of the Troubles after the Death of the Emperor Charles the Sixth, the King took all Opportunities of shewing, that his Majesty desir'd nothing more earnestly than to see them speedily concluded, by an equitable Accommodation between the Parties in War.

The Conduct which his Majesty has ever since observed, has sufficiently demonstrated, that he constantly persisted in the same Dispositions; and his Majesty, not being desirous of forming any Pretensions for himself which might in the least obstruct the Re-establishment of Tranquillity in Europe, had no Notion of being obliged to take Part in the War, otherwise than in supplying his Allies with the Succours which he was engaged to give them.

Such disinterested Views would soon have restored Peace, if the Court of London had thought with as much Equity and Moderation, and if it had consulted nothing but the Welfare and Advantage of the English Nation; but the King of England, Elector of Hanover, had very opposite Intentions, which, as it was soon perceiv'd, aimed at nothing less than kindling a general War. Not satisfied with dissuading the Court of Vienna from entertaining any Notion of a Reconciliation, and with nourishing its Animosity by the most violent Councils, it has taken all Opportunities of irritating France, by every where disturbing her Maritime Commerce, in Contempt of the Law of Nations, and the most solemn Treaties.

The Convention of Hanover, in October 1741,

---

\* Inclosed with the Duke of Newcastle's letter of March 31, 1744.

seem'd at least to have assured his Majesty of the Continuance of such Excesses. The King of England during the Stay he made in his German Dominions, appeared to listen to the Complaints which were made to him on this Occasion, and to perceive the Justice of them; he gave his Royal Word that he would cause them to cease, and he formally engaged himself not to disturb the Allies of the King in the Pursuit of their Rights; but scarce was he returned to London, before he forgot all his Promises; and as soon as he was certain that the King's Army had entirely quitted Westphalia, he caused it to be declared by his Ministers, that the Convention no longer subsisted, and that he looked upon himself as disengaged from it.

He then thought there was no longer Necessity to act with circumspection: Being himself a personal Enemy of France, he seemed to have no other Views than to raise up such every where against her: This became the principal Point in the Instructions of his Ministers in all the Courts of Europe. The Piracies of the English Men of War encreased with Cruelty and Barbarity; even the Ports of the Kingdom were no longer an Asylum against their Insults. The English have at length dared to block up the Port of Toulon, to stop all Ships, to seize upon the Merchandize which they carried, and to take even the Recruits and Ammunition which his Majesty was sending into his strong Places.

So many repeated Injuries and Outrages have at last tired the Patience of his Majesty, who can no longer bear with them, without failing in the Protection which he owes his own Subjects, in the Assistance he owes his Allies, in the Defence of himself, his Honour and Glory. These are the just Motives that no longer permit his Majesty to keep within the Bounds of Moderation which he

had prescribed to himself, and which constrain him to declare War, as he does by these Presents, against the King of England, Elector of Hanover, both by Sea and Land.

His Majesty ordains and enjoins all his Subjects, Vassals and Servants, to fall upon the Subjects of the King of England, Elector of Hanover; forbids them in the most express Manner from hereafter having any Communication, Commerce, or Intelligence with them, on Pain of Death; and consequently his Majesty hath from henceforward revoked, and does revoke all Permissions, Passports, Safe-Guards, and Safe-Conducts, which may have been given by himself, or by his Lieutenant-Generals, and other his Officers, contrary to these Presents, and hath declared them, and does declare them null, void and of no effect, forbidding all Persons from having any Regard thereto.

His Majesty orders and commands the Duke de Penthièvre, Admiral of France, the Marshals of France, the Governors and Lieutenant-Generals for his Majesty in his Provinces and Armies, Camp-Marsals, Colonels, Captains, Heads and Conductors of his Military People, as well Horse as Foot, French and Foreigners, and all other his Officers whom it shall concern, that they, and each of them, cause the Purport of these Presents to be executed, in the Extent of their Powers and Jurisdictions, for such is the Will of his Majesty. He wills and intends that these Presents shall be published and fixed up in all the Cities, as well Maritime as others, and in all the Ports, Harbours, and other Places of his Kingdom and Territories under his Obedience, where it shall

be needful, that none may pretend Ignorance thereof.

ENGLAND'S DECLARATION OF WAR AGAINST FRANCE,†  
HIS MAJESTY'S DECLARATION OF WAR AGAINST THE FRENCH KING.

The Troubles which broke out in Germany, on account of the Succession of the late Emperor Charles the Sixth, having been begun and carried on by the Instigation, Assistance, and Support of the French King, with a View to overturn the Balance of Power in Europe, and to extend the dangerous Influence of that Crown, in direct Violation of the solemn Guaranty of the Pragmatic Sanction, given by him in the year 1738, in Consideration of the Cession of Lorraine; and we having on our Part executed our Engagements for maintaining the Pragmatic Sanction, with that good Faith which is inseparable from us; and having opposed the Attempts made against the Dominions of the Queen of Hungary, we are not surprised that our Conduct in this Respect, should have drawn upon us the Resentment of the French King, who has found his ambitious Views, in a great Measure, disappointed by the Assistance we have furnished to our Ally, unjustly attacked by him; or that he should alledge it as a principal Reason for declaring War against us.

\*France had adopted the Gregorian calendar, advancing her previous reckoning of time ten days, in 1582; while England and her American colonies continued to use the Julian calendar until 1752.

†Inclosed with the Duke of Newcastle's letter of March 31, 1744.

From the Time that we found ourselves obliged, for the Maintenance of the just Rights of our Subjects, to enter into a War with Spain, instead of observing a strict Neutrality, which we might have promised ourselves on the Part of the French King, from whom we were even founded by Treaty to have demanded Assistance; he has given Encouragement and Support to our Enemies, by conniving at his Subjects, acting as Privateers under Spanish commissions, both in Europe and America, and by sending in the year 1740, a strong Squadron into the American Seas; in order to prevent us from prosecuting the just War which we were carrying on against Spain in those Parts; and we have the most authentick Proof, that an Order was given to the Commander of the French Squadron, not only to act in a hostile Manner against our Ships, either jointly with the Spaniards, or separately; but even to concert Measures with our Enemies, for attacking one of our principal Dominions in America; a Duplicate of that Order dated the 7th of October, 1740, having fallen into the Hands of the Commander in Chief of our Squadron in the West Indies. This injurious Proceeding was greatly aggravated by the French Minister at our Court, having declared on Occasion of sending the said Squadron; that the French king was very far from having any Design or Intention of breaking with us.

The same offensive Conduct was continued, on the Part of the French King, towards us, by his Squadron in the Mediterranean, in the Year 1741, joining with and protecting the Ships of our Enemies, in Sight of our Fleet, which was preparing to attack them.

These unwarrantable Proceedings; the notorious Breach of Treaties, by repairing the Fortifications, and

erecting New Works at Dunkirk, the open Hostilities lately committed against our Fleet in the Mediterranean; the Affront and Indignity offered to us, by the Reception of the son of the Pretender to our Crown, in the French Dominions; the Embarkation actually made at Dunkirk, of a considerable Body of Troops, notoriously designed for an Invasion of this Kingdom, in Favour of the Pretender to our Crown; and the sending a Squadron of French Ships of War into the Channel, to support the said Embarkation and Invasion, will be lasting Monuments of the little Regard had by the French Court for the most solemn Engagements, when the Observance of them is inconsistent with Interest, Ambition, or Resentment,

We cannot omit taking Notice of the unjust Insinuations contained in the French King's Declaration of War against us, with respect to the Convention made at Hanover, in October, 1741; that Convention, regarding our Electorate only, had no Relation to our Conduct as King of Great Britain. The Allegations concerning it, are groundless and injurious; our Proceeding in that Respect, having been perfectly consistent with that Good Faith, which we have always made the Rule of our Actions.

It is unnecessary to mention the Objections made to the Behaviour of our Ministers in Foreign Courts; since it is notorious that the principal View and Object of the Negotiations of the French Ministers in the several Courts of Europe, have been either to stir up intestine Commotions in the Countries where they resided, or to create Differences and Misunderstandings between them and their respective Allies.

The Charge of Piracy, Cruelty, and Barbarity against our Ships of War, is Equally unjust and un-

becoming; and we have all such Proceedings so much in Abhorance, that, if any Practices of that Nature had been made appear to us, we should have taken effectual Care to put a Stop to them, and to have punished the Offenders in the severest Manner.

We being therefore indispensably obliged to take up Arms, and entirely relying on the Help of Almighty God, who knows the Uprightness of our Intentions, have thought fit to declare and do hereby declare War against the French King; and we will, in pursuance of such Declaration, vigorously prosecute the same by Sea and Land; being assured of the ready Concurrence and Assistance of all our loving Subjects, in so just a Cause: And we do hereby will and require our Generals and Commanders of our Forces, our Commissioners for executing the Office of High Admiral of Great Britain, our Lieutenants of our several Counties, Governors of our Forts and Garrisons, and all other Officers under them, by Sea and Land, to do and execute all Acts of Hostility in the Prosecution of this War against the said French King, his Vassals, and Subjects, and to oppose their Attempts; willing and requiring all our Subjects to take Notice of the same, whom we henceforth strictly forbid to hold any Correspondence or Communication with the Subjects of the French; And we do hereby command our own Subjects, and advertise all other Persons of what Nation soever, not to transport or carry any Soldiers, Arms, Powder, Ammunition, or other contraband Goods, to any of the Territories, Lands, Plantations, or Countries of the said French King; declaring, that whatsoever Ship or Vessel shall be met withal, transporting or carrying any Soldiers, Arms, Powder, Ammunition, or other contraband Goods, to any of the Territories, Lands,

Plantations, or Countries of the said French King, the same being taken, shall be condemned as good and lawful Prize. And whereas there are remaining in our Kingdom divers of the Subjects of the French King, we do hereby declare our Royal Intention to be, that all the French Subjects, who shall demean themselves dutifully towards us, shall be safe in their Persons and estates.

Given at our Court at St. James's, the Twenty ninth Day of March, 1744, in the in the Seventeenth Year of our Reign. God save the King.

*Gentlemen,*

The French King having declared War against His Majesty, (as you will see by the inclosed Copy of

His Declaration for that Purpose,\* which is full of the grossest, and most indecent Misrepresentations, and Reflections upon His Majesty's Conduct,) I am to acquaint you, by His Majesty's Command, That, on Thursday last, the 29<sup>th</sup> Ins<sup>t</sup>, a great Council was held at S<sup>t</sup> James's where His Majesty approved, and has since signed, a Declaration of War against the French King, and ordered, That the same should be published, on this Day, by the Heralds at Arms, in the usual Places, and with the accustomed Formalities on the like Occasions; which has been done accordingly. I send you inclosed a printed Copy of the said Declaration\*; And am commanded to signify to you His Majesty's Pleasure, That you cause it to be proclaimed in the Colony under your Government, That His Majesty's Subjects, having this Notice, may take Care to prevent any Mischief, which otherwise They might suffer from the Enemy, and do their Duty in their several Stations, to distress and annoy the Subjects of the French King: And His Majesty would have you be very rigorous, and severe in preventing any Ammunition, or Stores of any Kind, from being carried to Them; and you are to use all proper Methods, that may be most effectual for that Purpose.

I send you inclosed His Majesty's Proclamation for the Distribution of Prizes, taken by His Majesty's Ships of War, or Privateers, which, you will take Care, may be published in the Colony under your Government: And you will do every Thing in your Power, to encourage His Majesty's Subjects to fit out Ships, to act as Privateers against the Enemy; And you will, upon the Receipt of this Letter, take all

The Opinion of one of the Commiss<sup>s</sup> upon the Merits

On Hearing, upon Commiss<sup>n</sup> of Review. 1743.

As my Sentiments upon the Hearing of this Case, differed widely from the Opinion of the Majority of the Commissioners upon which the Judgment on the Review was given, so I thought proper to declare my Self before the Judgment was drawn up, upon

\*The foot notes to this document are the work of its author.

some fundamental Points on which the Governour and Company seemed to lay great Stress, upon a due Consideration whereof, I then conceived, the Merits of this Cause would turn: But as there was such a Notoriety of Facts to be consider'd in a Matter of so great Intricacy and Concernment, I was the more carefull to avoid being precipitated into a rash Judgment, and therefore reserv'd the Liberty of entering my Opinion at large, at the next meeting of the Court, which (according to the Directions in His Majesty's Commission) was to be held in Order to give Opportunity for an appeal to be enter'd by any Parties who should apprehend themselves to be aggrieved by that Judgment: And after carefull Examination of the Proceedings and attentive Consideration thereof, my Opinion thereupon is contain'd in the following Articles.

Article 1<sup>st</sup>. That soon after the English Subjects first set Foot in this Country (which was in the year 1633 & 1634, as appears by the Introduction to the History of the Pequot War (*a.*) They associated themselves into a Form of Government, and for that Purpose enter'd into Articles bearing Date the 14<sup>th</sup> January 1638 (*b.*) whereby they agreed to submit themselves to a Governor & Magistrates who were to be annually chosen.

Art: 2<sup>d</sup>. That M<sup>r</sup> . . . Hopkins in the year 1640 (in pursuance of those Articles) was elected Governor and M<sup>r</sup> Haynes Deputy Governor of the said English Subjects

Art: 3<sup>d</sup>. That after having inspected, carefully weighed and consider'd the Proofs relating to the Writing exhibited in Court, as well as the Writing itself, bearing date 20 *September 1640* purporting to be

(*a.*) Page 3. (*b.*) Book of Proceedings pa. 236.

the free Deed of Gift of Uncas als Poquion, Sachem of the Moheagan Indians, to the Governour & Magistrates of said English upon Connecticut River of *all the* Lands that then did, or of Right ought to belong to him.

The said Writing seems to carry with it Marks of Antiquity, it is wrote in an Antique Hand, such as was in fashion in those Days, a kind of Secretary, of which Sort there are several in the Book of the Colony Records (exhibited to prove a similitude of Hands) which bear great Resemblance to each other insomuch that it must be a curious Discernment that can distinguish them; but by an intente Inspection and Comparison it was agreed by all the Commissioners, that the Body of this Writing was of the same hand writing with the Records of the year 1639, contained in the beforemention'd Record Book, at which Time the said M<sup>r</sup> Hopkins was Secretary to the said English Colony, and that the said Records in that Year were wrote by him; and also on comparing a Letter wrote by the said M<sup>r</sup> Hopkins dated the 1<sup>st</sup> May 1652 subscribed Edward Hopkins, It was agreed by all the Commissioners hat the Body of the said Writing or Deed of Gift was of the same hand writing with that Letter and the said Records (*viz*<sup>t</sup>) M<sup>r</sup> Edward Hopkins's, But as to the Marks of Uncas the Indian Sachem, Grantor of the Deed, and of the Indian Witness Poxon or Foxon and the Name of the Witness Thomas Stanton, In these three Particulars I differ much in opinion from the rest of the Commissioners.

First, As to the Mark for Uncas.

This mark in my opinion shews too much of Design and Intention, too much Regularity, too great a Command of Pen to be imagined to have proceeded

from an Indian Hand; it seems to have been made by one accustomed to that Sort of sporting (or rather trifling) with his Pen; It is a kind of Knot, the Strokes of it all made even and Regular, and must have been done by a Square full Nibb'd Pen, such as a Secretary hand requires; There are several semi-circles, the Strokes of which must have been made by throwing back the Pen, which is not easily done by an aukward unskilfull hand without bespattering; That is not the Case here, And there are many acute Angles, which seem to have required a Command of Pen mastered by long Use and Habit; There are several Hearts conjoin'd in it. The knot is compriz'd in too small a Compass; The concluding Stroke is carried up led from much above the rest, and ends in a circular Sweep, enclosing the End of it, thick as the fullest Strokes of the rest from the Top, is brought under two thirds of the whole mark, and lessening gradually ends in a circular fine hair Stroke, which could not in my Opinion have been performed by "a heavy bearing Hand unaccustomed to form "regular Shapes or Figures"; but appears from the View to have been done by an expert Penman, in such Manner as is not easie for every Person to imitate.

It was objected against this being the Deed of Uncas, that he always made one kind of Mark, and that it was customary with the Indians, always to use the same kind of Mark: That Uncas generally did so appeared by Copys of his Mark in the Paper Book containing the Proceedings of the Commissioners in this Cause in 1705: and further to prove this, there were exhibited an Original Indian Purchase (or so much as Time had left of it) from Uncas, made to the Town of Norwich dated in 1659. An-

other to Thomas Tracey and Thomas Leftingwell in 1668, Another to Thomas Hollester in 1675 (*c*) all of the same kind of Marks, and like to all or most of those in the Paper Book, and to each other; there was a visible Aim in them at the same Figure; I find also among the Exhibits on the part of the Governour and Company, a Copy of a Deed from Uncas to Richard Houghton dated the 19<sup>th</sup> August 1658 (*d*) also another from Uncas to Jeremy Adams dated the 20 May 1662 (*e*) whereon are two Copys of Uncas's Mark, each bearing Resemblance to the Original Mark on the Norwich Deed, and to those copyed for Uncas's Mark in the Paper Book, bearing Resemblance and Conformity to the same from which Observations and Comparisons, one is very apt to conclude that the Mark to the Deed 40, and to that of John and Daniel Stebbins (hereinafter taken Notice of, which are the only two Deeds whereon the Marks for Uncas were totally different from the rest) were not Marks of Uncas's making.

On the other Hand an Indian Deed from Uncas to John and Daniel Stebbins (*f*) was exhibited on behalf of the Governour and Company to shew that Uncas's Mark to that was different from all the rest, and it was so; And indeed his Mark to that was such a Scrall that any Child, Indian or other Novice might be expected to make, who had never before taken Pen in Hand: This Deed was dated in 1683, forty three years after the Deed 40, And if Uncas made the Mark to the Deed 40, he must be allowed to have handled his Pen much best upon his first

---

(*c*) The two last Deeds not enter'd among the Exhibits in book of Proceedings 1743. But taken Notice of in the Minutes pa: 178, (*d*) pa. 254 (*e*) pa: 265-6.

(*f*) Pa: 265, — a pretty Exact Copy.

Attempt, which was within 6 or 7 years after the English first set foot here, and but two years after their Association into Government.

Secondly, As to the Mark for Foxon the Indian Witness.

My Notion is, that it is as unlikely as the other to have been done by an Indian, by the Command of Pen it must have required; This seems to be an Imitation of a Rope laid down on a Floor curled and doubled a considerable Length, with six Equidistant blank Spaces, enclosed between the two Ends, Three open at Top and three at Bottom; The beginning has three oval Sweeps, comprizing too narrow Spaces for an awkward hand to have effected with so much Command.

Thirdly, I have considered and compared the antient Writings exhibited to prove the Witness Thomas Stanton's Name by the similitude of Hands, and also the Writing of the Body of this Deed, and am of Opinion *upon the whole*, that all the Writing upon that Side of the half Sheet of Paper (in which this Instrument of 20 September 40, is comprized) was wrote by one and the same Hand, viz<sup>t</sup>, by Governour Edward Hopkins, the Names Tho Stanton indeed seems to be wrote somewhat in Imitation of his signing to the Exhibits, as is common for those that Copy to do; But notwithstanding the small Letters are similar to the rest of the Writing agreed to be M<sup>r</sup> Hopkins's and the same freedom of Pen appears in them, much different from Stanton's Writing which (tho' it is a kind of Secretary,) is a much stiffer hand, wrote with much less freedom & Command of Pen, as one less accustomed to Writing.

The Force of these several Observations is scarce to be conceived but by a carefull Inspection and

Comparison of the Instrument itself, with the Record Book and other antient Writings, exhibited to prove it by similitude of Hands, wherefore I am fully convinced that it is not an original Deed executed by Uncas; but a Copy only (if ever there were an Original) and in whose Hand soever the Original was lodged, they best knew the Design and Intent with which it was made, and why it was not deliver'd up to be repositd amongst the Records of the Colony; And indeed I should scarce have spent so much Time about it had not great Stress been laid upon it as an original Deed, and had not I been single in my Opinion concerning it. (g)

Fourthly, But supposing this Writing now before the Court is an Original Deed executed by Uncas, had it been calculated as a Conveyance of the absolute Property of these Lands, though the Stile of Governour and Magistrates, might perhaps have been sufficiently descriptive of the Persons to take, yet they were no Corporation (but of their own making) consequently could have no Successors, and even in such Case, the Deed would have become void; besides that, it is to be observed, that 'twas made without Consideration; whatever Effect it might have had, as the same is lain dormant till of late, from the Day of the Date of it, as it has not appeared to have been so much as mention'd or hinted at by the Governor and Magistrates, or the Government after this Colony's Charter of Incorporation, in any of their publick Treatys or Transactions with this Tribe, which administer'd many notable Occasions of bringing it to Light, Their own Actions are in my opinion, the best Expositors of the Validity of it, and of their

(g) See Copys of y<sup>e</sup> Indian Marks to copy Orig<sup>l</sup> Deed 40, somewhat similar, the best y<sup>t</sup> I could make, but not near so good as the Originals.

Thoughts concerning it; And it ought not now to be supported in a Court of Equity, to contradict or invalidate their many solemn Engagements with this Tribe, concerning these Lands, or deem'd of any Force or Effect at this Day.

Art: 4. That Uncas & Waweguan (his Brother) Sachems of the Mohegan Country, by their Deed (bearing Date the 15 August 1659, did convey to Major John Mason, then Deputy Governor of the said English Colony "All the Land then belonging to them"; Thereby binding themselves, their Heirs & Assigns, That the said Mason his Heirs or Assigns should peaceably enjoy the same without molestation or Incumbrance.

So that at this Time it is plain, that the Indians (as well as Major Mason) though they had still some considerable Property in Reserve in their Mohegan Territories (other than a small Parcel or sufficiency of Land to plant on) They by making, he by accepting this Grant; And that the Governor & Magistrates were of the same Opinion at that Time, will appear from what is to be observed upon by the next Article.

Art: 5<sup>th</sup>. That the Intendment of Major Mason's Surrender of the Jurisdiction Power, as enter'd in the Minute of the Court Book of the Governour and Magistrates of the 14<sup>th</sup> March 1660, was only to engage to that Jurisdiction (as they term'd themselves) The Right of exercising the Powers of Government over the English, who should from Time to Time settle on these Lands conveyed to him by the Deed of August 59. and Not to affect, or convey the Right in the Soil, by giving that Colony a Jurisdiction Power over them on any Condition whatsoever therein expressed or imply'd; And that by the Provision therein, that

the Indians should at all Times thereafter have a sufficient Quantity of Lands to plant on, the same might most probably be intended and provided by the Major as a Check upon those of his Family, who under the Deed 59, should thereafter succeed him in the Trust, that the whole Lands thereby conveyed to him should not be disposed of at any Time, but a sufficiency thereof remain for ever for the Tribe to plant upon for their Subsistence, And that by the Reservation to the Major of a Sufficiency of Land for a Farm, he most probably might think as he had submitted those Lands to be annexed to that Jurisdiction, his Title to such part of them as he (through his Interest with the Tribe) should thereafter think proper to impropriate absolutely to himself, would not be compleat and ample, without a Grant and Confirmation from the Governour and Magistrates, And that such Stipulation was not thereby intended as a Recompence to the Major for his making a Purchase of these Lands for the Governour and Magistrates, as it should seem to be fancyed, in Support of which Imagination there is no Colour of Proof; But that ever the Major had afterwards a Grant compleated or Patent passed for any such Farm was not in Evidence before Us.

I should be convinced from this Transaction that the Governour & Magistrates were well acquainted with the Design of this Indian Conveyance to the Major, that they understood it to be a Trust and approved thereof by leaving the Power in his hands (as they therefore must needs have found it) to dispose of the Soil.

Art: 6<sup>th</sup>. That the Confirmation by the Deed executed by Uncas and his two Sons Oweneco & Attawanhood in 61, enur'd only to confirm to the

Major the Estate before granted by Uncas and Wawequaw by their deed in 59 and the Intent of that seems to have been to signifie the entire approbation of Oweneco. & Attawanhood together with their Father Uncas and the whole Tribe of what had been so done by Uncas and his Brother Wawequaw (the latter of whom We may suppose at this Time Dead) and (amongst themselves) of the Purpose in doing it, which as yet had not been publickly declared, and can by no reasonable Construction be adjudged to operate to the Confirmation of the Pretences of Claim or Title now set up by the Governor and Company to the absolute Property and Right in Law in all the Moheagan Territorys.

Art: 7<sup>th</sup>. That the Charter of Incorporation granted by King Charles the 2<sup>d</sup> to the Colony of Connecticut did not, (nor can it be construed to have been intended to) vest in the Corporation the absolute Property and Right in Law of the Lands contained within the Bounds and Limits of it, which were not before the Date of it fairly purchased or obtain'd from the Indians; But only to give the Corporation the Right of Preemption of the Lands within that Circuit which upon Purchase should from Time to Time become vested in the Corporation, and so become part of the Colony upon such Trust as mention'd in the said Charter; For I think the Crown looks upon the Natives as the Proprietors of the Soil of these Countries, as is manifested by the universal Practice of purchasing the Lands of them throughout all the Colonys, and the Lands are not absolutely impropriated to his Majesty's Subjects, untill they are so purchased tho' included within the Bounds or Limits of the Royal Grant.

Art: 8<sup>th</sup>. As the Indians had so conveyed the

Remainder of the Moheagan Territorys to Major Mason and his Heirs in Fee by the Deed 59, and afterwards confirmed the same in 61. Yet (as these Transactions were upon a Trust and Confidence, the Intent and Purpose whereof were not yet declared by any Instrument in Writing) in the year 65, it was thought proper (it seems) that the Use and Intent thereof should be manifested, and accordingly Uncas and his two Sons Oweneco & Attawanhood Sachems of Moheagan by their Deed of the 14 December in that year (*h*) declare what the Intent of those Conveyances was, it was a Trust lodged in Major Mason and his Family in order at all Times thereafter to protect the Indian's Estate; and to engage them to that Service the Masons had an Interest in the Lands thus conveyed, coupled with that Trust, which (as it should seem) those Sachems judged to be a mean most likely effectually to answer the End proposed, and they thereby covenant that no part of those Lands should at any Time thereafter be sold or dispos'd of by themselves, their Heirs or Successors without the Consent and Allowance of Major Mason his Heirs and Successors.

That the Property of the Lands in Controversy remained in the Indians and Major Mason notwithstanding the Surrender 60, and that it was so understood by the Government and People of this Colony is sufficiently evidenced by their subsequent publick Transactions and Treatys with these Indians, and by Purchases made of them from time to time thereafter of several Parcels of these Trust Lands with the Consent of the Masons on whom the Trust was descended down to the Judgment in 1705 and ever since; particularly by a Grant executed by Uncas & Oweneco

(*h*) pa. 71.

to the Township of New London of the 10 March 68 which is attested by Major Mason the first Trustee as signefying his Consent conformable to the Trust declared as above.

Art. 9<sup>th</sup>. That as the legal Estate in the Lands in controversy was vested and still remain'd in Major Mason in Trust as before mentioned, He, in order to secure a considerable Part thereof for the perpetual Subsistence of the Tribe, did by Deed of the 9 May 71, Entail upon Uncas, Oweneco & Attawanhood then Sachems of the Tribe, a parcel of Lands between the Townships of New London & Norwich, which thence obtained the Denomination of the Sequester'd Lands, as being thus set apart for the perpetual Use of the Tribe, so as the same should remain forever unalienable, that the Indians even with the Consent of himself, his Heirs or Successors in the Trust should not at any Time thereafter make sale of any part of it: The Major might judge this a sufficiency for the Maintenance of the Tribe at all Times thereafter in all Events for their planting Ground.

And in this particular the Major manifested his Fidelity by giving up his own Interest with respect to the Lands so entail'd, in order to the effecting a lasting perpetual Service to the Tribe.

This Deed was enter'd upon the Records of the Colony and so certified by Secretary Allyn Eight Days after the Date of it, as appeared by the Copy certified by Secretary Kimberly which was before the Court (*i*).

The Lands this entail'd the Governor and Company say in their Defence "The Government has

---

(*i*) This was upon the Back of Secr Kimberly's certified Copy of Deed 40, exhibited in Court & therefore insisted on by one of the Comm<sup>r</sup> to be inserted in the Book of Proceedings, but a Majority overrul'd it.

“ always allowed these Indians to hold and consider'd “them as the said Indians Lands.”(k) Which Opinion and Allowance I conceive does sufficiently signifie the Acknowledgement and Approbation of the Governor & Company of the Major's Power so to entail and set apart these Lands.

Art: 10<sup>th</sup>. That by the Report of the Committee enacted by the General Court at Hartford 13 May 1680 (l) in the 5<sup>th</sup> Article it appears that Uncas requested of the Court, that the Bounds of his Lands might be settled before he dyed” and they answer “They are free to it” And from the 11<sup>th</sup> Article, I think it may be rightly inferred that Uncas, had complain'd (as the other Indians had done concerning their Lands) of Encroachments made upon his Territories, by the English, for which Reason he might desire that his Bounds should be settled before he dyed, That he might leave his Tribe in Peace with respect to their Lands.

And the 11<sup>th</sup> Article seems calculated in general Terms for the prevention of Encroachments upon the Indians Lands, which appears to have been the principal Subject Matter of that Act (upon the Face of it) so far was it from the Intention of the general Court to affect thereby any Lands claim'd by Uncas, to the Prejudice of him, and the Moheagan Tribe; But on the contrary if the Lands entail'd upon the Indians by Major Mason may be said therefrom to have been set apart for them within the Bounds of any Plantations (and that these Trust Lands conveyed to the Major in 59, were at this Time surrounded by Plantations of the English I collect from the Proceedings) if that were the meaning of the Expression within the Bounds &c, Then Uncas, who it seems had

---

(k) pa: 123. (l) pa 331.

complain'd about the Encroachments as well as other Indians mention'd in that Act, was as much entitled to the Penalty thereby provided for the Protection of Indian's Lands, as any other Indian mention'd in the Committee's Report, which makes up the Bulk of that Act.

Art: 11<sup>th</sup>: That no Right or Interest in the Lands in Controversy being in the Governor and Company, or so much as pretended to by them at the Time of their Treaty with Uncas in 1681, and the legal Estate in them having been conveyed by the Indians to Major Mason as before (*m*) Uncas his Resignation of all his Lands and Territories by the 2<sup>d</sup> Article, neither "can nor does operate as a quit Claim or Re-lease of all Claims and Demands." on any Consideration whatsoever touching these Lands, for there was no Foundation for such to operate upon: In my opinion nothing more was intended by that Treaty than to engage to the Colony the Right of Preemption of such parts of these Trust Lands, as those Indians should from time to time thereafter be inclinable to make sale of, conformable to the Trust in the Masons and to submit them to the Jurisdiction Power of the Colony with Regard to the English Settlers there. Nothing appears from the Transaction of Major Mason by the Surrender of 60. whereby these Indians could be bound by the Acts of their Trustee (if he himself could be bound by that Entry) and it seems to me, most probable that at the Time of this Treaty, the Government of Connecticut were of this Opinion, and might therefore stipulate with Uncas to confirm the Engagement of their Trustee touching the Jurisdiction Power over these Lands; for that nothing more was intended by this Treaty (other than that the Right of Preemption) is clear to Me.

---

(*m*) page 59, 60.

intended by this Treaty (other than the Right of Pre-emption) is clear to Me.

2 Uncas expressly retains his Property in the Lands by the same Article notwithstanding his Resignation, And as none of the Lands contained within the Limits of the Charter could after the Royal Grant be purchased of these Indians by any without Licence first obtain'd from the Corporation (as the Governor and Company may be presumed to have well understood) so 'tis contracted by this Treaty that the Indians should not dispose of any of their Lands thus resigned to any Person or People whatsoever without the Grant and Allowance [i. e. the Licence of the Corporation first obtain'd, nor could the Corporation have any Right to grant any of the Lands thus resign'd, without Purchase first made of the Indians pursuant to such Licence, & conformable to the Mason's Trust

3. And 'tis probable that had the Colony at this Time been so unreasonable as to have set up a Claim in these reserved remaining Trust Lands, under Colour of any of the Pretences before observed upon; considering the great Friendship these generous Savages had from the beginning shewn towards this Colony, instead of entering into this League they might have look'd upon such Claim as Matter of high Provocation, the Presentment whereof might possibly have driven them to a Recourse which the Dictates of Nature and Reason might have prompted (and their own Power at that Time enabled) them to have made Use of for their Redress—If in Fact the Colony had any such Claim (as I conceive they had not, nor did they at this Time pretend to it) The Fancy that this Treaty may and does operate as a Quit claim or Release of all Claims and Demands—In Consideration of certain things afterwards to be done & perform'd would scarce be worth the Notice but for it's Singularity i. e. The

Indians thereby releas'd all Claims & Demands, and yet retain'd a Claim.

Art; 12<sup>th</sup>. That on the 6<sup>th</sup> March 83 (n) Oweneco (then sole Sachem of the Moheags) following the Example of Major Mason (who put it out of the Power of his Heirs, or any Body else as he might think, of making Sale of any part of the sequester'd Lands so entail'd by him in 71.) He also entails those Lands upon the Tribe to remain for their Use, & himself and his to plant, occupy and improve for their mutual Advantage for ever, & this Deed appears to have been acknowledged before James Fitch an Assistant i. e. a Member of the General Court, who may be presum'd to have been a proper Judge whether Oweneco had at that Time a Right to make such Conveyance or not, & might have informed the general Court accordingly.

2 That by Act of Assembly in the same year pursuant to the beforemention'd Request made by Uncas, as recited by the Act 1680 (o) (and not in Pursuance of the Treaty 81, as I can collect from the Proceedings) The general Court appointed a Committee of which the then Governor was one "to endeavour "to settle the Bounds between Uncas and the Plantations to which his Lands adjoin'd and to compose "the Differences between (The Township of) Lyme "and Uncas and all other Differences that he should "desire to refer to them, and what they did they "were (thereby directed) to make Return thereof to "the Court." (p) So that here again We may suppose, the Indians had made Complaint to the Court of Encroachments made upon their Lands from the Nature of the Committees Instructions; And the Boundaries

not having been settled pursuant to the Court's Agreement in 80; Uncas it may be presumed renewed his Request for that Purpose in 83. but not a word about Boundaries is mention'd in the Treaty 81.—a Settlement of the Boundaries was made accordingly, returned to the General Court in 84. & by them approved and ordered to be recorded, which Settlement comprehended all the Lands so conveyed & confirmed to Major Mason, and it appears that reiterated Purchases were afterwards made from Time to Time of the Moheagan Sachems, of several Parcels of the Lands in controversie, with the Consent of the Masons conformable to the Trust, and several other Purchases have also been surreptitiously obtain'd without the Consent of the Masons in despite of that Trust; And that several Grants and Orders for Grants have been from time to time made by the General Court or Governour and Company of other considerable Tracts of these Trust Lands without Colour or Pretence of any sort of Indian Purchase at all.

Art: 13<sup>th</sup>. That by Acts of the General Assembly the 13 and 20 October 92. All the Lands belonging to this Tribe conveyed to Major Mason in 59 and contain'd within the Boundaries of the Moheagan Territory settled & recorded to Uncas in 84 (which at the Time of those Acts remain'd in reserve unsold and undisposed of) were at the Request of Oweneco confirmed to him and his Son Mahomet, and the Trust in the family of the Masons concerning their remaining reserved Lands (then vested in the Person of Samuel Mason) thereby allowed and established by the General Court; And as to the Sequester'd Lands, it appears they were but a part of the whole Lands so recorded and confirmed, so that these publick Transactions by these two Acts can (in my opinion)

by no means be construed or restricted to mean particularly and only the Sequester'd Lands which the Governor and Company now say (q) "they always allowed these Indians to hold an consider'd as "their Lands." (as it should seem) in Exclusion of all others.

2 The Boundaries of the sequester'd Lands appear to have been sufficiently known and ascertain'd from the Deed of Entailment, and there could be no need of any Order of the Legislative Body of the Colony for settling the Boundaries of the whole Moheagan Territories to find them out; consequently that Settlement must have been to ascertain what Lands in general within the Moheagan Territories did at that Time belong to this Tribe, of which the sequester'd Lands were notoriously a part, & accordingly included in that general Settlement.

3 That the Governour and Company have allowed of the Trust vested by the Indians in Major Mason, as to the particular Instance of his Execution of it by his Deed of Entailment, and of his power so to entail; for as they say "They always allowed the "Indians to hold them, and consider'd them as their "Lands," and having assign'd no Reason why they so peculiarly esteem'd them such, nor period from whence they dated that Opinion, it must have been a Matter Notorious, allowed and approved of by the Government before the present Generation came into being, and therefore, that Opinion must have been handed down to them, from their Ancestors, and must first have taken its Rise and the Lands their Denomination, from that Entailment.

Art. 14<sup>th</sup>. As it is not to be supposed that by the Royal Charter of Incorporation, it could be in-

tended that any of the English Subjects, Adventurers in the Infancy of this Colony, should be divested of their particular Interests in Lands here acquir'd before the Charter, but rather confirmed in them thereby; so neither on the other hand, can it be supposed that by the Grant of such Lands to the Corporation as are contain'd within the Limits of the Charter, the Crown could intend (or that the Charter can be so construed) to divest the Indians of their Property in the Lands within those Limits, which they had not at that Time fairly sold to the English Subjects, but only to grant to the Corporation the Right of Pre-emption of such Lands as were contain'd within those Bounds, when the Indians should be dispos'd to make Sale of them, thereby to preclude all other English from purchasing the same.

2 That the Indians had Lands of their own after the Grant of the Charter, contain'd within the Limits of the Charter thereby prescribed, and that the Colony from Time to Time have so acknowledged, is in my opinion sufficiently manifest from the several Transactions before observed upon, which tend not only to shew their Allowance but their Confirmation (whether needful or not) of the general Trust concerning them: And in particular as to the Major's Deed of Entailment of the Sequester'd Lands, and as to them the Governments own Confession is "They always allowed them to hold the same, and considered "those Lands as the said Indians Lands." (r) but whether the Government has allowed them to hold the same, and whether those as well as the other Trust Lands have been well conveyed to the King's Subjects here since the Grant of the Colony Charter,

are the Matters in Controversy, which remain yet to be proved.

Art 15<sup>th</sup>. That the Government of Connecticut by their Acts of the General Court in 98 and 99, Ordering a Grant to Governour Winthrop and M<sup>r</sup> Saltonstall of part of the sequester'd Lands, and afterwards by their Act in 1703, and by Patent pursuant thereto in 1704, likewise granting that whole Tract to the Township of New London (notwithstanding the Specious Saving therein of the Indian's Rights) did lay the Foundation of what appears to have been since effected viz<sup>t</sup> the dispossessing the Tribe of that Tract so peculiarly set apart by Major Mason for their perpetual use; and that without Colour of any Sort of purchase from the Indians at the Time of those Acts and Grants.

2<sup>dly</sup> That under Colour of a Patent of Confirmation of a former Grant issued by the Government to the Township of Lyme in 1685 the Tribe has been dispossessed of another Tract of their Trust Lands bounded upon their Township mention'd in the Proceedings to contain about nine Miles in length and two Miles in Breadth, and that without Colour of any sort of Indian Purchase that appeared before Us.

3<sup>dly</sup> That the Governour and Company by their Acts of the General Court in 98 & 99. having order'd Grants of Parts of a larger Tract of Land to the Township of Colchester, lying between Norwich and Hadham, Lyme, Lebanon and Metabesset, laid the Foundation of what it appears was afterwards effected, viz<sup>t</sup>, The dispossessing the Tribe of that whole Tract and that without Colour of any sort of Purchase made of those Indians at the Time of those Acts.

4<sup>th</sup> So that if the Acts, Grants, Confirmations and Doings of the Governor and Company and their Committees were to take Place, the Moheagan Indians would scarce (at this Time) have one Foot of Land left them in the Colony of Connecticut.

Art: 16<sup>th</sup>. That thus the Case stood at the Time of issuing the Commission of Her late Majesty Queen Anne to Governour Dudley and others, with Respect to these three Tracts of the Trust Lands, which have now been controverted before Us, and as to them, I think the Judgment pronounced in the Case by those Commissioners was well warranted from the Evidence then before them as it appears in Our Proceedings.

2. The Facts found by these Commissioners upon which they grounded their Judgment were correspondent to the Matter of the Indian's Complaint set forth in their Commission; And though there appears sufficient Evidence to support them, yet further, I consider those Commissioners as Gentlemen of Figure and Fortunes, resident many of them in Connecticut it Self, and others in neighbouring Colonies, who as a Jury of the vicinage, might most likely be better qualified to judge of the Case from the Knowledge they might have of the Facts.

3. That notwithstanding the Judgment decreed

to these Indians, the Possession of the three several Tracts before mentioned, and did also confirm and establish the Trust concerning all these Indians remaining reserved Lands then descended upon, and vested in the Person of John Mason, by appointing him their Trustee & Guardian of all their Affairs (t) It appears that the Governour and Company (disregarding the Judgment so pronounced under the Authority of that Commission) did on the 24 September 1705 (i. e. one Month immediately after the Judgement) issue a Patent under the Seal of the Colony (pursuant to the former Acts of the General Court of the 13 October 98 and 11 May 99.) and under Colour of a fraudulent Indian Purchase afterwards surreptitiously obtained of Oweneco then Indian Sachem, contrary to and in despite and Defiance of the Trust aforesaid thereby Granting to the particular Persons therein named Members of the Township of Colchester and their Successors for ever, the said Tract of these Trust Lands so adjudged to the Indians lying between Norwich and Haddam, Lyme, Lebanon & Metabasset.

4. That the Governour and Company having by their Petition of Appeal to Her late Majesty Queen Anne obtain'd Her Majesty's Order for a Commission of Review, whereby the Execution of that Judgment was stayed; They (as it should seem) thinking themselves entirely at Liberty and under no Obligation to sue out such a Commission, and to prosecute the same to effect have made an unbecoming Use of Her Majesty's Indulgence, by Proceeding by their Acts of the Corporation, entirely to dispossess the Tribe of their Sequesterd Lands also.

5. That notwithstanding the pretended Interposi-

tion of the Governour and Company and the Suggestion that they obtain'd from the Town of New London a Surrender of the Indian Grant to Peter Mason in the year 1705 of all the Sequester'd Lands (which likewise appears to have been surreptitiously obtain'd in despite of the Trust aforesaid and consequently of no validity) yet nevertheless that such Surrender was in fact obtained, is altogether without Proof, as is also the Quantity and Quality of that part of this Tract, which the Governor and Company estimate at between four and five Thousand Acres and say they did by Act of the General Court of the 11<sup>th</sup> May 1721 effectually and for ever secure to the Use of the Moheagan Indians.

6. That it having been alledged by the Indian's Answer to the Government's Defense, that out of that small Parcell (which the Government say they have so effectually and for ever secured to these Indians) sundry Pieces intersperced amounting to above a Thousand Acres, are Pursuant to the Doings of their Committee by the aforesaid Act of the General Court confirmed to the English; And the same not being denied by the Governor and Company, might be taken for Truth, but for the Order of the Commissioners at this Court, touching Proofs in this Cause (u).

7 That the appointment and Establishment of Captain John Mason Guardian and Trustee of this Tribe of Indians and their Affairs by the Commissioners in 1705 having been ratified by Major Ben Uncas their Sachem in 1723, and his Council, and such Ratification having been laid before the General Court of the Colony, they by their Act of October in the same year (w) at the Request of the said

Mason and these Indians, and for other Considerations therein mention'd, did impower said Mason to reside at Moheagan, i. e., upon the Sequester'd Lands, and give him Leave to improve any part thereof in building, ploughing & pasturing; & (int. al) recommended to him the Care of the Indians to protect them from wrongs; and said Mason entered thereon accordingly, and afterwards the said Sachem by Deed Poll dated 21 October 1724 executed by him with the Advice of his Council and consent of his People (which according to their Constitution may be thought equivalent to an Act of the General Court of the Corporation) These Indians thereby signify their Approbation of such the Commissioners' Order in 1705, and declare that the like Power and Trust should be invested in the Male Heirs of said Mason's Family, But notwithstanding these Acts of the Corporation and Tribe, the Committee appears to have taken upon them to supersede both, for whatever this Pittance of the sequester'd Lands is which the Government say in their Defence (x) "they effectually and for ever "secured to these Indians (by their Act in 1721) It "appears that the same (or almost the whole there of) "has been lately leased out by the Corporation's Committee (in Conjunction with their Sachem Ben Uncas) to some of the English Inhabitants of the Colony for Twenty years, at the yearly Rent of 60<sup>l</sup>, reserved, payable only to the present Ben Uncas.

Art: 17<sup>th</sup>. That the Conduct of the Governour & Company towards this Tribe of Indians in their several Transactions and Dealings concerning these remaining reserved Trust Lands from the Treaty 81. to this Time have been utterly incompatible with those large professions of Justice, Honour and Kindness,

---

(x) pa.

of which We heard so much during the Course of the Proceedings before Us.

Art 18<sup>th</sup>: That the said Judgment of Joseph Dudley Esq<sup>r</sup> and others Commissioners in 1705 in every part thereof, ought to have been affirmed by the Decree of this Court, and the Possession of the Lands in Controversy adjudg'd to the said Indians and the Masons their Guardians, upon the Trust and to the Uses and Purposes of the respective Indian Instruments, establishing, ratifying and confirming the same, with the following Exceptions.

1. Excepting as to that Tract of planting Ground called Massapeag lying within the Township of New London, touching which the Claim of the Indians, has been waved by their Council and Guardians before the present Commissioners.

2 Excepting also as to such Parts of the Lands now in Controversie as have been bonâ fide sold by the said Indians and the Masons their Guardians in a manner conformable to the Trust, Deeds of Sale whereof have been produced before Us by the Defendants Tennants thereof, or in some Instances by the Government on their behalf, and which have been admitted by the said Guardians to have been executed with Consent of their Ancestors, on whom the Trust from Time to Time devolved, and as to them when the Quantity of Land contain'd within the respective Boundaries of such Deeds are sufficiently known and ascertain'd, the same ought to be adjudged to the respective Purchasers, or to those claiming by, from or under them, according to the Tenour of their respective Deeds, and touching these the said Judgment ought to be declared null and void.

And Lastly I am of opinion that the Trust and Guardianship over the Indians Lands in Controversy

ought to have been confirmed and established in the  
Masons, on whom the same is devolved.

COLONY OF MASSACHUSETTS BAY TO JONATHAN LAW.

Province of the Mass<sup>a</sup> Bay BOSTON June 5, 1744.

Sir,

This Court being apprehensive that nothing will  
more contribute to the Success of the War in these

parts, than that the several Northern Governments in America should enter into an Agreement with one another for their mutual Assistance & for carrying on the War in the most effectual Manner.

We have accordingly chosen & appointed five Commissioners to meet at Albany the twelfth of this Month (where the Gov<sup>r</sup> of New York has appointed to meet with the Six Nations) to treat with Commissioners from the other Governments in New England, & agree on such Measures as may be thought equal & necessary for their mutual Safety & Defence, & for annoying their Enemies, such Agreement<sup>s</sup> to be binding on the respective Governm<sup>ts</sup>.

We therefore desire your Honour that Commissioners may be appointed by your Government, with the same full Power to transact these important Affairs at the time & place aforesaid. We pray your Excuse for not giving you longer Notice of this business; the Meeting of the six Nations of Indians at Albany on the day above mentioned, gives us such an Opportunity of strengthening our Interest, which ought not to be lost, & we are but just now apprized of it.

His Majesty's Declaration of War against the French King was read here Monday last with the usual Formalities, which obliges Me now forthwith to

send out Our Colony Sloop for the Security of the Coast, and thereupon the General Assembly pass'd a Vote at their Sessions in last Month, desiring Me to write to Your Honour requesting That Your Colony Sloop may be fitted out, and ordered to join with Ours in their cruising upon this Coast.

The Course that is intended for Our Sloop will be from Long Island to Marthas Vineyard, and so Backwards & Forwards to guard both Sounds, And I do assure Your Honour, That We shall always be ready here, to lend Your Government what Assistance, is in our Power upon any Invasion or Attack, that shall be made upon You. For though the Governments are Distinct, Yet our Common Interest is Inseperable, And Your Sloop being joined with Ours will be a Terror, to any Small Privateer, and thereby a greater Safeguard to both Our Governments, I should be glad to have Your Honour's Sentiments in this Affair, Being with great Respect,

NEW LONDON'S ADDRESS TO THE KING.

The Humble Representation and Petition of the Inhabitants of the Town of New London in the Colony of Connecticut in New England, To the Kings Most Excellent Majesty.

May it please your Majesty, Wee your very Du-

tifull and Obedient Subjects, being fully Sencible that your Majesties Royal Ear is ever Open, and ready to hear, and Your Paternal Care & Goodness ever ready to Diffuse it Self, even to your Most remote Subjects, Beg Leave with the Greatest Submission to represent the Consequence of this Harbour and Town and its Defenceless State.

Our Harbour is the Principle one in this Colony and perhaps the Best in North America Capable to Receive the whole Navy of Great Brittain being at Least Seven Miles in Length and near One Mile in breadth Six fathom Water bold Shore and Exelent Anchor Ground, all the Navigation Tradeing to this Colony Enter and Clear at your Majesties Custom House in this port and we Shall probably have Twenty thirty or perhaps forty Vessells at a time Laden mostly with Provisions belonging to this and the Neighbouring Governments, waiting for Convoy, and have not any thing to Defend Such Fleet from your Majesties Enemies but a Battery of Seven Guns, (Some of which are very Unfit for Service) and three other Guns at the Harbours Mouth about three Miles distant, and wee have no Reason to Question but an Enemy on Our Coast will Soon Gain Intelligence when Such Numbers of Vessells Shall be here, and we fear, make them a Quick pray, with Such Large Quantitys of provision they will be Enabled to fit out many More privateers, to the Great Anoyance of other your Majesties Good Subjects, and what renders Such Attempt from an Enemy more to be Expected is the Easie Entrance to this Harbour it being very free, and bold, and in three Hours Sail, they may be again with Land on the open Seas.

Our Town has upwards of Three Hundred fighting Men and therein is Your Majesties Custom House

above Mentioned, Every Inhabitant True and Loyall to your Majesty, Butby great Losses Sustained at Sea by the Depredations of the Spanyards &c, are not able of our Selves to put our Harbour and town in a proper posture of Defence, and fear we Shall Soon fall an Easie prey to an Haughty aspireing Enemy, Unless Your Majesty Graciously provide for our defence in this our Weak State.

Wee beg leave to throw our Selves at your Majesties feet, Our most gracious King and Common Father to his Subjects, Beseaching Your Majesty in your Royall Wisdom and Paternall Care to Order Such defence for us as may Inable us in a Manner becomeing Englishmen to Repell the Attempts of Your Majesties Enemies, that Shall be made on us, and Secure all Your Majesties good Subjects Coming into Harbour for protection.

Wee pray the Mighty King of Kings to preserve Your Sacred Majesty from all the Attempts of open and Secret Enemies, to Bless and prosper Your Arms, and Cloath your Enemies with Confusion, that your Majesty may be Long Continued to Reign over us, and then be Received to Reign in Eternal Glory Amen.

## FRENCH INDIAN TO INDIAN COMMISSIONERS.

Comiss<sup>rs</sup> Meeting y<sup>e</sup> 14<sup>th</sup> June 1744

A French Indian named agnaurasa appeared at this Board who Says he is Sent by the Sachims of Caghnawage to Tell the Comiss<sup>rs</sup> that they had Sent here in the Spring to Know what news of peace or war and the messengers were told that here was no news and now a Declaration of war was Sent from Quebeck to Montreal 25 days Since, at which he Says the Caghnawage Sachims are Surpriz<sup>d</sup> as the News from Europe is Generally here Sooner than at Canada and that he was now Sent to Assure the Comiss<sup>rs</sup> that the Sachims of Caghnawage were Inclind to Keep the Covenant and not to meddle with the war but to Live in peace and Keep open the path in assurance of this he was ordered to Give a String of wampam he farther Says that the Sachims are willing to Come Either here or Onondage to Renew the Covenant

The Indian being asked Whither the other Indians Subject to the french are not Included in the Treaty and Wherefore they did not Send here as well as the Sachems of his nation

Whereto he answers that he was only Sent to Know the opinion of the English and if they were Inclind to peace that then the other Indians are all Inclind to Come to a place that Should be appointed by the English to renew the Treaty and that in the mean Time no acts of Hostility Shall be Committed on their Side

He Says the Governour of Canada Told them at the Time he proclaimed war that he was Inclind to Live In peace in this Country and that he would not Commit Acts of hostility against the English unless the English began first

The Indian being asked whither he meant this neutrality between this province or all his majestys Subjects on the Continent To which he answers that they meant All the Subjects of the King of Great Brittain upon this Continent Boston Pennsylvania and all the other Governments

The Indian being asked whither they meant the neutrality in Such a maner that in Case the English Should Attack the french in Canada that they Should then Joyn the french against the English or not To which he answered that the french Indians were Determin<sup>d</sup> not to Inter meddle in the war at all and that they would not assist the french if they Should be Attacked by the English

CONFERENCE WITH THE SIX NATIONS OF INDIANS\*

Att a meeting of the Commissioners from the Colony of Connecticut and the

Att Albany June Anno: Dom: 1744.

Present

The Hon<sup>ble</sup> Roger Wolcott Esq<sup>r</sup> } Com<sup>rs</sup>  
 Nathaniel Stanly Esq<sup>r</sup> }

The following propositions were made by the Commisioners

first We are Verry Glad to meet you our old Friends and Allies at this Time & place and that we have now an oppertunity to Inform you that the Governour & People of the Colony of Connecticut Subjects to the Great King of England rejoyce and are Verry Glad that the antient League & friendship Between

---

\* This and the three undated documents next following are probably of June 18, 19, or 20.

that English Colony the Rest of his majestys Subjects and you (Which League Began When the English first Came to that Colony and has Been Renewed Several Times Since) Has hitherto been Kept firm & Inviolable

We are Verry Sencible that in the Time of the former War the French Tryed All ways to make you Break your Peace with us but you Resisted all their Temptations and Kept Steady to your Peace with us for which faithfullness in you the Governour & People of Connecticutt return you their Hearty thanks

The Governour & People of Connecticutt Ordered us farther to Tell you that the Great King of England is Like a Tree Verry firm and Strong under the Shadow of whose Spreading Branches the Other Kings in Europe Come to Shelter themselves from the Storms that are Rais<sup>d</sup> against them by the french King

That about four years ago the French King made war upon the Queen of Hungary and Sent his armies Into her Country, who Kill<sup>d</sup> a multitude of her Subjects & Destroy<sup>d</sup> her Citys & Towns And Drove her out of a Great part of her Country in which Extremity the Queen of Hungary flew to the King of England for help

That the Great King of England (who always helps his friends & allies in adversity) took her under his protection and the Last year Lead his Armies into her Country, where in Several Battells he beat the french armies Kill<sup>d</sup> many thousand of their men in the field of Battle Drove them Quite out of the Country and restor<sup>d</sup> all to the Queen of Hungary again

That upon this the french King proclaim<sup>d</sup> war against the King of England and his majesty hath proclaim<sup>d</sup> war against the french

We make no Doubt but that the french who are always Contriving mischief against all People but themselves will Excite you to Break your peace with the English & Joyn with them which if you Should Do and prevail against the English you Can Expect to fare no better in the End than the Queen of Hungary would have done if She had not been protected by the English

But we have no need to fear the french you Know that the English in these parts are to the french in Canada Especially we Shall have no Reason to fear them if you & your men who are Great Soldiers Keep true to your Covenants and friendship with us

We are therefore Come to renew & Strengthen the antient Covenant Chain which has So Long bound the nations together and we hope will Endure till the Sun and moon Shall be no more

And we propose

COMMISSIONERS FROM MASSACHUSETTS AND CONNECTICUT TO THE SIX NATIONS.

Brethren of the Six nations

It was by Accident that Gov<sup>r</sup> Shirley and the Great Council of the Massachusetts bay and Gov<sup>r</sup> Law and the Great Council of Connecticut heard of the Intended Interview to be had at this place (the usual place of meeting) and at this Time and altho they had Short notice yet they readily and Chearfully agreed to Send us hither to Visit you We are Glad to See Such a number of you Safe ariv<sup>d</sup> here after the fatiegue of a Long Journey we present you with these Strings of wampam to pave the way to a free and open Conference Together

We are Commanded in the first place to Remind you of the Long and uninterrupted Friendship that has Subsisted (not only between his majestys Subjects in Gen<sup>l</sup> but) in particular between the Governments we represent and you the Six nations which Friendship has been often repeated and renewed in the most Solemn manner and the Covenant Strictly Observed on our part and we Readily with pleasure Acknowledge that it has in General been Observed by you on your part

We are Especially Directed to Brighten the Chain of Friendship and to Revive that antient amity and the Same to perpetuate

A Belt

His Excellency the Hon<sup>ble</sup> George Clinton Esq<sup>r</sup> Gov<sup>r</sup> of New York has already acquainted you that war has been declared between Great Brittain and the french and that there is a Necessity of your being united with these Governments against our Common

Enemy The french our Neighbours thô few in Number Compar<sup>d</sup> with the English in the Several Governments and their Neighbouring friends yet are a Restless and uneasy People and Delight in afflicting all about them and are almost Continually at war with Some Nation or Other

And it Imports us to unite and by our Joynt forces to Oblige them to a more peaceable behaviour of themselves In former times the weight of the war has fallen more heavily upon one part and Sometimes on another and our unhappiness has been that we have Acted too Independantly on Each Other we are all in one Interest and Should we Closely unite and Vigorously Pursue proper methods, we might Soon Render Our Selves formidable to our Common Enemy Our Union is Our Strength— We are ready on the behalf of the Governments we Respectively Represent to Joyn With the neighbouring Governments and with the Six nations in promoting our mutual Safety and Defence and for the anoyance of those who are in heart Enemies to us all this being for your advantage as well as ours and an acting up to your Covenant Engagement we Cannot Doubt of your Chearfull and Ready Concurrence

To His Excellency the Hon<sup>le</sup> George Clinton Esq<sup>r</sup> Governour of New York To the Hon<sup>ble</sup> Rog<sup>er</sup> Wollcott and Nathaniel Stanly Esquires Commissioners for the Colony of Connecticut Convened here to Confer with the Several Tribes of Indians and In Concert with us the Commissioners of the Province of the Massachusetts Bay To Consult and agree on proper measures for the Mutual Defence of his Majestys Subjects of the Provinces and Colonys we Represent In the Present War against the French and Such as are or may be their Abettors and Adherants and for Annoying the Common Enemy In Such manner as may be thought most proper.

Whereas the Conference with the Said Indian Tribes which has Hitherto taken up our time is now in a manner over, we the Said Commissioners for the province of the Massachusetts Bay In the name of our Government do further propose to Your Excellency and Honours that it be now agreed.

First That in Case an Invasion Should be made by Sea or land on Either of the Said Governments by the French or Indians In the present War, the other Two Shall Hold themselves obliged to Send Succours to their Relief In Such number and manner

as may be Reasonable and Necessary and as we Shall now agree on.

2<sup>dly</sup> That a Proportion of men (to be armed Sub-  
sisted and paid by the Governments that Send them  
Réspectively) be agreed on to Scout and Scour the  
Woods In Case of an Indian War.

3<sup>dly</sup> To agree on a Suitable number and propor-  
tion of good Cruising Vessells well armed and man'd  
by the Governments Respectively to Guard our Sea  
Coasts.

4<sup>th</sup> To agree upon the most proper methods for  
our Mutual Information and notice of any approach-  
ing Danger by Sea or Land.

5<sup>th</sup> To Consult about and agree to the most Ef-  
fectual Measures of Annoying the Indian Enemy In  
Case they make war upon us.

6<sup>th</sup> To Stipulate that no peace be made with the  
Said Indians or any Tribe of them Warring with  
these or Either of these Governments without the  
Privity and Consent of the Whole.

7<sup>th</sup> To Consider the Necessity or Expediency of  
Carrying the French war into their own Settlements  
and to agree on the proportion of men Each Govern-  
ment Shall find In Case of Such an Attempt.

8<sup>th</sup> To agree on What Incouragement Shall be  
Given the Indian or English Soldiers we may Send  
out against y<sup>e</sup> Enemy

9<sup>th</sup> To Consider whether it may not be proper  
in Some Suitable manner to Desire the Governour of  
Canada to forbear the former Practice of Sending  
Scouts of French or Indians In Small Partyes on our  
Frontiers to knock our Women and Children in the  
head and propose that he Carry on the Warr In a  
manner more agreeable to the Usuage of Civilized  
Nations and to Lett him know that unless he Con-

forms hereto he will Necessitate us to take the Same methods with his People.

\* The laws and other public prints were usually sent by the printer to the sheriff of each county to be by him distributed within his county; a certain number of copies, as in this instance, being designated for each town and parish, the courts and certain individuals also being favored with copies. What the proclamation here mentioned contained is not known; doubtless it had reference to the troubles with the French and Indians, and it may have been the agreement of June 20 with Massachusetts and New York for mutual defense.

AFFIDAVITS ABOUT FRENCH SHIPS.†

New York ss

The Examinations of Richard Harris, Jacques Monreau, and Jacques Jannette Taken before his Majesties Council for the Province of New York the 31<sup>st</sup> day of August 1744.

Richard Harris Master of the Privateer Sloop Elizabeth Thomas Barns Commander Says. That on or about the 8<sup>th</sup> Instant they took the Ship LeBon now brought into this Port in Lattitude 46 about 25 Leagues to the Eastward of Cape Breton two days before which in much about the same Lattitude they saw three large Ships under French Coulours which they took to be French Men of Warr and Judged them to be one of 70 Guns one of 60 Guns and y<sup>e</sup> other of

\* Hon. James Brudenell, younger brother of George, third Earl of Cardigan, was appointed a member of the Board in May or June, 1730. Martin Bladen and Richard Plumer were appointed in 1735. Sir Benjamin Keene, a diplomatist who held many official positions, was a member from Feb., 1742, to Dec., 1744. *Dictionary of National Biography; Collins's Peerage of England; Talcott Papers (Collections, IV, V)*.

† Inclosed with Gov. William Greene's letter of Sept. 21, 1744.

40 Guns That before that They saw at three Several Times a French 50 Gun Ship Cruizing of and on Cape Breton, and a Reason he has to believe that Ship was a French 50 Gun Ship is that they took a small fishing Sloop the people of which informed them thereof And that She came out of Louisburgh and also informed them that there were then four Ships of 20 Guns each at Louisburgh.

Jacques Monreau Master of the Ship LeBon bound from Rochell to Louisburgh but taken the 8<sup>th</sup> Instant by the Privateer Sloop Elizabeth, Saith, That he with Several other Merchant Men parted from Rochell the 18 of June N. S. under convoy of three Men of Warr Viz<sup>t</sup> L'Ardent of 70 Guns and 600 Men bound for Louisburgh, La Gironde of 44 Guns between five or Six hundred Men bound to Quebec being to leave some of those Men at Quebeck for a 70 Gun Ship built or building there and another Ship whose Name he has forgot of 26 Guns bound to the French Islands. Besides which there were the Brilliant a fine Company Ship of 56 Guns and about 500 Men and another Company Ship, La Fleur of 26 Guns and 400 Men that the Companys port or place of Loading is L'Orient Between Brest and Rochell from whence they came to Rochell for Convoy, That there were 21 Merchant Men came out under that convoy some of which carried from 18 to 24 Guns and three of them only of 2 Guns. That those of 20 or 24 Guns carried 70 or 80 Men That nine of the Merchant Ships were bound for the Isles and twelve for Cape Breton and Quebec That the Gironde and Merchant Men bound to Quebec carried Men and Ammunition &c<sup>a</sup> for the Ship Building there, That the Men of Warr convoyed them about two hundred Leagues from the Coasts of France and then made the best of their Way.

Jaques Janette Mariner on board the Ship LeBon saith that he left Rochell the 18<sup>th</sup> June under Convoy of 3 Men of Warr and 2 Company Ships fitted out by the King, three of which were bound for these parts and two for the French Islands. The Ships were L'Ardent of 70 Guns & 600 Men having Flour Salt Gun powder & Balls on Board & bound for Cape Breton—The Brilliant of fifty Six Guns & 550 Men bound to the same place & was a Company Ship but taken up by the King armed only for Warr & was to be Convoy to the East India Ships which were to come to Louisburgh for that purpose which they Expected to find there—La Gironde of 46 Guns 170 Men bound for the French Islands & parted about 300 Leagues from France with 9 Merchant Men bound for those parts with Merchandise provisions &c.—La Fleur 26 Guns 370 Men a Company Ship in the King's Service & was to be Companion to the Brilliant to Convoy Home the East India Men.

L'Elephant of 26 Guns & 470 Men bound to the French Islands, There were also 12 other Merchant Ships bound to Louisburgh & Quebec. Those to Louisburgh were loaden with Flour Bread Stuffs Brandy Salt, Wine Oyl powder Ball &c And those to Quebec had some Warlike Stores for the King And the same Goods Except Bread & Flour of which there is Enough at Quebec—Says he has been twice at Quebec, that the Common Time of Arriving there is the beginning of August, the Time of departing by the King's Ordinance must be by the 18<sup>th</sup> of November. That 18 of the Merchant Men that Came out with him had from 20 to 26 Guns & 80 Men those bound to Quebec were the Strongest because they Carry a valuable Cargo and 3 or 4 had very few Cannon his Ship having only 2 & no powder. That a 70 Gun

Ship has been for some Time built at Quebec The Captain for which went passenger in the L'Ardent & was to Go to Quebec to fetch her & meet y<sup>e</sup> L'Ardent at Louisburgh. The Men for which new Ship went passengers in the Merchant Men Who also Carried the Guns & other things for her.

There are just arrived in this Place three Flags of Truce from Louisbourg with a great Number of English Prisoners, Officers & others; By whom I have certain Intelligence that two Privateers (a Brigantine & a small Ship) were already come out from thence to cruize upon these Coasts, and that another Brigantine Privateer was ready to sail from thence upon the same design: I have thereupon ordered the two Guard Vessels belonging to this Province now in Port to sail forthwith in quest of these Vessels. This Advice I send to your Honour, presuming that you will order out your Guard Vessel for the Protection of the Navigation belonging to his Majesty's Subjects.

That afterwards your Petitioners the S<sup>d</sup> John Richards and the S<sup>d</sup> Richard Douglass Obtained of the S<sup>d</sup> Thomas Leechmere Esq<sup>r</sup> a Redelivery to them of the Said bond thus Defaced broken and Obliterated in the Manner and for the Cause Afores<sup>d</sup> —

That Some time since the Said Richard Douglass Died Leaving the Said Margrett And the Said William Douglass his Executors of his Last Will who together with the S<sup>d</sup> John Richards Your Other Petition<sup>r</sup> have Endeavoured to Obtaine the Money on said Bond, given by the said Wait Winthrop Esq<sup>r</sup> w<sup>ch</sup> Money in Equity and Good Conscience is due to, and belongs to your Petitioners, the Said Town of New London Having been Answered for the Same as Afores<sup>d</sup> And have Since declared that they are paid to their Satisfisfaction And that the whole which is due on S<sup>d</sup> bond Ought to be by your Petitioners Rec<sup>d</sup> therefor —

But now so it is may it Please your Hon<sup>rs</sup> that the Said John Winthrop Esq<sup>r</sup> Altho in his Afores<sup>d</sup> Petition and Complaint to his Majestie in Council Acknowledged & Confessed the Said Bond Given the Town of New London and Declared that he had duely discharged all the Interest thereon, Yet being minded your Petitioners in that behalfe to wrong, and defraud Refuseth And utterly denyeth to pay and discharge the Said bond, or the money Justly due thereon, taking the Advantage of those transactions afores<sup>d</sup>, Against which he Complained and from which he hath been Releived &<sup>c</sup> —

Which Petition was Continued to the Sessions of S<sup>d</sup> Assembly in May 1741, when it was carryed on to a hearing, and After s<sup>d</sup> hearing the Same was Continued to the Sessions of s<sup>d</sup> Assembly in October 1741, when the S<sup>d</sup> Assembly without any further hear<sup>e</sup> upon the merritts of the Cause, thereupon Decreed that the S<sup>d</sup> Petitioners Should recover against the S<sup>d</sup> John Winthrop Esq<sup>r</sup> the Sum of £562 10 Lawfull money of New England for the Principal Debt with the Lawfull Interest thereof mentioned in S<sup>d</sup> Petition and Condemned the S<sup>d</sup> John Winthrop in Cost the Sum of £13 13 4 upon which decree Sundry Executions have been taken out And put into the hands of George Richards Esq<sup>r</sup> of New London Sheriff of New London County Brother to the S<sup>d</sup> John Richards who took upon him to Construe S<sup>d</sup> Decree and thereby demand the Numerical Contents thereof in Lawfull money of this Colony as it was Stated and fixed the May Sessions Next after S<sup>d</sup> Decree was Given which Decree, your Honours Petitioner verily believes would not have Passed had all the matters relating to that Affair been thoroughly represented which were not by reason the principall Attorney who had been knowing to the Case from the beginning was Unexpectedly Absent, Wherefore your Petitioner beggs leave further to represent the Case as it truely is and Observe thereon as follows (vizt) that at the same time wherein the S<sup>d</sup> John Winthrop Esq<sup>rs</sup> Letters of Administration were called in And Administration granted to M<sup>r</sup> Leechmer, the S<sup>d</sup> John Winthrop Esq<sup>r</sup> Manifested his Dislike then, and Publikely desired an Appeal to the King in Councill, And did in like manner when the S<sup>d</sup> General Assembly Granted Liberty to S<sup>d</sup> Leechm<sup>r</sup> to Sell Lands to pay of S<sup>d</sup> Bond; and was Actually gone home to England to prosecute

a Complaint to his Majestie against the proceedings of the S<sup>d</sup> Superiour Court and General Assembly for the taking away his S<sup>d</sup> Power of Adminstration, and Giving power to M<sup>r</sup> Leechmere as Afores<sup>d</sup>; when S<sup>d</sup> Richards and Douglass made their agreement and Bargain about s<sup>d</sup> land and bond, & this the S<sup>d</sup> Richards And Douglass knew at the time of their s<sup>d</sup> Contract, as also did M<sup>r</sup> Leechmere, And Accordingly S<sup>d</sup> land was putt off at Less than half the Value thereof, the Same lying w<sup>th</sup>in a mile and three quarters of the Town Platt of New London, butting on the Salt Water, and was then Worth £4 10/0<sup>p</sup> acre and was sold for abo<sup>t</sup> 40/p<sup>r</sup> Acre and that because it was then doubtfull how the Affair would be determined in England upon M<sup>r</sup> Winthrops Complaint; and had M<sup>r</sup> Winthrop faild in his Suit before the King in Councill the S<sup>d</sup> Richards and Douglass would have gained much in their Contract w<sup>th</sup> M<sup>r</sup> Leechmere And the Town of New London more than men commonly do in their Honest bargains that depend on no uncommon future Contingencies—Therefore Since M<sup>r</sup> Winthrop Obtained in his S<sup>d</sup> Suit, and got the Authority of S<sup>d</sup> Leechmere revoaked, and the Land restored to him it is right in Equity that the S<sup>d</sup> Richards and Douglass or their Representatives Should bear the loss—And your Hon<sup>rs</sup> Petitioner beggs leave further to Observe, that According to the Petition above refer'd too, y<sup>e</sup> Defaced bond by the S<sup>d</sup> Jn<sup>o</sup> Richards and Richard Douglass purchased, and Given up to M<sup>r</sup> Leechmere, and According to which the then Petitioners prayed for a Decree, is Six hundred pounds Lawfull money, Conditioned for Seven hundred and fifty ounces of Silver Money in Leiu of Which in S<sup>d</sup> Petition it is Said that the S<sup>d</sup> Richards and Douglass Gave their Bond to the town of New London for Six hundred pounds paper Currency only

which bond to The Town your Petitioner Says has never been paid, neither in whole nor in part and has Suffered the Same fate by Sinking in Value as all other bonds in this Colony have. And the S<sup>d</sup> Richards and y<sup>e</sup> Executors of the S<sup>d</sup> Richard Douglass are Obliged thereby to pay no more besides the Interest at £6 7 Cent 7 Annum than Six hundred pounds Old Currency As by the Records of a Judgment, given at the County Court at New London in June last, on an Action bro<sup>t</sup> by Joshua Hemstead &<sup>c</sup> against s<sup>d</sup> Douglass's Execut<sup>rs</sup> (s<sup>d</sup> Richards, & Douglass's bonds being given in seperatly, to s<sup>d</sup> Hemstead &<sup>c</sup> for Three Hundred Pounds each) it appears in full & solemn debate in Chancery thereof, Three hundred & thirteen Pounds, five Shillings, old Currency only, being given for Debt & Interest —

So that they would Oblige M<sup>r</sup> Winthrop to pay more to them than they are Obliged to pay to the S<sup>d</sup> Town which Instead of Equity would be Iniquity, and Would Contradict that Inviolable Maxim that he that would have Equity must first do Equity, and Further your Petitioner would observe that the S<sup>d</sup> Superiour Court and Gener<sup>l</sup> Assembly in Reversing M<sup>r</sup> Winthrops Power of Administration and Granting the Same to M<sup>r</sup> Leechmer, as also the Power to Sell Land, did what was Supposed then to be Law, Amongst us, and wheither it would be taken for Law at home or no, was what in that Particular Instance, y<sup>e</sup> Said Richards & Douglass ought to have taken notice of at their Peril, and this Colony in their Assembly are no ways Obliged to Engage any farther in the Affair; then to do Equity between the parties as they are concerned, and that by the rules that Obtaine in Courts of Equity, and if so your Petitioner is Perswaded that the S<sup>d</sup> Richards and the Executors

of S<sup>d</sup> Richard Douglass Deceas'd will have no Decree that will finally turn out In their favour, for the bond is Cancelled, and in it Self can be no Evidence of a Duty but on the Contrary is an Evidence of a Discharge of a Duty, both in law and Equity, & that of So high a Nature that no Evidence can obtaine against it and to make that an Evidence of a Duty Subsisting between two parties, and Decree thereupon, when it is a Compleat Evidence to the Contrary can never be consistent w<sup>th</sup> a Court of Equity—And that the Acts of Assembly, & the knowledge of Assembly and all that the Assembly has done to Impower M<sup>r</sup> Leechmere would make no privity between M<sup>r</sup> Winthrop and the S<sup>d</sup> Richards and Douglass, nor could the S<sup>d</sup> Leechmers Transactions upon his Supposed power, Create any, by the Revokation of S<sup>d</sup> power, and therefore where there is no privity in Law nor fact, no Authority can Create a duty by a Decree. And if a man will pay of anothers Bond Given to a third Person upon the prospect of Great Gaine to be made out of the Obligors Estate, upon a Certain Undertaking of a fourth person, if the fourth person fails, in the Undertaking, and the Gaine be Missed of, the Obligor is not Obliged by Law nor Equity to pay him; that pays his Bond; for it was paid upon a Consideration of the prospect of gaine, out off the Obligors Estate. And as to the Ninety pounds paid M<sup>r</sup> Leechmere for his trouble in Administring Cannot in Equity be a charge Upon M<sup>r</sup> Winthrops Estate, it being no profit thereunto; nor Was he by M<sup>r</sup> Winthrop Employed therein, but on the Contrary was prohibited from acting therein, as far as M<sup>r</sup> Winthrops power Avail'd, And all was done when M<sup>r</sup> Winthrop was prosecuting his Complaint, Wherefore Your Hon<sup>rs</sup> Petitioner begg leave Once more to Observe that the S<sup>d</sup> Canselled bond

was given att the request of the Town of New London, who always Accepted of Eighteen pounds ꝑ C<sup>t</sup> ꝑ annum paper Currency for the Interest, and your petitioner verily believes would have done it to this time had the bond remained and would have taken up with three hundred pounds paper Currency for the principall at the time the S<sup>d</sup> Richards and Douglass made their S<sup>d</sup> Contract, The Town being Conscious there was no reason why that Money Should not fare as all other our Currency did, and the Said Richards and Douglass, being regardless, how much they Gave their bond for, Since the larger they were, the more land they were to receive at half price— Wherefore they Voluntarily gave their bonds for Six Hundred pounds, which your Hon<sup>rs</sup> Petitioner is Humbly of Opinion ought to be no rule in Chancery, Notwithstand<sup>s</sup> your Hon<sup>rs</sup> Petitioner is Willing to pay the Numerical Sum of the S<sup>d</sup> Judgment in Bills of Credit of this Colony, which was Established by Law to answer all Obligations, in which no Specialty was mentioned as was the Case of that bond, rather than be put to further Trouble in Such a perplexing affair, Althô he verily believes S<sup>d</sup> Richards and Douglass Ought not to have one penny, Saving the regard he pays to the Decree of this Honourable Assembly, which he believes to be Obtained by surprise Wherefore your Hon<sup>rs</sup> Petitioner prays this Honb<sup>l</sup>e Assembly to reverse and Set aside S<sup>d</sup> decree of Said Assembly, made in October 1741—and release M<sup>r</sup> Winthrop from any obligations thereby, or decree & order that Five hundred Sixty Two Pounds ten Shillings Debt, and £13 13 4 Cost (as in s<sup>d</sup> Decree) of Bills of Credit, of this Colony (of y<sup>e</sup> old Tenor) be Accepted off in full of s<sup>d</sup> decree

and Your Honours Petitioner as in Duty bound shall ever Pray &c

S<sup>r</sup>

I rec<sup>d</sup> yours of y<sup>e</sup> 30<sup>th</sup> of March last and observe the Contents, and hope ere this time you may have rec<sup>d</sup> y<sup>r</sup> Ballance of our Acc<sup>ts</sup> in y<sup>e</sup> hands of M<sup>r</sup> Wilks's Ex<sup>rs</sup>

By w<sup>t</sup> you write concerning Clarks Affairs I am ready to conjecture That his Petition is granted, of which I never have had any Information, but if it be so, doubt not of your Care to make the strongest Stand against it. w<sup>n</sup> y<sup>e</sup> Parties are cited I presume I shall hear of it

I now give order to send your Salleries for y<sup>e</sup> two years last past which amount to 500<sup>l</sup> old Currency to the Gentlemen you direct me

I have not as yet rec<sup>d</sup> any thing from D<sup>r</sup> Avery Methodists is a name w<sup>ch</sup> (I think) is now disclaimd among us being found to be used in Scripture only in an ill Sense and the Term New light supplies its place

The ministers of that way of thinking being over

\* The Assembly affirmed this petition and resolved "that the said decree of the General Assembly in October, 1741, may be answered and satisfied by the payment of the sum of five hundred sixty-two pounds ten shillings in bills of credit on this Colony, and the sum of thirteen pounds thirteen shillings and four pence in like bills for cost." By the act of May, 1742, the value of silver was established at six shillings and eight pence per ounce troy weight; a substantial reduction from the value of sixteen shillings per ounce current at the time of signing the bond whose payment was under consideration. *Colonial Records, VIII, IX.*

runn w<sup>th</sup> the Exhorters they had sett up, use their uttmost Endeavours to putt them down again and are therefore better reconcild to that part of our law. The Moravians that come among us are found to be Nonjurors and have refusd the Oathes. M<sup>r</sup> Whitfield is returnd again into y<sup>e</sup> Countrey whether he will revive the Commotions which he before raisd among us time will show. I hear the Ministers att Boston have agreed not to admitt him into y<sup>r</sup> Pulpitts on y<sup>e</sup> Sabbath. I would hope he will not pursue the end he proposd when here before (i e) to oust the most of y<sup>e</sup> Ministers in the Countrey and fill their Pulpitts with Scotch and Irish, of w<sup>ch</sup> I am credibly informd he told M<sup>r</sup> Edwards of North Hampton

I herewith send you a Copy of y<sup>e</sup> Com<sup>rs</sup> proceedings in Masons Case and M<sup>r</sup> Smiths Pleas before them

It would seem strange if after an Enquiry on the Spott by two Setts of Com<sup>rs</sup> of (I suppose) his own Nomination and after a fair and full hearing and a Determination in our favour, that on his Appeal, Dudlys Judgement in w<sup>ch</sup> we made no Defence should be affirmd. I think no man in his Witts can believe that Mason would so undoe himself and his Posterity in favour of a few Indians, but that he hoped to find his own Acc<sup>t</sup> in it at the last, what friends he hopes to find at home I know not. but if y<sup>r</sup> should be a Majority like M<sup>r</sup> Horsemenden one of y<sup>e</sup> Com<sup>rs</sup> we should have Reason to fear y<sup>e</sup> Consequence, but firmly believe that cant be. The Case, the law and the Evidence are so sett forth that all will be plain to your Sollicitors when they take y<sup>e</sup> pains to look into them and I need not to add any thing only that you dont starve y<sup>e</sup> Cause and we will be responsible for what

you draw upon us. An Appeal (I suppose) brings the Case as it originally lay, w<sup>ch</sup> if it does it seems to me there will be a fair Opportunity to take the Exception against my Lord Northeys Opinion, on w<sup>ch</sup> the process was founded Viz That because there were no words in the Recital of the powers granted in our Charter exclusive of her Maj<sup>ties</sup> erecting a Court here, her Maj<sup>ty</sup> might lawfully do it, when y<sup>e</sup> very next words in the Charter are exclusive and never putt in to the Recital. of w<sup>ch</sup> M<sup>r</sup> Sharpe gave me his Opinion that y<sup>e</sup> plea I observd upon it was good. althô in this Case the Justice and Honesty of our Cause will appear very plain yet a Precedent of this nature may be very hurtfull to our Priviledges It seems to me That if y<sup>e</sup> Clause in our Charter next following what was recited, had not been exclusive it would have been putt into it, and if it had, my Lords Opinion would have been the Reverse of what was given. Whether Room be left for an Argument of this Nature your Council will consider, but for my own part I should be very sorry if we have 'lost the Advantage of it and exposd our selves to an Enquiry into all that we do by Com<sup>rs</sup> that may be appointed, on the Insinuations of every disaffected Party

Among the Exhibits I have not sent you our Charter because you have it in our law book. neither have I one of M<sup>r</sup> Masons Histories of the Pequott Warrs but shall direct that one may be procured

It is reported That on M<sup>r</sup> Masons Information by M<sup>r</sup> H——n \* that he has learnd from Home That Mason may be sure of his Case on his prosecuting his Appeal he is gone off in hast

The Canada Indians have not Sent their Chiefs to Conclude a peace as was proposed. tho' they have as I hear Rejected the Gov<sup>r</sup> of Canadas motion to go to war ag<sup>st</sup> us. however we ought not to Rely on that. but it behoves us to guard our fronteers by outskouts or Rangers to Cover & Secure our out Settlements which is much less Expence & Safer than building Forts and keeping Garrisons in them as I hear you had in y<sup>e</sup> western Towns, which can be of no use So far Southw<sup>d</sup>. I hope we may live in peace yet we ought to be on y<sup>e</sup> Defensive but I fear that will be neglected as well as to act offensive. I am with Respect Sir

Divers Soldiers belonging to General Philips's Regiment, who were taken from Canso, & returned hither from Louisbourg in the French Flag of Truce,

have deserted from Castle William, where they were quartered 'till his Majesty's Pleasure should be known about them: And the Officers of the said Soldiers have advertised their Desertion in the Print herewith inclosed, & offered a Reward to such Persons as shall apprehend and secure them; And it being probable that they may be got into your Governm<sup>t</sup> & entred on board some Privateer or other Vessel outward bound, I must pray your Honour to give Orders to your Officers to search for them, & if they or any of them may be found to apprehend & secure them. I acknowledge the favour of yours of the 23<sup>d</sup> of last month The bad State of y<sup>e</sup> confederate Army and the Stupidity of the Dutch are melancholly Themes to think upon. the defensive posture of great Britain and the Defenceless State of Philadelphia and Negligence of some other Provinces and the many Emissaries, Moravians and others straggling thro<sup>e</sup> y<sup>e</sup> Countrey look ominous, but what is in y<sup>e</sup> womb of Providence to us is uncertain. we must Watch & Pray

Sir

His Majesty having thought It necessary for the Security of the Collonys, In North America, & particularly of the Province of Nova Scotia, (which has been already invaded by the French, & upon which

there is great Reason to apprehend, that they will early in the Spring, renew their Attempts by the attack of Annapolis Royal,) to employ such a Strength of Ships of Warr, in those Seas, under the Command of Comodore Warren, as may be sufficient to protect the said Province, and the other Neighbouring Colonys, in North America, and the Trade and Fishery of His Maj<sup>s</sup> Subjects, in those Parts, and may also as Occasion shall offer, attack, and Distress the Enemy in their Settlements, and annoy their Fishery, & Commerce. I have his Maj<sup>s</sup> Commands to signify to you, his Pleasure that If M<sup>r</sup> Warren shall apply to you, for assistance, either of Men, Provisions or Shipping, to enable him to proceed either to the Relief, & Succour of Annapolis Royal, or of any other of his Maj<sup>s</sup> Forts or Settlements, or for making any Attempts on the Enemy, You should in all such Cases be aiding, & assisting to him, in the most Effectual Maner and according as upon Consultation together Shall be judged Proper, for carrying on His Maj<sup>s</sup> Service: and you will be ready to concert, and advise with M<sup>r</sup> Warren, upon all Occasions that may arise, which shall have Relation to the Services on which He is employd: and particularly you will procure, and Communicate to him, the best Intelligence you shall be able to obtain, of the State, and Condition of the Enemys Settlements, and of the Ships in their Harbours, that He may be enabled to Judge, whether it may be practicable, and advisable to make an Attempt upon any of their Ports.

## BENJAMIN COLMAN TO JONATHAN LAW.

[*May it Please your Honour*]

My last Letters from London, from D<sup>r</sup> Avery & D<sup>r</sup> Watts, oblige me to do myself ye Honour to write to you, on ye unhappy affair of M<sup>r</sup> Winthrops Debt to ye late Rev<sup>d</sup> & learned D<sup>r</sup> Hunt of London, with whom I sometimes held Correspondence by Letters while he lived, & am ye more bound now to serve ye Sorrowful Widow & her Children wherein I am able.

I am equally bound, it is true, & truly inclined, not to disserve ye worthy & desolate M<sup>rs</sup> Winthrop & her children, who are in my Eye & Heart more than bereaved; and from my Heart I wish 'em all ye just Regards from your Honour & ye Government that can possibly be rendered 'em.

But how hard is ye Case in this crooked World, when between Persons & Families equally hon<sup>d</sup> & beloved by us, we cannot be just to One without bearing hard upon ye other.

Having two Copies of ye Case sent me, I forward one of them to your Honour, tho' I am satisfied you have it already from D<sup>r</sup> Avery.

He writes me, that he hopes your Honour will take kindly from Him, & from ye Committee of ye Dissenters, what he has wrote you in their Name respecting ye Law about Itinerant Preachers: he indeed trembled (he sayes) for your Charter. I hear there were some lately in Prison near Lebanon, glorying in their Sufferings, & preaching daily to those y<sup>t</sup> will come to hear 'em, moving their Compassions. I hope God will graciously direct ye Government in this matter, & preserve you both in State & Church, in Civil and Religious Order, Rights & Priveledges.

I beg ye Favour of your Honour to salute from

me the Hon<sup>ble</sup> L<sup>t</sup> Governour Wolcot, & let him know that ye Pacquet I received from him about (or something more than) a Year agoe got safe to y<sup>e</sup> Hand of your worthy Agent M<sup>r</sup> Palmer, one of my Friends to whom I directed it being dead before it arrived; & he has wrote me that he that have ye Advantage therefrom to know how to act & answer, in Case any thing be moved by M<sup>r</sup> Mason, before he receive his particular Directions or Order from your Government.

Sir, that your Life may be prolonged for ye Service of your Colony in State & Church, & also M<sup>r</sup> Wolcots; & having served your Generation by ye Will of God, your Sleep may be sweet in Jesus, is ye Prayer of Him who under ye Infirmities of Age asks your Prayers for him, & is

D<sup>r</sup> Avery writes me that Governour Belcher is bright gay & high in Spirits, & ye greatest Instance of application to Business that he ever knew at his years; & tho' he had indeed discouraged his coming over, ye Expence being certain & gaining any thing most precarious, yet it did not appear now unlikely but some Compensation for his Losses might be made him; but in what shape or Form he was not able to say.\* Ye King was pleased to remember Him, when he was admitted to kiss his Hand.

## ACT OF THE GENERAL COURT OF MASSACHUSETTS BAY.\*

Province of the }  
 Massachusetts Bay }

The Committee of both Houses upon the Subject of his Excellency's Messages of the 19<sup>th</sup> & 22<sup>d</sup> Instant make the following Report viz<sup>t</sup> —

That they have been attended by two Gentlemen who have lately been Prisoners at Louisburg & by others who have been Traders there & who are well acquainted with the Place from whom the Committee have received information that the Garrison there does not consist of more than five or six hundred regular Troops & that there are not above three or four hundred fighting Men of the Inhabitants, that they have but a small Stock of provisions That they have no Vessels of Force in their Harbour, & that the place is at this Time less capable of being defended against an Attack than its probable, it will ever be hereafter.

The Committee therefore are of Opinion that it is incumbent upon this Government to Embrace this favourable Opportunity to Attempt the reduction therof: And they humbly propose that his Excellency the Captain General be desired to give forth his Proclamation to Encourage the enlistment of three Thousand Voluntiers under such proper Officers as he shall appoint, That each person so enlisting be allowed Twenty five Shillings  $\text{P}$  month & that there be delivered to Each man a Blanket that one month's pay be Advanc'd & that they be entitul'd to all the Plunder.

That Provision be made for the furnishing of necessary Warlike Stores for the Expedition, That four Months Provisions be laid in. That a Committee be

appointed to procure & fit Vessels to serve as Transports to be ready to depart by the beginning of March, & that a suitable Naval Force be provided for their Convoy as this Court shall hereafter Order. WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON January 29. 1744.

*Sir*

This goes by Express to Inform your Honour that Petitions having been preferr'd by a Considerable number of the Inhabitants of this province to the General Court here; representing the present weak state of Louisbourg, and the great Importance of the

Reduction of that place to the Obedience of his majesty; and a General Disposition Appearing in the people to Engage in this Service I recommended the Deliberate Consideration of this affair to the General Assembly, who by their Committee examined a great number of Persons, who have been Traders or prisoners in that place, & have known it both in peace and War, some of whom came from thence in the beginning of this Winter; This Examination, which was had before a large Committee of both Houses has been so very Critical and exact as to take up diverse days in the prosecution of it. The Result of which is a Cheerfull & almost unanimous Resolution of the Court to undertake this Important Business in such manner, as is particularly expressed in the Report of the Committee accepted by the whole Court which I herewith Inclose; and wherein you will find this Affair is undertaken by us in full Confidence and Expectation that all His majestys Governments in north America, who are Concerned in Duty and Interest as well as we, will readily join with us in so laudable a Design for the Honour of his majesty and the safety of the Trade and navigation of all those Colonies & Provinces; and our Expectation herein will appear the more reasonable if it be considered what Pains & Charge this Government have been at alone for the saving his majestys Interest at Annapolis Royall and in the Province of Nova Scotia; I must therefore earnestly desire that all may be done that is possible to engage your Colony to do their full part in Concert with us for the Carrying on this expedition, and that you either joyn us or soon follow us with a sufficient force both for the Land & Sea service; and as the Success of this Affair depends much upon Dispatch, I doubt not but you will use it. I have pro-

posed to the ministry in Great Britain the undertaking of this Design, and earnestly urged it as of great Importance to the Crown and the Safety of His majestys Subjects in all these parts before I had any Thought of the Thing's being Attempted in this Way; and I shall now Write pressingly by the first Conveyances both to the ministry at home & to the Commanders of the Squadrons in the West Indies to send a Naval Force to meet us & Support us in our Design: I have ordered an Embargo of all Vessells whatsoever, and have Seized all the French men among us & have endeavoured to have them kept under such safe Custody as to prevent them from sending any Intelligence: The same measures will be necessary (as I apprehend) in your Government.

I am, Sir,

BOSTON Feb. 4. 1744.

*Sir*

Since the Departure of the Gentlemen, by whom I sent my Dispatches to You referring to the Expedition which We are forming against Cape Breton, I have Advice from Governour Wentworth that the Assembly of New Hampshire have very chearfully determined to join with us, & have Voted to raise two hundred & fifty Land Forces for this Service, and

that he hopes to persuade them to raise a greater Number. I have likewise Letters from the Gentlemen I sent to Rhode Island, informing me that the people there are much spirited to engage in this Business, & that the Assembly will meet in a day or two to consult on the Affair; And that it looks probable that they will furnish their full Quota of Land Forces for this Service, if not more, as also a private Ship of War of Twenty Guns which now lyes in their Harbour. I thought it of Importance that Your Honour should be informed of these Things; not doubting but you will make a proper use thereof for Exciting an Emulation in your People & for encouraging them to do their part to promote his Majesty's Service and the common Interest of these Provinces, which so much depends upon the Success of this Enterprize. We are going on in Our Preparations & now beginning Our Levies: And I think Our people are full of Spirit, & with Dependance on the Blessing of Providence I hope for a prosperous Event.

I was Informed last week by one of my Neighbours that one Hundred and fifty Recruits were ar-

rived at Crown Point, this account he had from the Commissioners of the Indian affairs at Albany, and they had it from two of their Spies which they had sent to Crown Point to gain Intelligence.

a fortnight ago the Scouts from N<sup>o</sup> 4 discovered the tracks of 8 or 10 men on the Ice about a Mile from the mouth of Black River, it appeared that the men avoided the snow when they were able, but when they could not they stepped in the first mans tracks (probably) that their number might not appear, but might be thought only the track of one Hunting man, there was one or two Scaatacooks at the great Meadow, who hearing of the tracks that were discovered, they Immediately retired to their Hunting House up Sextons River, and leaving a Squaw there, they went in quest of those that made the tracks, and since that time are privately drawn off with their families, as some other Indians have done.

this morning I had a letter from N<sup>th</sup>field Informing that a Souldier who run away from Albany about ten days since is come to fort Dummer, who tells the story about the arrival of Recruits at Crown Point, with this variation, that the num of the Recruits is 300, and that the Indians are gathering there. These things look as though the french were forming some design against us, if there should be any attempt made upon us I doubt not of the readiness of the Government of Connect<sup>ot</sup> to give such assistance as shall be needful, but if the Occasion should be Sudden, I shall be to seek who to direct my Letters to, having heard that his Hon<sup>r</sup>, the Deputy Gov<sup>nr</sup>, will be Absent, and have not learn't whither a Committee of War has been Established as formerly. should be glad to be directed, that I might Act rightly upon every Occasion.

It will not only be necessary that due care be taken (upon any Intelligence) to Protect Exposed places, but also if possible to Intercept the Enemy in their approach, or in their retiring.

We have a few Souldiers at fall Town, and Colrain, 18 at Fort Shirley, about five Miles West from there we have Materials for another Block-House which we purpose to Erect within a few days we have likewise agreed to Build another at Hoosuck this Spring. I purpose as soon as the Enlistment for Cape Bretonis over to Detach near Sixty men to Cover the workmen and to maintain Scouts we have alsoe fifty men Posted above the Line of Government between us and Newhams<sup>hr</sup>.

*Sir,*

In Answer to the Motion of your Commissioners to me that I would order some of our Vessels of War to meet your Auxiliaries off of        for their Safeguard, I must acquaint you that I have thought it of so much Importance to prevent any Supplies or Recruits from being brought into Louisbourg by Sea that I have sent out almost all our Naval Force to block up that Harbour, & shall have only one Snow (Capt<sup>n</sup> Rowse) to convoy our own troops. Capt<sup>n</sup> Gayton will go on this Expedition, but it is some-

thing uncertain when his Ship will be ready, & more uncertain when she will be sufficiently manned; and I should think that your Colony Sloop will be a sufficient Convoy for your Troops; But if you judge otherwise I believe there will be no Difficulty in getting the Rhoad Island Colony Sloop to join you, for I understand they design to send her to Cape Breton with a small Number of Land Forces, So that your joining with them may be without going out of the Way; if you can so concert Measures with them: Our Troops & those of New Hampshire will sail by Monday next.

*Sir,*

The present exhausted State of this Province both as to Men and Money by the great Armament we have made for the Reduction of Cape Breton which brings an inconceivably greater Expence to this Province even in proportion to Our Number of Inhabitants and their Estates than to any of our Neighbours engaged in it, and the weak & exposed State of our Western Frontiers, which are a Barrier to the Colony of Connecticut, and the Grounds we have hourly to expect an Enemy to Attack our Settlements on or near Connecticut River, oblige me in behalf of this Government to desire that your Government

would Assist us in the Defence of that Frontier with a suitable Number of Forces to be raised in your Colony; As this is in itself reasonable & what His Majesty may justly expect, So it is what your Government has been wont to do in former Wars, and what the Disposition you have manifested for the Common Interest and Safety of both Governments gives us Reason to hope for from you at a Juncture, which requires this Assistance more than ever, I must therefore earnestly Urge You to send your Auxiliaries into the County of Hampshire under your own Officers to be posted and employed in this Service as I (or such Officer as I may Appoint) shall Direct.

Sir,

I have your favour of the 31<sup>st</sup> of last March, and have inclosed a printed Copy of my Speech to the

Assembly in answer to it, as that perusal of that will inform you of the prospect we have of a sufficient Naval force to support the Expedition; and have to add to it y<sup>t</sup> I am in great hopes Commodore Warren proceeded, upon meeting some of our fleet at sea in their passage to Canso, directly for that place or Cape Breton, having heard nothing of him or his ships since, and it being now the 10<sup>th</sup> day, since the Vessels w<sup>ch</sup> brought in his Express to this port, parted from him in the latitude of 22 upon his passage hither.

I hope the Major General will have a safe and speedy Arrival in Chapeau rouge Bay w<sup>th</sup> the forces under his Command, and y<sup>t</sup> the Event of the Expedition will be such as will effectually promote His Maj<sup>ty's</sup> service, and the Common Interests of both Colonies; and y<sup>t</sup> our united forces and Counsels will succeed in this and every other scheme undertaken for the service of the Common cause, in promoting w<sup>ch</sup> I shall ever esteem my self happy and am

I have Just receivd an Authentick Account From the West Indies of the Arrival of the Chevalier de Cailus at Martinique with Seven Sail of Ships of War, Two of 74 Guns, two of 64, two of 56 and a Frigate of 36 Guns, with upwards of 20 Sail of Transports and 3600 Troops, with an Intent to make an Attack on some of the British Islands there; And as I find the Intelligence of the Expedition now Carrying on ag<sup>t</sup> Cape Breton is generally spread in those Parts, It is very probable that French Commander will not be long without the Account, which I apprehend may divert the thoughts of his Original Intentions, to come to the Defence of that Place; and in Case the English Forces Should be Defeated, It highly behoves all the Governments upon this Continent to consider well what may be the Consequences of such an Event: I have therefore thought it necessary to give You this Information, that You may be upon Your Guard, and in readiness not only to Defend Yourselves, but to assist Your Neighbours with Your utmost Force both by Sea & Land, in Case of Need.

EXTRACT OF A LETTER FROM COL<sup>O</sup> STODDARD.

NORTH HAMPTON Apr<sup>l</sup> 24. 1745.

*Sir,*

I having no prospect of an Opportunity speedily have sent a man to carry my Letters. I have waited several days expecting News from Albany, Cap<sup>t</sup> Shelden returned from thence Yesterday, he brought me no Letters, he tells me that M<sup>r</sup> Lydias purposed this

---

†John Stoddard, born Feb. 7, 1682, was perhaps the most important man in Northampton, Mass., during his lifelong residence in that town. He held many positions of importance, was Colonel, commander-in-chief of the Western Department of Massachusetts, representative, councillor, justice of the common pleas and superior courts, was frequently employed in negotiations with the Indians. He died June 15, 1748.

week to write to me concerning the Difficulties they have about the Six Nations, & the danger of losing them

Cap<sup>t</sup> Shelden tells me that those Nations have not hunted this Spring, neither are they likely to plant, their Chiefs are going to Canada to wait on the Gov<sup>r</sup> & notwithstanding all the Commissioners can say to them there still remains a Suspicion that the English & Dutch had formed a Design to destroy them & besides what the Governour of Canada has said to them, Some English or Dutchman has told them that we had designed their Ruin, but the Commissioners (for some reason) had declined to enquire of them who it was. These people are very numerous, & if they should be drawn to the french Interest they will be worse to Us than all Canada.

It seems to me unsafe for us to lie still & use no Endeavours to free them from their Jealousies, they are so distrustful of the Dutch that it may be difficult for them to pacify those Nations.

I propose to your Excellency whether it would not be worth while to send Cap<sup>t</sup> Martin Kellog of Newington amongst them, he is a man of Good understanding, has formerly been very conversant amongst them, he speaks their Language, & I can't but hope that his going may have a good effect at this Critical Conjuncture.

I wrote to your Honour the eighteenth of March last to move you to send Succours from your Govern-

ment into the County of Hampshire, to which you sent me a favourable Answer But I understand the Matter is not yet complied with: I refer you to my Letter for the reasons of my pressing this Matter as a thing of the greatest moment, I have lately received Advices from Col<sup>o</sup> Stoddard which I now inclose to you, which represent the State of Our Affairs to be such as to require your immediate Assistance. And you will give me Leave to tell your Honour that if your Succours are to be raised & sent, after any Blow is struck, It will be of little Service in Comparison of a Force ready upon the Spot to recieve & repel the Enemy, I must therefore repeat my Instances that no Time may be lost but that your Succours may be sent into the County of Hampshire as soon as possible

Having by means of one Robert Clarke the Bearer got Intelligence that John Scions, Joseph Boyce, and one Bosworth conceal themselves at and near a Place called the Oblong in New York Government & sometimes in your Government that borders thereupon occasions my present Writing to your Honour.

They are men that have been Guilty of enormous

Crimes in this Government having been two of them tried and convicted at Salem for forging & Emitting Counterfeit Bills of Credit & upon praying the Same had the Benefit of their Clergy\* allowed them since which upon perpetrating fresh Crimes of the like Nature they were taken & Committed to Salem Goal from whence they escaped & have for the most part with their Associates & others that joined, ever since continued the like Practices so as to be a Pest to this & the Adjoining Government

It is expected they will be taken in New York Government or Yours & the Bearer who has been so instrumental in discovering them is resolved to Act every thing in his power for the taking & convicting of them & therefore what is in your Power for countenancing, protecting or Assisting him in the Doing thereof without Question will be complied with on your part. The Heads of this Confederacy have been bold & daring in their Villanies and have practised the same hitherto with so much success that it will be next to impossible to Suppress this great Mischief without Suppressing them and therefore what is in your Power to do towards it without Question will be complied with

'WILLIAM PEPPERRELL TO WILLIAM SHIRLEY.\*

*May it please your Excellency*

The Letter herewith Inclosed Contains an account of the State of the army during our stay at Canso since which a more agreeable Scene has opened. I have now the pleasure to Inform your Excellency, that on the 29<sup>th</sup> ult<sup>o</sup> We set sail from thence in hopes of reaching Chapperauge Bay that night, but the wind failing Rendered it impossible, and Obliged us to lay asside the thoughts of a surprize, the next morning about Eight aClock We were off the mouth of the Bay upon which the Enemy made an Alarm by firing off a number of their Cannon We came to Anchor with all Expedition & tho it was a Difficult time determind immediatly to Land the Troops under Cover of Fletchers, Bosch's & Sanders Guns. A party of about 150 of the Enemy Sallyd out to Annoy our Landing who were well received by the Boats first on Shore who kill'd Six or seven & took as many prisoners (among whom were some persons of Distinction) without Loss of any on our Side & one or two Slightly wounded, the Enemy soon retreating to the Garrison. We landed about 2000 men the first

day during which time the Enemy Burnt a number of Houses between the Town and Grand Battery, & sunk some Vessells in the Harbour the next day Landed the Remainder of the Troops & proceeded to put the Army into a proper Disposition for such operation as should be found most Expedient.

Next morning found that the Enemy had Deserted the Grand Battery in a very precipitate manner having Spik'd up the Guns but left the Trun[ ] on & many of the Carriages whole and a Quantity of Shot upon which immediately ordered a Regiment there, the Union Flagg to be hoisted & Workmen to Drill the Cannon who soon got several of them Cleared, and turn'd them on the Town with good Success, almost every Shot lodging within the Town & a Considerable Number among which was the 3<sup>d</sup> 4<sup>h</sup> & 5<sup>h</sup> fell into the Roof of the Citadell. We have now got about Twenty of them ready for service four only of which can bring to bear upon the Town most of the others Command the mouth of the Harbour. hope soon to get the whole number Drill'd which will be Twenty five 42 pounders & two 18 pounders, three of the 42 Pounders being Split, Cannot Conceive of any Reason why the [ ] should Desert so fine a Fortification but Extrem want of men, the Enemy return Our Fire from thence with some Cannon & more Bombs some of which have Shatter'd part of the Wall & Buildings but hurt none of our men. The Landing & Transporting of the artillery & Stores prove very Difficult have got the small mortars & Cohorns to a hill about Four hundred yards Distance from the Town and y<sup>e</sup> large one to another Hill near that from wh[ ] have thrown some Bombs into the Town, but the Bed of the large one me[ ] our Chieff Dependence is has twice given way & put us to Dif-

ficulty. The Enemy have twice Sally'd out towards that Battery but were Repuls'd by the Detachment posted for the Security thereof without Loss on our side & only one man wounded but by some Cannon they have turn'd upon it from the Town We have had one man killed & 2 or 3 Wounded We have also thrown up a Fascine Battery at the West part of the Town where Expect this night to have mounted the Eight 22 pounders. on the 7<sup>th</sup> Instance by Advice of the Council at which had the pleasure of Commodore Warrens presence a summons was sent in to the Commanding officer at Louisbourg Copy of which with the answer have Inclos'd, upon which Determin'd to proceed in the most Vigorous manner and to attack the Island Battery in Boats the first favourable oppertunity to the assistance of which Comodore Warren offered to send a number of his Sailors & marines but as yet have not had oppertunity to prosecute it I had the pleasure of meeting Commodore Warren on my passage to Chapperouge Bay who assured me of his readiness to Contribute to his Utmost in any Shape for the good of the Expedition and since our Landing he has been so good as to come on Shoar with the kindest offers of the same which are very Acceptable and Engaging, yesterday I received your Excellencys Letters of 10<sup>th</sup> & 22<sup>d</sup> Ult<sup>o</sup> by Express from Canso Capt Bradford being Detained there by the Loss of his Boom delivered to Comodore Warren his Inclosed Packetts, what relates to that Gent<sup>n</sup> in your Excellencys Letters is perfectly agreeable to me. I shall on all occasions be fond of the assistance & advice of a Gent<sup>n</sup> whose generous Attachment to the Welfare of the Colonies in General and this Expedition in Special added to his Well known personal merrit in his active & Successful Service of our nation

intitles him to the highest Esteem and Regard from every well Wisher to new England I had before the receipt of yours wrote to Capt Tyng that he should with the Vessells under his Direction wait upon the Commodore for his orders & strictly to observe the same have Acquainted him of your orders to me relating to sending Smethurst to new England I make no Doubt of His majesty & the ministrys Intire Approbation of your Excellencys Conduct in setting on foot this Expedition & that they will support it but hope we may accomplish our Design without Waiting for any Additional Force from thence I imagine it would be fruitless to send to Annapolis for any part of their strength at a time when they may Apprehend themselves in Danger of a Seige, Col. Moulton has Joyned us with the Detachment sent to St Peters having Destroyed that Settlement taken some plunder & prisoners burnt four Schooners & brought off one he lost one man & had one wounded y<sup>e</sup> greater part of the Inhabitants made their escape, have also Advice from Capt Donahew of his Return with Beckett from the Bay Vert, in going up the gutt he met with a party of Indians upon which Capt<sup>s</sup> Jacques & Staniford with their Companys going on the Shore tho Contrary to orders. the former had the misfortune to be killed & one other wounded, the Indians were Beat off without other Loss on our part in the Bay of Vert he took two small Vessells that were Empty the others were halted up where he could not come at them he Burnt a Considerable number of Houses and Birch Cannoes but was not so fortunate as to meet with any further Success. I find Capperaug Bay a fine Harbour for the Transports which have ordered to Remain their under the Care of Capt Saunders should have Dispatcht a Vesell to your Excellency imme-

diately upon our Success at the Grand Battery but the Wind has proved Contrary and I was in hopes of being able to give your Excellency an account of some Addition to our acquisitions

By Advice of the Council this Day have Determined to Incamp in a Regular manner near the north-east Harbour & throw up a Battery there & mount the new york Train of Artillery and some of the Guns from the Grand Battery and to leave one Regiment at the Grand Battery to Support & Repair it which may be soon done in such a manner that 200 men will Defend it against 2000 & with that & the other Battery proposed imagine that we may Command the Harbour against everything that will Attempt to get in & by posting two Regiments to protect the Battery on the West Side and Intercept any Recruits getting in by Land we shall intirely cut off any Communication with the Town as it has been Judged not advisable to attempt the storming the Town at present and as a Considerable reinforcement may be Daily Expected by the Enemy from Canady as well as Force from France which it is possible may find means to get in. I am advised by the Council to move to your Excellency the Sending us a Reinforcement of a Thousand men also another large mortar and a number of Shells & spare bed for the large mortar, shall send up fourteen Transports under Convoy of Capt Smethurst for that purpose & by him & them shall [ ] the prisoners a List of which have Inclosed, am much obliged to your Excellency for your Care in Regard to us I have just reced yours of 23<sup>d</sup> which Capt Donahew brought down from Canso by whom am Informed that five of the Vessells with provisions for the army are arrived there having narrowly Escaped the French Ship that has been upon the Coast some time who

had obliged one of them to strike which afterwards Escaped by meeting with Rouse who to prevent the Transports falling into the Enemys hands gave the Ship opportunity to Chase him by which means those of them got Safe to Canso am fearfull that one or both the other are taken the French Ship having made use of our Signals for a Decoy have not yet heard further of Rous. hope Capt Cutter will be able to give you a good account of him by this oppertunity have desired Commodore Warren to send up a Convoy to Canso to bring down the provision Vessells there. shall write your Excellency again by Capt Smehurst whom I Expect will be here very soon in the mean time must pray that multiplicity of Business may Excuse what is wanting in this

I am with all Duty

BOSTON May 18. 1745

*Sir,*

I have now the Pleasure to congratulate your Honour upon the favour of Divine Providence towards us in our undertaking for the Reduction of Cape Breton, in the Advantages we have already obtained against the Enemy & the Prospects we have of further Success; and you will have a greater Share of Satisfaction herein as your Govern<sup>t</sup> has taken upon themselves some part of the Charge & Burthen of this Expedition: But both the General & Commodore Warren press earnestly for a Reinforcem<sup>t</sup> of Troops, for which my principal Dependence is on the Govern<sup>ts</sup> of New Hampshire & Connecticut; I do therefore desire that you would supply what Force you possibly can, & that without the least Delay: And that herein you would consider the vast Expence this Province has been already at; for besides that our Quota of Troops does greatly exceed yours in proportion to our Numbers & Estate, if you will add our large Naval Force, our Train of Artillery, the Powder & other Stores of War & Implements for the same, & many other Charges for the Advantage of the Forces in general w<sup>ch</sup> this Province will bear alone, I question whether the Charge of your Colony will amount to much more than one tenth Part of ours in the Proportion I before mentioned: And therefore I hope your Govern<sup>t</sup> will furnish five hundred Troops more for this Service at least. I have inclosed you a Copy of my last Letter from General Pepperrell, by which you will find that we are at the very Crisis of this Affair, & that the least Loss of time may prove fatal, And if you will let me know when your Recruits will be ready I will take Care that you shall be furnished with sufficient Convoy for them.

I must earnestly press your Honour to give Orders for the Dispatch of the Vessels in your Colony loaded with Provisions for this Place, that so we may have sufficient to supply our Forces, which is a Matter of very great Moment. I must also entreat you to forward the Letters to the other Governours by Express to Governour Clinton without Delay

I am Sir,

Your Honours obedient  
humble Servant

\* This draft, with the exception of the date line, is in the handwriting of Jonathan Trumbull at this time one of the Assistants. It is much interlined and rewritten.

and We can send our Stores & provisions There for Them, w<sup>ch</sup> may be The safest & most Expeditionary method; I have sent This Express to know when They may probably be Embarked there, what may be Expected from other Governments, and to give Assurance y<sup>t</sup> the utmost Diligence shall be used to forward the Supply of the Numbers agreed upon here, and This comes with Expectation to have an Answer to it This Week. This Colony is Zealously Engaged in the Common Cause & I hope your Excellency will not Think us much wanting in our Undertakings in his Majesty's Service, w<sup>n</sup> you remember we have 600 already men gone to Cape Breton, 200 Detached for y<sup>e</sup> Service of N Y. 60 men for Hampshire County, and, y<sup>s</sup> Therefore may serve to answer to your's of y<sup>e</sup> 27<sup>th</sup> of April last to Inform That Our General Assembly has come into a Resolve fully Impowering The Com<sup>tee</sup> of War to Raise a Comp<sup>a</sup> of 60 Effective men including Officers to Send into The County of Hampshire (w<sup>n</sup> on further Intelligence they shall Judge it Necessary) under The Direction of y<sup>r</sup> Excellency To keep Garrison in y<sup>e</sup> Line of Block houses between Connecticut River & y<sup>e</sup> Dutch Settlements at Hoosuck & Scout There, provided The Province Victual & Support Such Soldiers during y<sup>r</sup> Continuance in y<sup>e</sup> Service afore<sup>d</sup>; I shall Take The most Effectual Measures for The Dispatch of y<sup>e</sup> provision Vessels Designed for Boston: We Shall probably want some powder and other Stores for The Recruits, w<sup>ch</sup> doubtless you'l Easily Secure for us;

BOSTON, 24<sup>th</sup> May 1745.*Honourable Sir,*

This Serves to accompany a Letter from M<sup>r</sup> Palmer in London, & to tell the unhappy news, that Cap<sup>t</sup> Craige is taken by the French & none of his letters arrived in London, & beyond all doubt, never will; be sure I have no answer to mine nor any body else I can hear of; I supposed it was best you Should have this Intellegence while the Court was sitting, & should have sent an express, if M<sup>r</sup> Burnham who brings this had not promist me to deliver it to your Honour by Monday evening. We are in hourly expectation of news from Cape Breton, & hope it will be good, but have nothing yet but what is in all the prints, I am with my hearty Service to the Gentlemen of the Council & my other friends of the Court,

being there as soon as your Troops shall be ready to embarque

WILLIAM PEPPERRELL TO PETER WARREN.

From the Camp May 31<sup>st</sup> 1745

S<sup>r</sup>:

This Comes to acknowledge the fav<sup>r</sup> of Yours of the 29<sup>th</sup>: and 30<sup>th</sup> Ins<sup>ts</sup>:\* And I assure your Hon<sup>r</sup> that it was not from any Disrespect to your opinion Given in the plans you Sent us that you had not our hearty Concurrence in them. You will remember that we Joyn'd with you in Making a General assault and that upon your perceiving the Dislike of the under officers you yourself wav'd it also we have pursued your opinion in Attempting the Island Battery as I before wrote you and as to the rest you will not think a Difference in opinion by men that are to Judge in a Case is a Desrespect to Each other

We have taken Such Care in our Camp that the Batterys Should be Guarded and Supply'd with Stores and provision that it has been as Sufficiently done as if our Main Camp had been farther from where our Stores are Landed and Nearer our Battery, we have now ordered a Guard Camp and the rest to Encamp

---

\* Warren's letter of the 30th to Pepperrell, also one of the 31st, are printed in Massachusetts Historical Society, 6 Collections, X, 233, 236.

near the Stores and where our Sick and wounded may be Clear from the Shot of the Town

Your proposal to Send Some Vessells to Boston with the Prisoners is Agreeable to me they being So numerous as to Exceed our men on board the Transports and we have not Irons to Secure them So that our men at the head of the Bay think themselves not Secure. Your Hon' will Consider if a General assault Should be made whether So many men as must be Sent Can be Spar'd but they had as Good be Going With them as ly to Guard them here

It was the opinion of those men with us that were acquainted with the Island Battery that the weather was favourable for the attempt So we proceeded and those who Came back don't Complain that they were defeated by the Surff but the Strength of the place and the darkness of the night by means of which Some of our boats Could not find the place

It is true that the Town has been accounted Impregnable by Sea but we have now the Royal Battery in possession and have play'd our Cannon from our Batterys So Successfully on the Circular Battery that we think we have Dismounted Several of their Guns, this we ar prosecuting and hope for farther Success

We are forward with a Battrry of Eighteen pounders on the Light house Side to play on the Island Battery which we hope may be to Good purpose. I hear the Enemy have Laid a Boom before the Town to prevent Landing from the Ships

Thus having Laid the True State of the Case before you; Whether it may be proper to Bring in the Ships before the Town and with a force from thence in Conjunction with what Can be done on our part (which I assure you Shall be to the utmost) to

attempt the Reduction of it or not I Leave to your Determination who are best acquainted with affairs of this nature

By mine to you of the Ins<sup>t</sup> I Inform'd you of the State of the Land Forces Since which we have had an Engagement with the Enemy wherein we Lost Seven men among whom the Brave Cap<sup>t</sup> Dimeck was one and had thirty wounded this party of about one hundred and fifty were Design'd to throw themselves into the Town or Distress our Camp but as the prisoners tell us are now Scattered and they have had about forty Kill<sup>d</sup> and wounded.

Your Hon<sup>r</sup> Will Consider what Number we Can afford you to assault the Town on the water Side Reserving a force Sufficient to Enter at the west Gate and to Secure our Camp if We Should not Succeed

As your Hon<sup>r</sup> observes we are happy in that we Can be Supply'd from you with powder: the Seige being drawn out to a Greater Length than was Expected and the Strength of the wall making it Necessary to Discharge So many Cannon has been the Cause of our want and I must farther tell you that we have no Ball for our Eighteen pounders So that the Battery on the Light house Side must be Entirely useless unless we Can be Supply<sup>d</sup> from you

From the Considerations you have mentioned and from the Sickness in the Camp and our Exposedness in our Enemys Country to their Insults, I am of opinion the utmost Dispatch Should be Given and am resolved no thing on my part Shall be omitted

I have Watched for an oppertunity to wait upon you on Board this morning I with the Gen<sup>l</sup> officers Set out for that purpose but were Lost in the fogg and so Returned Since the Coming on board is So uncertain if you would Honour us with your presence

here Which I Should Greatly rejoyce in or if that Cannot be Send me your opinion it might prevent Delay I intend to Embrace the first oppertunity to Come on Board as it was before proposed [Indorsed] to Comodore Warren

BOSTON 15 June 1745

*Sir,*

I have just now receiv'd Letters from General Pepperrell & Commodore Warren, by which I learn

that altho' we have suffered some Loss of men (between 100 & 200) in an Attack of the Island Battery, w<sup>ch</sup> miscarried, yet that we have obtained considerable Advantages ag<sup>st</sup> the Enemy in taking several of their provision Vessels, & worsting them in some Skirmishes, our parties have had with them, & by the Intelligence they have rec<sup>d</sup> from Prisoners, w<sup>ch</sup> is confirmed by other Circumstances, the Enemy are short of Provisions & Ammunition, But as the Number of our Men there are not equal to the Greatness of the Enterprize, & therefore the Duty is heavy on the Officers & Soldiers they press importunately for at least three thousand Land Troops as absolutely necessary to reinforce them, & a considerable Number of Seamen for manning the Ship Vigilant; And altho' the Land & Sea Forces need these Recruits, yet I still find the Officers full of Expectations of a happy Issue of this Affair, by the reduction of Louisburg; & as the Success thereof is of the utmost Consequence to the best Interests of these provinces, and which (as I find by Letters, Commodore Warren has rec<sup>d</sup> from the Ministry) his Majesty & his Ministers have much at heart; I must therefore with great Earnestness press your Honour to have as many Soldiers & Seamen raised in your Colony as can possibly be spared & that without the least delay; & I do assure you that I find the Assembly were well spirited to support the Expedition to their utmost, and that they will do all that they can to furnish the necessary Recruits, but it is not possible nor can be expected that we should answer these Demands of Recruits without very great Assistance from our Neighbors.

We hear nothing of our Transports coming from Cape Breton, and are taking up fresh Transports for our own Troops here, & are afraid there will be a

Necessity for your doing the same, tho' we hope you may depend upon Convoy w<sup>ch</sup> we expect every day from thence.

It will be of great Consequence that I hear speedily from you for the Encouragement of our friends at Cape Breton.

I am Sir,

Your Honour's obedient  
humble Servant

W SHIRLEY.

P. S. I hope your honour will exert your self upon this Occasion; it is the very Crisis of the fate of the Colonies of New England—I must press you in the Strongest manner to augment the number of your recruits; and to imbark those already raised as soon as possible, as I shall begin to do thorout this Province. The Disappointment from the Transports not being sent by the General, as he propos'd is unforeseen & unavoidable: pray don't let that be any obstacle in the case. The Quantity of ammunition I must now send down is exceeding great but we regard not Expencc.

*Sir,*

Upon further Consideration of the great Necessity of giving the utmost Dispatch to our new raised Troops for the Expedition against Cape Breton, I do most earnestly desire that you would send those you have raised without Loss of Time to Nantasket, where they will be ready for Our Convoy which We daily expect from Cape Breton, & if upon her Arrival here she must make a Voyage to Connecticut for your Transports, it will occasion such a Delay as may prove of mischevous Consequence to the Grand Affair; and therefore I beg you would be expeditious in this Busi-

ness, for I hope to have some hundreds of men to embark by the latter End of this Week; I must depend upon your augmenting the Number of your Troops last voted, but that must not hinder the Dispatch of those you have ready.

We have been very happy in having the Fleet commanded by a Gentleman of Commodore Warrens well known Superior worth & Goodness; he has shown the utmost readiness to assist us in everything in his power.

*Sir*

I have the Pleasure to acquaint you, that we are in quiet Possession of the Town, and Garrison of Lewisbourg, and the Territorys hereunto belonging; and that It is my Duty, pursuant to the Orders I have receivd, to apply to you, and the different Governours upon the Continent for such Provision, and Men, as I may want, & I never had more Occasion for y<sup>r</sup> Service, than at present, in order to keep Possession of a Garrison, that is the Key to all the french Settlements, upon the Contenent, & of which Possession, every Collony will feel the good Effects, therefore hope you will send with all Speed, y<sup>r</sup> Quoto of Men; armed, & victualed for at least seven, or Eight Months, to remain here for the Support of this Garrison, till His Maj<sup>s</sup> Pleasure shall be known, till which Time I shall continue here.

You will please to advertize all his Maj<sup>s</sup> Subjects, that are willing to come to this Port, to Trade with the Garrison, and Inhabitants, shall have free Liberty, without any Duty or Imposition whatsoever, & that none of their People shall be molested, or impressed, into His Maj<sup>s</sup> Ships or Service, and there are several

Prizes here, who will be condemnd, and disposed of, and many more will, no doubt, fall in dayly by our Cruizers. I make this application to all your Neighbouring Governours, and have begd them to recommend y<sup>e</sup> Consideration of this my Request, to their different Legislatures, who cant in any manner, give greater Proofs of their Loyalty to his Majesty, their Love to their Country, and their Care of Posterity, than by assisting me, with the means of keeping Possession of this important Place, till his Majesty can make Provision for It, of a Garison, & Collony, thát in Its Consequence, will be the Means of exterpating so dangerous an Enemy as the French are, out of the Contenent, and of uniting such Nations of Indians to us, and to one another, as will greatly encrease our Fur, and fish Trade, and secure us & our posterity in the quiet Possession of our Civil & religious Rights.

*Sir,*

I have rec<sup>d</sup> your Letter of the 19<sup>th</sup> Instant, And am extreamly glad of the Discovery you have made

of the Counterfeiters of the Bills of Credit, & that you have so much Success in breaking up such a Knot of Villains.

I have ordered three Transports to proceed directly to New London, & they accordingly sail'd last Saturday; Our Committee of War tell me that one of your own Vessels was returned, which they expect you will continue in this Service. As to Convoy, I can't see how we can furnish you, unless from this Place to Cape Breton, provided your Troops come here in a few days. Captain Snelling is arriv'd here but I am oblig'd to send him away with the utmost Dispatch with a large Supply of Powder, Shott & Bomb Shells, for want of which the General informs me that they have been oblig'd almost to cease their Fire upon the Town. I hope to get away four\* Recruits with him & a considerable Number of Seamen for manning the Ship Vigilant. And I hope to have the rest of our Troops ready by the latter End of this Week or the beginning of next; by w<sup>ch</sup> time hope to see yours in Nantasket; However our Convoy shall stay longer for 'em.

Heart, and therefore will pardon the freedom we take of a few Lines in Relation to that Matter; The Troops that are already gone from this Colony your Honour will please to remember were provided with Stores for four Months only three of which are near or quite expired, and one Months Time may be little enough to supply them with more. The Souldiers by the best Intelligence wee can obtain are very much harrassed and fateagued and a considerable Number sick & unfitt for Service, and stand in great need of a Reinforcement, Wee are credibly informed that the Massachusets Province notwithstanding they had so vigorously exerted themselves at first & by four hundred Recruits and constant Supplys since; upon the pressing Instance of the General have resolved to reinforce the Army a second Time with six hundred Men and are actually raising them, and your Honour will doubtless collect from the Posture Circumstances and Designs of the Army that possibly they may much need them: Now the Sentiments and Desires of great Numbers of People of good Interest about us (to which wee assent and beg leave to recomend to your Honour) are, that the most speedy and effectual Measures may be concerted and taken, for the further supplying our Souldiers in the Service, with Provisions and other Necessaries and Comforts; And that Your Honour would be pleased to take it into your wise Consideration whether the great Importance of this Expedition dos not require that this Government be in Preparation for a further Reinforcement of our Troops in the Army, and that if your Honour's Wisdom should direct to any Thing of such like Nature, the sutable Methods for effecting the same, might (with

*My Lord Duke*

I have Allready had the Honour to Transmitt to y<sup>r</sup> Grace in Conjunction with Commodore Warren an Acco<sup>t</sup> of the success of his Majes<sup>ty</sup>s Arms in The Reduction of Louisbourg, & Territories Adjacent, to his Majestyes Obedience, which was Happily Effected on the Sixteenth Ins<sup>t</sup> by an Army of his Majes<sup>ty</sup>s New-English Subjects whom I have the Honour to be at y<sup>e</sup> Head of; Assisted on the Seaside by a Squadron of his Majestys Ships, under the Command of M<sup>r</sup> Warren, s<sup>d</sup> Fortresses & Territories being Surrendred

on Terms of Capitulation of which a Copy was forwarded to your Grace with our Letter & Duplicate hereof is herewith Inclosed, on the 17 Ins<sup>t</sup> his Majesty's Ships Entered y<sup>e</sup> Harbour & y<sup>e</sup> Same day part of y<sup>e</sup> Troops with myself Marched into The City since w<sup>ch</sup> have used the Utmost dilligence in makeing The propp<sup>r</sup> dispositions for the Security & good Regulation of the Place, & the Speedy Evacuation of it, agreeable to the Terms of Capitulation, I have now the Honour to Inclose to y<sup>r</sup> Grace an Acco<sup>t</sup> of what Troops were Rais<sup>d</sup> in each of his Maj<sup>ty</sup>s Governments in N Engl<sup>d</sup> which were Aiding in This Expedition No all y<sup>e</sup> Officers Names were Sent here placed Accord<sup>s</sup> to their Rank & the Present State of them, & I flatter myself that his Maj<sup>ty</sup> will be graciously Pleas'd to Approve of their Zeal in Voluntarily engaging in so Expensive & hazardous an Enterprize even before they had Notice of any other Navale Force, then the Private Vessells of Warr fitted out by themselves, & I humbly begg y<sup>r</sup> Grace's Leave to say that I should not do my Fellow Soldiers Justice If I Ommitted this Opportunity to Assure y<sup>r</sup> Grace that they have with the Utmost Cheerfullness, endured Allmost Incredible Hardships not only those Necessarily Incident to a Camp, in such an Inclement Climate where their Lodgeing & Accomodations could not be but of the Poorest Sort but allso in Landing & Transportation w<sup>h</sup> Infinite Industry & Pains our Heavy Artillery (some of which were 42<sup>l</sup>b<sup>s</sup> Cannon) severale Miles in Cold foggy Nights, over Allmost Impassible, Boggs, Morasses, & Rocky Hills, allso in Landing the Warlike Stores & Provisions, in doing w<sup>ch</sup> they were Extreemly Expos<sup>d</sup> & at the same Time we were Obliged to keep out Large Detachments to Range the Woods, in Order to Intercept & Disperse

Parties, of the French & Indian Enemy who were gather<sup>s</sup> together behind us, with whom we had Severall Skirmishes, in all which we Routed the Enemy Killed & Wound<sup>d</sup> Many of them, & took upwards of two hundred Prisoners. Severall Sallies were made from the Town, in all which we Repuls<sup>d</sup> the Enemy with very Little Loss on our side, & we have been so happy Thrô gods goodness as not to Loose above 100: Men by the Enemy in the whole of this great Enterprize they held out ag<sup>t</sup> a Close Siege of Forty nine days, during which Time we Rais<sup>d</sup> five Fascine Batterys from whence & a Large Battery deserted by the Enemy on our Landing We gave them above Nine Thousand Cannon Ball & About Six hundred Bombs, which greatly Distressed them & much Damaged their Fortifications, & in Particular rendred useless The most Considerable Battery of the Town (Called the Circular Battery) which Mounted Sixteen Large Cannon, & very much Commanded the Harbour The Fatiegue of our Men in all those Services was so great that we had near Fiveteen hundred Sick at a Time Notwithstand<sup>s</sup> all w<sup>ch</sup> they not only Continued to Express the Greatest Zeal to go on Vigorously against the Enemy, but in General generously Acquiesced in the Loss of the Plunder they Expected from the Riches of the City, & tho' Undisciplin'd Troops, I am Perswaded his Majesty has not in his Dominions a Number of Subjects more universally Loyall or that could possibly Express greater Readiness to spend their Lives in the Cause they were Embarked in for his Majes<sup>ty</sup> Honour & y<sup>e</sup> Good of their Country. I Esteem it a Peculiar Fav<sup>r</sup> & of the Happiest Consequence, that his Majest<sup>s</sup> Ships sent so Timely to our Assistance were under the Command of a Gentlemen of such distinguish<sup>d</sup> Merritt, & so Universally belov'd in

N. Engl<sup>d</sup> as Commodore Warren He has Constantly Exerted himself to give the Army all Possible Assistance & the same day that a Suspension of Arms was desired by the Enemy, we had determin'd upon a generale Assault by Land & Sea, & for the Better Manning the Ships for that Purpose it was agreed to Spare them Six Hundred Men out of our Troops, I have the Honour allso to Inform y<sup>r</sup> Grace that in our Way from N Engl<sup>d</sup> we Stopt at Canso & Began to Rebuild the fortification there which the french Destroy'd Last Year & Left Eight Cannon with the Necessary Stores, & Eighty Men of the Troops to Compleat & Defend the same, which hope will Meet with his Majest<sup>s</sup> Gracious Approbation, We have Allso destroy'd the Town & Fort of St Peters & severall Other Considerable Settlements upon this Island & may the Happy Success of this Expedition against Louisbourg (the Pride of France) whereby his Majesty has y<sup>e</sup> Key of the great River of S<sup>t</sup> Laurence, & by which the Absolute Command of the Fishery, & Indeed very much of y<sup>e</sup> Whole Trade of N<sup>o</sup> America is Secured to his Majest<sup>ys</sup> Subjects be an happy Prelude to the Reduction of all the french Settlements in America, in which will y<sup>r</sup> Grace permit me to say, I am Confident his Majestyes New English Subjects will at all Times Ready to Contribute their Utmost Assistance as farr as their Circumstances will admit of & his Majest<sup>s</sup> Great Goodness Leaves no Room to doubt but that he will be graciously Pleas<sup>d</sup> to Express his Royall fav<sup>r</sup> towards those who Ingaged in this Expedition, in such manner as will Animate them & their Country to proceed further w<sup>th</sup> the greatest Cheerfulness. I must not Omitt to Acquaint your Grace that y<sup>e</sup> french in Conjunction with the Indian Enemy had Prepared to Besiege the Garrison

of Annapolis Royall this Summer Seven or Eight Hundred of them having gathered together there, Expecting as tis said an Armament from France to Join them but were Call'd of from thence to the Relief of Louisbourg, but did not arrive in Season it appears there were notwithstanding ab<sup>t</sup> 2000 Men Able to Bear Arms in the City when it was Surrendered, I now have the Hon<sup>r</sup> allso to Inclose to your Grace an Acco<sup>t</sup> of the State of this Fortress, & of the Stores found here, & beg y<sup>r</sup> grace's Leave to Mention that the Inclemency of this Climate will Render it, Absolutely Necessary that Particular Care be taken for the Warm Cloathing & Lodging of the Troops Posted here I Presume his Majesty will be Pleas<sup>d</sup> forthwith to make Known his Royall Pleasure Relating to this Important Place till w<sup>ch</sup> Time I shall Endeavour w<sup>th</sup> the Utmost Loyalty & my best Discretion to Promote the Security & good Regulation thereof & Beg Leave to Subscribe myself w<sup>th</sup> all Possible Duty & Respect

WILLIAM SHIRLEY TO JONATHAN LAW.

BOSTON July 3. 1745.

*Sir,*

I have now the Pleasure to Send your Honour by Express the News of the Reduction of Louisbourg to the Obedience of His Majesty, and the Surrender of it accordingly: But to maintain our Conquest there

which is of the utmost Importance will require the Assistance of all His Majesty's Colonies & Provinces in North America, for furnishing Men Ammunition & Provisions for garrisoning & defending the place till His Majesty shall order Troops from Great Britain, or otherwise Signify his Pleasure in this affair: And I Apprehend this to be the most critical Juncture for Securing it from the Attempts of the Enemy to recover it: For it cannot be doubted but that the French King will soon Send a strong Force both of Ships and Troops to reduce it, before we can be well Secured in the Possession of it, and you may reasonably Judge that this Province is already drain'd of Men Provisions and Ammunition; However we are still so heartily Engaged in his Service, that we have lately sent Four hundred Troops who I Suppose Arriv'd at Louisbourg since the Surrender of it, besides upwards of Sixty Seamen—for manning His Majesty's Ship Vigilant and have about Two hundred Soldiers more Embarked and ready to Embark whom I shall get away with all possible dispatch, And I cannot but hope your Honour & the General Assembly of Connecticut will in duty to His Majesty, and in regard to the common Interest of all His Subjects in North America make Provision for the Raising of a Number of Soldiers immediately for this Service And have them Transported without delay, and likewise give Orders for the taking up and purchasing all the Gun Powder and Provisions that can be got for the Garrison at Louisbourg and the Ships Employed there, of both which they are in want, as the General and Commodore inform me, as also Provisions for the French Prisoners to be Sent home to France: and as this will require a vast quantity (of provisions especially) It is my Opinion that no pro-

visions ought to be Allowed to be Shipt off from the Plantations where they are raised to the West Indies, or any foreign parts whatsoever, till this Want be Supplied: It will also be requisite that all the Gun Powder that can be found in your Colony except what may be absolutely necessary for your own defence, Should be Secured for His Majesty's Service, and I should think if your Honour will Employ some Merchants in your place for the purchasing of the Powder who will be able to find it out better than your own officers, it will be a most likely method of being furnished with a good Quantity of it, of which this province is almost entirely Exhausted, having sent off for the Expedition againt Louisbourg about twelve hundred barrels, and I hope that you will Consider that both the Garrison & Ships will want a considerable Supply

I am Sir,

your Honours most Obedent  
humble Serv<sup>t</sup>

W SHIRLEY

P. S. I must depend upon your Honours immediate sending forward by fresh Express the inclosed Pacquet for the Govern<sup>r</sup> of New York.

I have to add to the above Circular Letter y<sup>t</sup> I hope our success will not make your Governm<sup>t</sup> slacken their Endeavours for raising men, w<sup>ch</sup> are as much or more wanted for keeping the Possession of Louisburg ag<sup>t</sup> the Enemy for a few Months, y<sup>n</sup> at first for taking it; as France will press out all her force from Europe and America to retake it instantly, if possible, before his Maj<sup>y</sup> has garrisoned it with regular Troops, and the Fortifications are repaired: And I beg your honour would dispatch your Troops round as soon as possible — And y<sup>t</sup> you will not fail, at all Events, to

secure all the provisions wanting for the fleet and army, w<sup>ch</sup> will come to an immense Quantity, and the want of them or of warlike Stores will prove fatal to us, in case of the landing of a Body of the Enemy, notwithstanding the Strength of our Naval force; And the General informs me y<sup>t</sup> they were in daily expectation of the Arrival of 2500 Indians.

with y<sup>e</sup> ancient Athenians & continually y<sup>e</sup> inquiry is what News from Cape Breton? And this not from common Curiosity but a Cordial Concern for y<sup>e</sup> important Event; Every Successfull Step has gladn'd every heart & enliven'd every face.

But when first arrivd on last fryday eve here y<sup>e</sup> Tidings Lewisburg is taken! is taken! Language fails to Discribe y<sup>e</sup> Joy! Instantly shone y<sup>e</sup> Town House with y<sup>e</sup> houses in y<sup>e</sup> body of y<sup>e</sup> Town with a Surprisingly Suddain & Beautifull illumination, as tho' y<sup>e</sup> Same breath y<sup>t</sup> proclamd y<sup>e</sup> happy News had blown up y<sup>e</sup> Town into y<sup>e</sup> brightest blaze; The Spreading Joy like an inundation Soon reacht y<sup>e</sup> remotest parte of This & even to y<sup>e</sup> Towns adjacent, whence from every quarter rush young and old and promiscusly Share y<sup>e</sup> Transporting Story, and fill up y<sup>e</sup> Evening with all y<sup>e</sup> Tokens of Joy and Gladness which Nature or art cou'd So Suddenly Supply. And

On more certain & perticuler Advice of this Great Event & y<sup>e</sup> Glorious Actions conducive to it, yesterday were Mustered the Millitia of y<sup>e</sup> Town, to whose assistance in y<sup>e</sup> Triumphant Rejoycings of y<sup>e</sup> Day were present Many Gentlemen of Distinction with a Nemerous Concourse of every age and Sex, whom to Regale together Sprightly & exhilarating Liquors, was an Ox Roasted whole on y<sup>e</sup> Green in y<sup>e</sup> Midst of them; And y<sup>e</sup> Beat of Drums, Sound of Trumpets, Brisk & regular Discharge of Cannon & Small arms Constitute y<sup>e</sup> Rejoycings of y<sup>e</sup> Day: And on approach of Evening, Splendid Illuminations, Ringing of Bells and Bonfires blazing like y<sup>e</sup> eruptions of Atna, with Health to our Sovreign & y<sup>e</sup> most honourable Remembrance of y<sup>e</sup> Bravery of our Hearoes at Louisburg beautifyd & Enlivened y<sup>e</sup> Night and were but y<sup>e</sup> imperfect exprestions of y<sup>e</sup> overflowing Joys of every Mortal

In a Word Such a Tide of real & Unaffected Mirth & gladness Inspiring So Numerous a Concourse of every age Rank & quality, Unallayd with any ill accident or Disorderly or offensive Action our oldest men have never Seen.

Our first Recruits hope may Safe arrive ere this, And A Second Augmentation of 300 Troops More were last Wednesday ordered with all possible Dispatch to follow them but whether y<sup>e</sup> Advices of y<sup>e</sup> Towns Surrendry will Suspend or prevent y<sup>e</sup> Inlistment or imbarcation is what may not adventure to conjecture. but tis evident y<sup>e</sup> Courage & generous ardour of y<sup>e</sup> Country to Support & carry on this important enterprise has increased even beyond that unprecedented freedom which first gave birth to y<sup>e</sup> Undertaking, and People Seem to need no more than permission to take up arms.

Three Men, one 12 mile from fort Dummer & another at Asha Willet about & another at another place 4 or 5 Days after were Kild by y<sup>e</sup> Indians a few Days past & this Colony now about to Send up 60 men to Scout with y<sup>e</sup> Massachusets Men Above their frontiers, This was certainly before y<sup>e</sup> Indians could have rec<sup>d</sup> y<sup>e</sup> News of taking Louisburg, otherwise it Seems to be that they woud not have Adventured to Shed blood, and many accordingly hope this news may tend to restrain them from persisting in hostilitys, however tis not thot Safe to trust to this.

Cap<sup>t</sup> Church & D<sup>or</sup> Morrisons Familys are well, to whom with M<sup>r</sup> Williams D<sup>or</sup> Woolcot & y<sup>e</sup> rest of our Gen<sup>ten</sup> to whom I have y<sup>e</sup> honour to be known may your honour pardon me in praying to be remembered.

And now may y<sup>e</sup> Same good Providence which

hath hitherto preserved and Protected your valuable life amidst a thousand Dangers, And rendered you Signally Subservient to y<sup>e</sup> Honour and Interest of your Country in y<sup>e</sup> Camp in Due time render your Safe Return to us an equal Blessing both in Court and Council for which more Sincerely Wishes or ardently prays no Mortal Than

*Good Friends,*

As we have agreed to give one another Advice of all that happens, I now Acquaint you that Heaven has favour'd our righteous Cause against the French who have unjustly made war upon us, and Louisbourg with the Island of Cape Breton was the 17<sup>th</sup> of June last, delivered into our hands, where we have now 4000, Soldiers Masters of the place, & ten large Men of War besides many smaller Ships of War there, and We have also taken a large Man of War from the French carrying near Seventy Guns, and between five and Six hundred men besides a great Number of Merchant Vessels, and We have now brought to Boston above Seven hundred french prisoners, and above Two Thousand French prisoners at Louisbourg

and aboard our Ships of War will be sent home to France immediately, This Intelligence we Send you that you may not be deluded by the French or St Johns & Nova Scotia Indians that may Sollicit you to break your Friendship with us to your own ruin, We have been your faithful Friends, and your Traffick with us has been much more for your Advantage than your Trade with the French and you may still live easy with us, & free from the distress & danger of War if you please but if not, & you will let the French & the Indians in their Interest deceive & Seduce you & you will perfidiously break your Solemn League with us, we doubt not but the Great God who is the Avenger of all such Wickedness and has so remarkably punished our Treacherous Enemys the French will stand by us & give us Success for the punishing your perfidiousness, but if you are willing to Enjoy the Benefits of peace with us, we Shall Expect that you will Send two or three of your chief Captains to Confirm the Friendship between Us. and if any of your people stand in fear of the French and therefore want protection for themselves and their Familys and will come up to Boston, we will take care of them, I Expect that you Send me your answer without delay.

*Sir,*

I have received your Letter of the Tenth instant and am something surprized that you should apprehend the raising the Soldiers for Louisburg is unnecessary because the Place is surrendered; If care be not taken to preserve it, our Pains & Cost in reducing it will be worse than lost, And we must needs think that many of the Soldiers that have endured such Labours and Hardships in the Siege will be desirous of being dismissed; for this very reason in my circular Letter to the Governours I urged the raising of men for the garrisoning of that Place, and I have already sent about two hundred men from hence, since I have had the Advice of the Surrender of it, & hope to send off as many more within a few days, besides about four hundred men that went from this Province about a Week before we had the News of the Surrender. Therefore I must earnestly desire you to give speedy Orders for the raising the three Hundred men you mention for the Defence of the Place against any sudden Attack in the first place, or if there should be none for the relief of others now at Cape Breton, that they may be sent without Delay.

## REPORT OF COMMITTEE OF MASSACHUSETTS GENERAL COURT.

The Committee to whom was referr'd that part of His Excellency's Speech which relates to the Expedition, having maturely Considered the same, are humbly of Opinion & make report.

That it is of great Importance that the Damage done by the Army to the Fortifications and other Buildings in the City and Harbour of Louisbourg be immediately repaired, and that it is absolutely necessary that a Competent Number of the Forces be Supplied with Sufficient Provisions and warlike Stores until His Majesty's pleasure can be known.

That it is Incumbent upon and for the Honour & Interest of this Government to Continue to Advance such Sums as may be requisite for Securing and maintaining for His Majesty this invaluable Acquisition. And that therefore the Committee of War be directed to provide all necessary Materials for effecting the aforesaid Repairs and cause the same with all convenient Speed to be Transported to the General at Louisbourg, and that they likewise Furnish him with the sum of Two Thousand Pounds in bills of Credit of this Province to be paid by such persons as he shall Appoint to the Workmen Employed in said Repairs the said persons to be accountable for the same.

And with respect to the Warlike Stores and provisions the Committee report that a large Quantity of Powder & other Stores has been sent from this Government which was not arrived at the time of the Surrender of the place & that the present Circumstances of this Province will not admit of any further Considerable Quantity of Powder being sent from hence until a further Supply shall Arrive.

That a large Quantity of Provisions also has lately

been Transported to Louisbourg but as a considerable part of the Armys Stock must have been Employed for the Transportation of the French Inhabitants to France, The Committee are therefore of opinion that a further Supply may be necessary, and that the Committee of War be directed to procure such a quantity of each Species as with what is already provided shall be Sufficient in their Judgments to Subsist such a part of the Garrison Sent from this province as shall be Judged necessary to remain there for three months from this time.

And as the Army is in great want of Cloathing, the Committee likewise report, that the Said Committee of War be directed to make further provision in this regard and cause that the Army be Supplied on the most reasonable Terms.

The Committee further report, that the Committee of War be Enabled and directed to pay one Months Wages to the Order of each of the Officers and Soldiers of the first Enlistment Sent from this province and who are Sui juris, and to Masters and Parents of each of those who are Servants or under age upon its appearing to said Committee of War by certificate from the Commissary of Each Regiment and the General Commissary that such Officer & Soldier has one Months pay remaining due over and above What he has yet received or taken up, and that Letters be Sent to the Governments of Connecticut & New Hampshire Acquainting them with the Resolutions of this Court that they may also Provide for their Proportion of the Forces as they see cause.

By Order of the Committee

By your Letter you seem to apprehend that the penobscutt Indians are generally in these acts of Hostility. However I think it will be best that if any of the said Penobscott Tribe shall appear near the Fort that you hoist a Flag of Truce to call them in to an Interview with you and if you can obtain any Speech with them I would have you read my Letter to 'em which I sent by M<sup>r</sup> Miliken and also tell them that I am Informed

of this Violation of Treaty and that if the body of the penobscutts are engaged with our Enemies I shall immediately Declare War and pursue them with all the Resentment which so horrid an act of Treachery & Wickedness Deserves, but if they profess that the Body of the Tribe are against these proceedings and are Disposed to peace I expect and insist upon this proof of their Sincerity that they deliver up those of their people as have been in arms against us and have Joyned with the party of Indians who have assaulted us and that you will give them the space of Seven Days only for their either delivering up these murtherers or giving five Hostages of some of their principal men to Secure the Delivery of the Said Indians in the Space of Seven Days more

This waits upon y<sup>r</sup> Hon<sup>r</sup> to acquaint you that the two Companies Raised in Connecticut are arived safe at Louisbourg and one hundred & fifty men with proper officers from Rhode Island and according to their assemblys desire are Joyned to my Regiment

I designed upon their arival to have Come home my self and have had two hundred of y<sup>e</sup> Troops under my Command to have been Released. we hav-

Those men that have been in the army from the begining y<sup>e</sup> most of them Insist upon Returning home according to y<sup>e</sup> act of assembly & Proclamation they are almost Naked for want of Clothing. as for those that Came last I Cannot Tell how many of them are willing to stay over y<sup>e</sup> winter. So that upon the whole I believe it will be absolutely necessary that if the assembly have not Impowred any Council of Warr or Com<sup>tee</sup> with power to send troops & provisions to this place to Relieve those that are here. it will be absolutely necessary to Call an assembly for that purpose—The season of the year will not admit of much delay in this Matter. I trust that in a few days I shall be able to write to y<sup>r</sup> Hon<sup>r</sup> what number from Connecticut will be necessary to Tarry here all winter, or Come home myself to acquaint y<sup>r</sup> Hon<sup>r</sup> with it. thô I am doubtfull whether I shall Return till Gov<sup>r</sup> Sherly Comes, or here from him. Amongst those we Saw were nine Penobscotts, the Chief of whom were Sebohooset, one called Rich Outrea & Paternion men well known here. I Read y<sup>r</sup> Excellencys Letter to them thrice that they might fully understand it They sayd it came too late and added that we had broak the peace by refusing them Powder at the Truck Houses, and the taking a S<sup>t</sup> Johns Indian Last fall the Man mentioned in my Last Letter they Killed and Scalp't. We brought him in and buried him, and I hear that a Dutchman at Broad Bay was killed and Scalp't by the Indians about the Same time they were here.

Its now more than ten days Since we Saw them, where they are I know not, but Suppose they are preparing for more mischief, and Expect Soon to See them here. I hope y<sup>r</sup> Ex<sup>cy</sup> will Send Seven men to fill up the Company, and also Increase the Number if it may be thought best.
